PREFACE

The field work for this study was done during the summers of 1960, 1961, and 1962 at Kooskia, Idaho, under the auspices of the Survey of California Indian Languages, Department of Linguistics, University of California, Berkeley, with the cooperation of the Idaho State Historical Society.

My thanks go to Professor William F. Shipley, who, as the chairman of the dissertation committee, encouraged and helped me from the beginning even to correcting the ever intrusive Japanese in my English; to Professor Mary R. Haas, who, as the head of the Survey of California Indian Languages, first introduced me to American Indian linguistics and has been a constant source of encouragement ever since; and to Professor Murray B. Emeneau for reading and commenting on a draft of the grammar.

My thanks also go to Professor Sven Liljeblad, for making available a valuable tape of Mrs. Agnes Moses, who was one of the last monolingual speakers of this language and died before I reached the field; to Mr.

H. J. Swinney, Director of the Idaho State Historical Society, Mr. Merle W. Wells, Historian and Archivist of the same Society, Mr. Marcus J. Ware of Lewiston, Mr. and Mrs. Samuel Swayne of Orofino, Mr. William Johnston and Mr. Ladd Hamilton of the Lewiston Tribune for their kind assistance; and finally, to my teachers of the language, especially to Mr. and Mrs. Harry Wheeler and Mrs. Elizabeth P. Wilson, whose warm hospitality and rewarding friendship will never be forgotten.

While I am indebted to many in this study, the final responsibility for any errors or inconsistencies is mine alone.

INTRODUCTION

The Nez Perces called themselves /nimf·pu·/. The neighboring Indians¹ called them šiwaniš 'stranger,' šuk^wišuk^wi 'dark brown' (Sahaptin dialects), séhápten (Flathead) (Teit 1930: 300), cugádika?a 'kows eater,' sáiduka?a 'people under the tule' (Bannock), cóiga?a 'kows people' (Shoshoni), kúmunuitsitapi 'dark green or dark blue people' (Blackfoot). The whites called them Nez Perces, Pierced Noses, Chopunnish, Blue Earth Indians, Blue Mud Indians, Green Wood Indians, and Flatheads.

/nimf·pu·/ is analyzable into /nimí·/ and /pu·/. The former occurs only with /pu·/, and the latter means 'people.' Together, they mean 'the Nez Perce people.' An apparent variant numipu is also found (Spalding 1840; Morvillo 1888, 1891, 1895; Spinden 1908a: 171). Haines has Nimapu and notes that it means 'the Real people' (Haines 1955: 8).

¹The following are by personal communication: Sahaptin dialects from Bruce Rigsby, Bannock and Shoshoni from Sven Liljeblad, Blackfoot from Allan Ross Taylor.

šiwaniš 'stranger' is used by all the dialects of Sahaptin for the Nez Perce. Some older people, according to Rigsby, use šuk^wišuk^wi, which means 'dark brown' or 'mahogany color' because the Nez Percés are supposed to have darker skin.

The name séhápten and its variants are recorded by Thompson as early as 1809 (White 1950: 72). Sometimes it was to refer only to the Nez Percés (by Thompson, cf. Tyrrell 1916, White 1950); only to Northern or Northwestern Sahaptin (by Tolmie and Dawson, 1884: 78-87, who call their obviously Northern Sahaptin vocabulary "Shahaptan or Nez Percée"); or presumably for S(h)ahaptian including both Northern Sahaptin and Nez Perce.

sáiduka?a 'people under the tule' apparently refers to a Nez Perce type of dwelling, and cugádika?a 'kows eater,' and cóiga?a 'kows people' to one of their favorite foods. According to Liljeblad, sáiduka?a in Oregon Paiute means 'enemy,' 'enemies.'²

²That the feeling was mutual is indicated by the Nez Perce word /tiwélqe/, which at once means 'the Snake Indians (and other Uto-Aztecs),' and 'enemy.'

According to A. R. Taylor, kúmunuitsitapi is analyzable into kúmunui 'dark green or dark blue' and tsitapi 'people'; the former is a possible loan from Nez Perce. Nez Perce has no word resembling kúmunui with the suggested meaning. However, the Nez Perce word /qemúynu·/ for the Wallawa band of Nez Percés (probably identical with kamúinu in Bulletin 30 of the Bureau of American Ethnology given as 'own name') may possibly be the source of the Blackfoot form.

According to Josephy (1955: 14), Nez Perce as a tribal name was coined by the French Canadians. It was first recorded in David Thompson's Journal on March 11, 1810 (White 1950: 96). The name derives from the early Nez Perce custom of wearing a dentalium shell through the septum of the nose as noted by Meriwether Lewis:

"The ornaments worn by the Chopunnish are, in their nose a single shell of Wampom, the pirl and beads are suspended from the ears." (Thwaites 1904-5: 4.37f.)

The custom was also noted by Thompson ca. 1812 (Tyrrell 1916: 486f.), by Ross ca. 1818 (1855: 1.185), by Chief Joseph (1879: 416), by Spinden (1908a: 172), by Curtis (1911: 8.4 note 1), and by Teit (1930: 82, 147, 340). An early discontinuation of this custom was indicated by Parker

(1838: 80) in an entry for August 12, 1835:

"..., but how will those ... account for the Nes. Percés being so called, since they do not pierce their noses ..."

and by Ferris (Phillips 1940: 303), who in recounting his experiences in the Rocky Mountains from 1830 to 1835, noted:

"... there is not among the Nez-perces an individual having any part of the nose perforated."

This early discontinuation probably accounts for the view that the custom never existed and that the name is a misnomer--a view held by not a few including the authors of the article on Nez Perce in Bulletin 30. It is to be noted that Nez Perce was also used to designate the Northern Sahaptin as evident from vocabularies by Ross (1855: 1.312-323) and Tolmie and Dawson (1884: 78-87). The Anglicized Pierced Noses occurred as early as the date of Lewis and Clark's first historical encounter with the Nez Perces, September 20, 1805. Numerous variants are known including Nepercil and Nenpersaas (Henshaw and Farrand 1910: 2.67). Occasional missing of the mark is noted in Neckpercie (Henshaw and Farrand 1910: 2.67) and Oreille Percé (Coues 1897: 1.398)

Chopunnish was used by Clark in 1805 (Thwaites 1904-5: 3.78). Henshaw and Farrand (1910: 2.66) suggested that this is a corrupted form of a Nez Perce word Tsútpěli, a self-designation. Spinden (1908a: 172, note 1) suggested that it might be from a Sioux word Tsunitpelun, a possible corruption of the Nez Perce form. The present corpus bears out neither of the suggestions, nor does it offer a better one.

Blue Earth Indians and Blue Mud Indians may refer (as the Blackfoot word might) to the color and material of face paint. No explanation is available for Green Wood Indians. Blue Mud Indians was recorded by Lewis and Clark (Thwaites 1904-5: 6.106), Blue Earth Indians and Green Wood Indians by Henry (Coues 1897: 2.712), and the latter again by Thompson (White 1950: 105).

The name Flathead seems to have been used in at least three ways; (1) the ethnic group speaking a Salish language, (2) any group practising frontal deformation, (3) any tribe inhabiting the mountainous area west of the Rocky Mountains. It is possible that in the latter two applications the Nez Perces may have been included.

The practice of frontal deformation among the Nez Perces is noted by Teit (1930: 168, 381f.). Spinden

(1908a: 226) refers to skeletal evidence suggesting that it may have been an ancient or occasional practice. However, the reference Chittenden makes to the testimony of an "eye-witness" that the Nez Perce delegates to St. Louis in 1831-32 had flat heads (Chittenden 1902: 2.889) appears to be unfounded since Haines clarifies that the "eye-witness" William Walker arrived in St. Louis late in 1832, after the delegates had left the city (Haines 1937: 78). Further, Catlin did not paint them with flat heads. Even among the Salish-speaking Flatheads who did flatten their heads, the practice may have been discontinued early, as noted by Parker (1838: 80) in 1835:

"I was disappointed to see nothing peculiar in the Flathead Indians to give them their name."

Flathead as an areal term inclusive of the Nez Perces is mentioned by Lewis and Clark. After noting that all nations west of the Rockies practiced flattening of heads Lewis remarks:

"... it is from this peculiar form of the head that the nations east of Rocky mountains, call all the nations on this side, except the Aliohtans or Snake Indians, by the generic name of Flatheads."
(Thwaites 1904-5: 4.184)

Further evidence of this use may be found in Catlin's following statement:

"The Nez Percés who inhabit the upper waters and mountainous parts of the Columbia, are a part of this tribe [Flatheads] ..." (Catlin 1841: 2.108) and in the following phrasing in a burial certificate of a 1831 Nez Perce delegate to St. Louis:

"... Je sousigné ai inhumé dans le Cemetièrre de Cette Paroisse le corps de Keepellelé ou Pipe Bard du Nez Percé dela tribu de Chopoweck Nation appelé Tête Plates ..." (Chittenden and Richardson 1905: 22, note 3)

The territory occupied by the Nez Perce, according to Spinden (1908a: 172), extended from the Bitterroot mountains on the east to the Blue mountains on the west, between latitude 45° and 47°. Thus, while mostly in Idaho, they occupied a considerable area in Oregon and Washington. The adjacent tribes were Northern Sahaptin to the west, Flatheads to the north and east, and the northern Uto-Aztecs to the south, in increasing order of enmity. The military alliance between Nez Perce and Salish against the common enemy, horse-thieves who were after the famed breed of Appaloosa, resulted in an amicable symbiosis of the two tribes. Structural

borrowing from the Salish, in consequence, appears probable.

Driver and Massey (1957: 167) state that "every anthropologist agrees that man's biological evolution took place in the Old World." But we are yet to learn of the relations of the Old World languages to the present American Indian languages, the dates of their intercontinental migrations, or their subsequent development in the New World.

The evidence for human habitation in nearby areas include the Five Mile Rapids in Oregon where continuous human occupation of a site from about 11,000 years ago up to the 1820's was established (Cressman 1960: 66; 1962: 2), the Indian Well site dating from 7500 to 8500 years ago (Butler 1959: 13) on the Washington side across the Columbia from the Dalles, the Lind Coulee site of some 8700 years ago (Daugherty 1956: 256), and the Ash Cave site of about 7940 years ago in the Columbia Basin (Butler 1962: 71). The famed Fort Rock Cave sandals have a radiocarbon date of 9053 ± 350 (Libby 1955: 119). Within the present Nez Perce territory, the Weis Rockshelter site indicates continuous human habitation from 7340 ± 140 years

ago (Butler 1962: 28) to about 1400 A.D. (Ibid. 29) with indications of volcanic ash deposits identified as eruptions of Mt. Mazama (Ibid. 25f.), which are dated as having occurred around 6453 years ago (Libby 1955: 118f.). The Weis Rockshelter is located in /nipéhe/ or Rocky Canyon near Cottonwood, Idaho.

Cressman notes that the time of the impact of the first Shoshonean speaking peoples who filtered into the intermontane region may be the end of the Altithermal, that is 4000 to 4500 years ago (Cressman 1960: 69), and that the date of Salish settlement in the Tillamook area may be 2000 years ago (Ibid. 71). In reference to the pre-Shoshonean linguistic groups, Cressman notes that "Sapir's Penutian stock was apparently that of the old Great Basin population" (Ibid. 74).

Butler recognized an early culture characterized by leaf-shaped projectile points found not only in the Northwest but also in Mexico, Venezuela, Peru, and Chile. He called it the Old Cordilleran Culture (Butler 1961). At Weis Rockshelter, Butler considers the Craig Mountain phase of 5500 B.C. to 1490 B.C. (Butler 1962: 54) to be the regional expression of this culture (Ibid. 56). At The Dalles and in the

Columbia Basin the culture was coterminous with the anathermal period, but in the Camas Prairie region, in the Puget Lowland and in northeastern California it persisted until a later date (Ibid. 56). Swanson refers to the correspondence between the Old Cordilleran Culture and Penutian (1962: 157).

A different linguistic identification of this culture has been suggested by Daugherty, who after revising the Old Cordilleran Culture to "Northwest Cordilleran Area tradition," notes that "the remarkable correspondence, both temporally and spatially, between the concept of Northwest Cordilleran Area tradition and the apparent distribution of early Salishan languages, suggest a relationship" (1962: 149).

Both Cressman and Swanson agree that Penutian preceded Shoshonean.

Still another view is expressed by W. W. Taylor, who in reference to the Macro-Penutian classification suggested by Whorf (1935: 608) notes that "if the concept of Macro-Penutian is valid, the split between Penutian and Utaztecan was thus probably in the neighborhood of 10,000 years ago and somewhere in the mountainous region north of the Great Basin" (Taylor 1961: 75). He

adds that "in fact, the Macro-Penutian speakers, as they moved southward along the western flanks of the Northern Rockies, may have been split by running into the block of Hokaltecan already occupying the desert habitat of the northern Basin." It is to be noted that Taylor's quotation begins with an "if." In Taylor's statement, the suggested sequence is first Hokaltecan, then the Macro-Penutian, which later split into Penutian and Uto-Aztecan.

With our present knowledge it is premature to establish any linguistic chronology subsequent to the earliest evidence of human habitation in the area, especially in view of the possibility that neither the equation of archaeological cultures with linguistic groups, nor that of transitions in cultures with migrations is necessarily warranted. One simple possibility is that the ancestors of the Nez Perces may have occupied their present habitat for several millenia, and that the people who occupied the Weis Rockshelter for the first time some 7340 years ago may have spoken a language ancestral to Nez Perce.

Nez Perce, along with Northern Sahaptin, is a member of the Sahaptian family of languages. Sapir proposed that Sahaptin, Waiilatpuan, and Lutuami are members of a larger group, Plateau Penutian, which in turn is a member of a still larger group, Penutian (Sapir 1929). Sahaptian and Lutuami are probably related (Aoki 1963b), but beyond this there is no published demonstration of Plateau Penutian as a genetic group. Besides Sapir, exploratory attempts toward the placement of Sahaptian in a larger group include Swadesh (1954, 1956), and Hymes (1957, 1964). California Penutian, proposed by Dixon and Kroeber (1919) and demonstrated as related by Pitkin and Shipley (1958), and Sahaptian, together with Klamath, probably belong to the same genetic group.

Spinden in 1908 listed some forty divisions or bands within the Nez Perce tribe (Spinden 1908a: 174f.). That they are geographical or micropolitical units and not necessarily linguistic subdivisions is suggested by their names which are mostly derivatives of place names, e.g., /lamtá·ma/ 'Whitebird band on Salmon River' is composed of /lamáta/ 'Whitebird (place name)' and /ma/ 'from,' 'people from.'

Almost a century after the tribal relocation into reservations, the historical dialect situation is not clear. According to the informants, all of whom live in the middle and south fork regions of the Clearwater River (Mr. and Mrs. Wheeler in Stites, Mrs. Wilson in Kamiah, Mr. Arthur in East Kamiah, and Mrs. Moody in Kooskia), there is a separate dialect, which may be termed the Lower Nez Perce dialect. The dialect treated in this study, the Upper Nez Perce dialect, and the Lower dialect are mutually intelligible. This division may have some historical relevance since a similar division of the tribe was mentioned by Captain Bonneville in the early 1830's.

The scanty information may be summarized as follows:

Upper	Lower	
petkúhtu?	petk ^w éhtu?	'we will be shooting'
tukéytet	tuk ^w éytet	'hunting'
pí·tamyalon	pí·tamyanon	'chicken hawk'
célmen	cénmen	'Chinese'
mé·ywi	mé·ymi	'morning'
so·yá·po·m	so·yá·po·nim	'of the white'
maná	manána	'how'
sepú·msise	sepí·wemsise	'I am leading'
pe?énpe?yse	pe?énpe?nse	'he takes somebody else's'
konwacá·n	konwacá·t	'for that reason'

The lower dialect seems to have at least one additional phoneme /k^w/, which marks it as the more conservative dialect of the two, according to the tentative inventory of phonemes in Proto-Sahaptian (Aoki 1962: 173). The two sets with /l/ in the Upper dialect and /n/ in the Lower may or may not be significant since n-1 consonant symbolism (300) exists in both dialects. The set with /y/ in the Upper dialect and /n/ in the Lower in allomorphs of {e·y} (benefactive suffix) may involve an incorrect identification by informants. A. B. Smith, in reference to his linguistic observations at Kamiah in 1839-41, notes that kiansha means 'go for another,' and hahnansha means 'see another's wife, children etc.' (Drury 1958: 105). In the dialect of this study Smith's forms would be /kiyé·yse/ and /hexné·yse/. Smith's teacher of Nez Perce was Chief Lawyer (Ibid. 107), whose old home was in the Upper Nez Perce area of Kamiah.

It is possible that there was an extensive vocabulary limited to myths. According to Mrs. Elizabeth Wilson there are at least the following sets, one for common use and the other limited to myths.

common	myth	
ʔiceyé·ye	nisé·ʔweynu·	coyote
wé·xpus	neninme	rattlesnake
wé·ptes	tipiyeléxne	eagle
hími·n	teqelixniké·t	wolf
yá·ʔyax	wiskeʔyné·t	goose
titó·qan	netí·telwit	human beings
hi·semtuks (luminary)	wiyetené·t	sun

The words used only by older people include /nícú/ 'younger kinsman,' /no·ciwá·tʃ/ 'we alone.' The former is without a one-word equivalent in common usage; the newer and more common form for the latter is /nonciwá·tʃ/. /ki·ʔmolikam/ 'mountains' is used only in connection with the guardian spirit quest. The common word for mountain is /mé·xsem/.

Certain phonetic modifications produce various subsystems of the Nez Perce language as spoken by different animals in myths.³ Phinney notes

"Fox speaks with utmost clarity and directness. Bear slurs consonants into ɨ. Skunk nasalizes in a high pitched voices and changes x̣ to x and k, s to ts, a to á." (Phinney 1934: ix)

³A similar phenomenon is noted in Nootka (Sapir 1915).

No corresponding information was available except for the change of n to l and s to š in Coyote's speech, e.g., /nisé·ʔweynu·/ 'coyote (in common speech)' and [lišé·ʔweylu·] 'coyote (in Coyote's speech).'

My principal informants were Mr. and Mrs. Harry Wheeler (1960-61), and Mrs. Elizabeth P. Wilson (1961-62). Other informants were Mr. David Arthur, Mr. John Mofatt, and Mrs. Lottie Moody.

BIBLIOGRAPHY

The published sources on the Nez Perce Indians may be divided into scholarly and popular works. For the former this bibliography is (hopefully) exhaustive with respect to those dealing with the language. A selection of other sources are cited, including those referred to in the introduction.

Linguistic publications include two primers by Spalding (1839, 1840), a grammatical sketch by Hale (1846) based on A. B. Smith's field work, another grammatical sketch by Ainslie (1876a), a grammar and an English-Nez Perce dictionary by "a missionary of the Society of Jesus in the Rocky Mountains,"¹ a collection of texts by Phinney (1934), and a study of verb affixes by Velten (1943). There are at least three translations of various sections of the Bible: Spalding (1845), Ainslie (1876b, 1876d) and Cataldo (1914).

In manuscript are a grammar by A. B. Smith (ca. 1841), grammatical notes and an English-Nez Perce dictionary by Sue L. McBeth (ca. 1873-93), and three dictionaries; one presumably by Morvillo (ca. 1890), another by

¹Schoenberg identifies Anthony Morvillo as the author (Schoenberg 1957: 66).

William Wheeler (ca. 1900), and a third by Corbett Lawyer (1955-61). Also in manuscript are texts, grammatical notes, and a lexical file by Morris Swadesh (ca. 1930),² and grammatical and lexical notes by Phinney (ca. 1930).

One of the most extensive collections of Nez Perce traditions is Phinney's texts (1934). Collections in English include works by Spinden (Boas 1907, Spinden 1908b, 1917). Studies in the content and style of the Nez Perce oral literature include Skeels (1954a, 1954b, Ms) and Clark. Ethnographical studies exclusively concerned with Nez Perce are represented by Spinden's article (1908a) based on his field work, and Coale's restatement (1956) of various nineteenth-century accounts including that of Lewis and Clark. An excellent history of the Nez Percés is by Haines (1955).

Further bibliographical information is found in the following:

Beal 1963, pp. 343-357

Brosnan 1932, pp. 331-334

Drury 1936, pp. 429-431

Drury 1949, pp. 192-193

Drury 1958, pp. 367-368

Fee 1936, pp. 313-318

Haines 1939, pp. 343-349

²Even though these are catalogued as "Cayuse" the language studied is a dialect of Nez Perce.

CL	clause	nS	general noun stem
CLc	copulative clause	nT	general noun theme
CLd	dependent clause	nuS	numeral stem
CLg	general clause	nuT	numeral theme
CLh	hortatory clause	O	object
CLi	interrogative clause	Ph	phrase
CLp	possessive clause	ppS	personal pronoun stem
Cs	subordinating connective	ppT	personal pronoun theme
cvS	copulative verb stem	pS	pronominal suffix
cvT	copulative verb theme	Q	question particle
dS	demonstrative stem	QW	question word
dT	demonstrative theme	S	subject
esT	expanded substantive theme	SEN	sentence
GPh	general phrase	sT	substantive theme
gvS	general verb stem	Vc	copula
gvT	general verb theme	Vf	finite verb
H	hortatory particle	Vg	general verb
HW	hortatory word	Vp	possessive verb

CHAPTER ONE

PHONOLOGY

100. PHONEMICS

Nez Perce has 36 phonemes as follows:

Segmentals

Consonants

	Labial	Dental	Alveolar	Velar	Post-Velar	Glottal
--	--------	--------	----------	-------	------------	---------

Plain:

Stops	p	t	c	k	q	ʔ
Spirants		ɬ	s	x	ɣ	h
Nasals	m	n				
Semivowels	w		y			
Lateral		l				

Glottalized:

Stops	p̚	t̚	c̚	k̚	q̚	
Nasals	m̚	n̚				
Semivowels	w̚		y̚			
Lateral		l̚				

Vowels

	Front	Central	Back
High	i		u
Mid			o
Low	e	a	

Suprasegmentals

Length: •

Stress: ˈ

Junctures

Phonological word juncture	+
Pause form	,
Terminal contour	.

110. Consonants.¹ There are at least two directions in which general allophonic statements for consonants may be made: (1) according to the manner of articulation, and (2) according to the point of articulation.

(1) The voiceless plain stops /p/, /t/ and /c/ are unaspirated before a vowel, moderately aspirated before another consonant, and strongly aspirated before a juncture.

The voiceless plain stops /p/, /t/, /c/ and /q/ occur in close transition when geminated. /k/ and /ʔ/ do not geminate.

The voiced continuants /m/, /n/, /w/, /y/ and /l/ are frequently voiceless before a terminal contour.

(2) The dental consonants /t/, /tʃ/, /n/ and /l/ are palatalized before /u/.

The lamino-alveolar consonants /s/ and /c/ are palatalized before /i/.²

¹The allophony describes Mrs. HW's ideolect.

²In the ideolect of HW, /s/ and /c/ are palatalized everywhere, apparently as in the dialects studied by Smith, Spalding, and Ainslie.

/p/ (bilabial) is: unaspirated and without initial closure (since the preceding segment is unreleased) after /p/ and before a vowel, e.g.,

mítippe 'at a place where elderberries are'
unaspirated with initial closure elsewhere before a vowel,

páyn 'to arrive'

ʔápa 'brick of ground camas'

weyf·letpu· 'Cayuse'

cí·kspe 'at sister-in-law's' (a woman speaking)
unreleased before /p/, e.g.,

mítippe 'at a place where elderberries are'
moderately aspirated before a consonant other than /p/, e.g.,

qepsíʔs 'evil'

múʔpc 'one-year old fawn'

walápsksa 'I jerk it away'

and strongly aspirated elsewhere, e.g.,

ʔásqap 'younger brother' (a man speaking)

ʔéyne·sp (place name).

/t/ (apico-dental) is: unaspirated and palatalized before /u/,³ e.g.,

tú·skex 'upward'

peʔtú·qes 'man-crazy'

³/t/ does not occur, probably fortuitously, after /t/ and before /u/.

unaspirated, unpalatalized and without initial closure
after /t/ and before vowels other than /u/, e.g.,

ʔipnattiwá·tit 'monologue'

unaspirated, unpalatalized and with initial closure elsewhere
before vowels other than /u/, e.g.,

téhes 'ice'

ʔá·tim 'arm'

ʔisé·ptekey 'parfleche'

kú·xsteyn 'to guess wrong'

ʔeʔnpté·ce 'I go to get it'

unreleased before /t/, e.g.,

weqittise 'I loudly speak'

moderately aspirated before consonants other than /t/, e.g.,

petkúhtuʔ 'we will be shooting'

wasátqsa 'I whip'

weqiwtkse 'I am cutting grass'

and strongly aspirated elsewhere, e.g.,

lepft 'two'

ʔelwéht 'spring (season)'

wehéyqt 'necklace'

kéʔnpt 'to bite.'

/c/ (apico-alveolar) is: unaspirated, palatalized
and without closure after /c/ and before /i/, e.g.,

picpiccim 'only red fir trees'

unaspirated, palatalized with initial closure elsewhere
before /i/, e.g.,

cíłmi 'squirrel'

hiwehčí·x 'they are barking'

unaspirated, unpalatalized without initial closure after
/c/ and before vowels other than /i/, e.g.,

ḱaccaynó·myaʔc 'coyote'

unaspirated, unpalatalized with initial closure elsewhere
before vowels other than /i/, e.g.,

cawí·tx 'wild carrot'

piḱé·xsce 'I am unlucky'

unreleased before /c/, e.g.,

picpiccim 'only red fir trees'

moderately aspirated before consonants other than /c/, e.g.,

lí·ckaw (place name)

léḱexcne (place name)

and strongly aspirated elsewhere, e.g.,

wálc 'knife'

páłxç 'rabbit'

títeʔwxc 'chisel mouth.'

/k/ (dorso-velar) is: unaspirated and slightly
labialized before /i/, e.g.,

kimile 'tamarak'

kápskisa 'I eat from the bones'

unaspirated and unpalatalized before vowels other than /i/, e.g.,

ké·tim 'spear'

li·ckaw (place name)

and moderately aspirated before consonants, e.g.,

tewli·kt 'tree'

walápsksa 'I jerk it away.'

/k/ does not occur before /k/ or a juncture.

/q/ (dorso-postvelar) has a spirantal off-glide without initial closure after /q/ and before a vowel, e.g.,

hiqqé·wise 'he is drunk'

has a spirantal off-glide with initial closure elsewhere before a vowel, e.g.,

qi·wn 'old man'

hiʔpsqikeʔykse 'he is walking'

tewqeqqé·wit 'nightmare'

is unreleased before /q/, e.g.,

hiqqé·wise 'he is drunk'

and moderately aspirated before a consonant other than /q/, e.g.,

ná·qc 'one'

wéwpeʔqt 'to split'

wasátqsa 'I whip.'

With one exception noted in 200., /q/ does not occur before a juncture.

/ʔ/ is glottal, e.g.,

ʔé·leʔ 'paternal grandmother' (vocative)

ʔáʔc 'good'

múʔpc 'one-year old fawn'

ʔewxʔúpeʔqe 'I broke it by sitting on it.'

The spirants are represented by the following allophones:

/ɬ/ (apico-alveolar lateral) alternates freely with a homorganic affricate between vowels, e.g.,

cú·ɬim 'bull,'

elsewhere /ɬ/ is an apico-alveolar lateral spirant, e.g.,

ɬé·pɬep 'butterfly.'

/s/ (lamino-alveolar) is palatalized before /i/, e.g.,

símux 'charcoal,'

and unpalatalized elsewhere, e.g.,

sáway 'graveyard,'

máqs 'gall.'

/x/ (dorso-velar) is backed before /q/ or /x/, e.g.,

ʔatwiyaxqana 'I advise him,'

te·xxí·čemkse 'I am angry because of cold,'

and is dorso-velar elsewhere, e.g.,

watí·sx 'tomorrow,' 'yesterday.'

/x̣/ (dorso-postvelar) is a fortis trill between consonants, e.g.,

pitx̣pá·ma 'nephews, nieces',

and is a less fortis spirant elsewhere, e.g.,

tasx̣ 'grease.'

/h/ (faucal), after a vowel and before a consonant, is a voiceless, non-vocalic off-glide homorganic with the preceding vowel, e.g.,

ʔelwéht 'year',

and is a faucal spirant elsewhere, e.g.,

há·ma 'man, husband.'

The sonornats are represented by the following allophones:

/m/ (bilabial nasal) is frequently voiceless in final position, e.g.,

wá·ʔwam 'head of stream',

and voiced elsewhere, e.g.,

mitá·t 'three.'

/n/ (apico-dental nasal) is velarized before /k/ or /q/, e.g.,

ʔanqá·x̣alpx̣ 'remove!'

palatalized before /u/, e.g.,

nú·snu 'nose',

frequently voiceless in final position, e.g.,

wí·clamn 'lacking,'

and is an apico-dental voiced nasal elsewhere, e.g.,

ná·qc 'one.'

/w/ (bilabial semivowel) is frequently voiceless in final position, e.g.,

ní·ckaw 'basket-cap,'

and is voiced elsewhere, e.g.,

wú·yce 'I run away.'

/y/ (palatal semivowel) is frequently voiceless after a vowel and in final position, e.g.,

kúy 'go away!'

is voiced and with strong friction after /n/ and before a vowel, e.g.,

konyá 'over there,'

and is voiced without friction elsewhere, e.g.,

yá·ca? 'elder brother' (vocative).

/l/ (lamino-alveolar lateral) is palatalized and voiced before /u/, e.g.,

?ilú·t 'belly,'

voiceless in final position, e.g.,

?excí?mil 'throat,'

and is lamino-alveolar and voiced elsewhere, e.g.,

lepít 'two.'

The following examples support the phonemic analysis given above:

/p/ - /t/: pé·qt 'bark (of tree)', té·qt 'woodpecker.'

/t/ - /c/: ?á·tim 'come out!', ?á·cim 'come in!'

/c/ - /k/: yá·ca? 'elder brother', yá·ka? 'brown bear.'

/k/ - /q/: pé·kt 'woman's younger brother', pé·qt 'bark (of tree).'

/q/ - /ʔ/: qí·wn 'old man', ?í·wn 'urination.'

/yi/ - /ʔi/: wé·yikt 'to move across', wé·ʔikt 'grease.'

/wu/ - /ʔu/: wú·yce 'I run away', ?ú·yse 'I begin.'

(imperfect pair).

/t/ - /s/: hiwtelí·kse 'he spreads (something)',

hiwselí·kse 'he stands.'

/c/ - /s/: hé·cu 'fire wood', hé·su 'eel.'

/q/ - /x/: qápqap 'cottonwood tree', xápɣap 'skin

disease.' (imperfect pair).

/k/ - /h/: kéhen 'biceps', hehen 'stem of plants.'

/ʔ/ - /h/: ?ehétewise 'I admire him', hehétewise 'he

admires.'

/x/ - /x̣/: ?awýá·xnoʔqa 'I could see it as I went',

?awýá·x̣noʔqa 'I could find it.' (imperfect pair).

/m/ - /n/: ?í·m 'you (sg.)', ?í·n 'I.'

/n/ - /nn/: ?imí·ne 'knee (object case)', ?imí·nne

'gopher (object case).'

The glottalized consonants are distinguished by simultaneous coarticulation of glottal closure, while $ʔC$ and $Cʔ$ are cases of preglottalization and postglottalization, the latter being very infrequent. In glottalized stops, after simultaneous closure at the two points, the oral closure is released slightly before the release of the glottal closure. As a result a slight pop is sometimes produced, e.g., $páyn$ 'to be drained.' In cases of preglottalized stops, three articulatory stages are observed: first glottal closure, second, simultaneous glottal release and oral closure, and finally oral release, e.g., $ʔaʔpáwaca$ 'I am putting it.' In cases of postglottalization, the three stages are: first, oral closure, then simultaneous oral release and glottal closure, and finally glottal release, e.g., $hipʔimce$ 'it is growing.'

The glottalized stops occur word-initially and word-medially, while the general pattern seems to indicate that the glottalized continuants occur word-medially and finally. In general the glottalized consonants are found much less frequently than their unglottalized counterparts. That $/n̥/$ and $/i̥/$ are not found word-finally is probably fortuitous.

$/p̥/$ is bilabial stop, e.g.,

$páyn$ 'to be drained'

$ʔilp̥ilp$ 'red'

/t̥/ is apico-dental stop, e.g.,

ʔáwn 'to guess in stick game'

ʔf·ʔit 'end,' 'stern of canoe'

/c̥/ is apico-alveolar stop, e.g.,

ʔí·xlu 'mountain ground squirrel'

wé·čekse 'I am jumping'

/k̥/ is dorso-velar stop, e.g.,

kúyc 'nine'

hi·ʔkíwce 'it is sunny'

/q̥/ is dorso-postvelar stop, e.g.,

ʔáxno 'prairie chicken'

yoqopí 'that'

/m̥/ is bilabial nasal, e.g.,

cú·ímayn 'for the steer'

laʔám 'all'

/n̥/ is apico-dental nasal, e.g.,

ʔa·kínax 'I would have seen him'

/w̥/ is bilabial semivowel, e.g.,

ʔewní·se 'I am giving it'

kí·w̥ 'cut (past participle)'

/y̥/ is palatal semivowel, e.g.,

ʔé·ýsce 'I am happy'

hipstú·ý 'enough'

/l̥/ is lateral, e.g.,

kiwkiwílec 'drum.'

The following examples support the phonemic analysis given above:

/p/ - /p̣/: páyn 'to arrive,' p̣áyn 'to be drained'

/t/ - /ṭ/: táwn 'to make stone tools,' ṭáwn 'to guess
in stick game'

/c/ - /c̣/: cewcé·w 'whisper,' c̣é·ẉcéw 'ghost' (imperfect
pair)

/k/ - /ḳ/: tukúx 'stiff,' tuḳúx 'straight'

/q/ - /q̣/: qócqóc 'meadowlark,' q̣ócq̣óc 'naked' (imperfect
pair)

/n/ - /ṇ/: tinú·n 'grass widow,' tiṇú·n 'male mountain
sheep'

/w/ - /ẉ/: wá·wa 'mosquito,' wá·ẉá 'fish hook'

/ʔp/ - /p̣/ - /pʔ/: ʔaʔpáwaca 'I am putting it,'
ʔap̣ap̣á·p̣ap 'lizard,' 'tadpole,' hipʔimce 'it is growing'

/ʔy/ - /ỵ/ - /yʔ/: wakaykaʔyá·ʔy 'uncleaned,' hipstú·ỵ
'enough,' tíʔma·yʔ 'maiden'

120. Vowels. All unstressed vowels have somewhat centralized lenis and lax allophones.

After glottalization, vowels have a pharyngealized quality, e.g.,

čá·no 'that man',
 céł'cel 'fat, awkward.'

After /h/ or /ʔ/ and before /n/, stressed vowels are frequently nasalized, e.g.,

ʔé·ni 'fool hen',
 hé·neke 'again.'

/i/ is high, front and unrounded before /·/, e.g.,

sí·s 'broth',

has a centralized on-glide after /q/ or /x/, e.g.,

qí·wn 'old man',
 xí·ćemce 'I am angry',

and is lower high, front and unrounded elsewhere, e.g.,

lepít 'two.'

/e/ is lower mid, front and unrounded after /y/, e.g.,

kiyéwkiyew 'katydids',

and higher low, and rounded elsewhere, e.g.,

ʔé·ks 'sister.'

/a/ is higher low, central and unrounded after /w/ or /m/, e.g.,

maq̄s 'gall',

and is low central and unrounded elsewhere, e.g.,

ná·qc 'one.'

/o/ is mid, back and rounded after /w/ or /m/, e.g.,

mó·~~ia~~ʔ 'maggot',

and is lower mid, back and rounded elsewhere, e.g.,

ʔoylá·qc 'six.'

/u/ is high and back before /·/, e.g.,

ʔú·yit 'beginning',

and is lower high and back elsewhere, e.g.,

kúyc 'nine.'

In general, rounding is non-distinctive.

The following examples support the phonemic analysis given above:

/u/ - /e/ - /a/: súhuy 'fat', séhey 'worm', sáhay 'sore.'

(imperfect pair).

/i/ - /u/: qiyé·sqiyes 'mean looking', quyé·squyes 'bluejay.'

(imperfect pair).

/u/ - /o/: qulusqú·lus 'dandruff', qolosqó·los 'esophagus.'

(imperfect pair).

/i/ - /e/: nikise (place name), nekise 'I think.'

/i/ - /a/: ʔa·kci·qa 'we saw it', ʔa·kca·qa 'I saw it.'

130. Suprasegmentals

/·/ (vowel length) is characterized by relative tenseness in the syllable and a vowel length of approximately two morae, e.g.,

sí·s 'broth' (cf. sís 'navel')

mé·qe? 'snow' (cf. méqe? 'paternal uncle (vocative)')

ha·lálaalcix 'they cheer' (cf. halálaalcix
'we cheer').

/´/ (stress) is characterized by high pitch and relative loudness in the syllable, e.g.,

mé·qe? 'snow.'

/+/ (phonological word juncture) is characterized by a mid-to-high glide on the following long stressed syllable, and by an occurrence of the dental allophone of a preceding /n/ when /k/ or /q/ follows, e.g.,

/nk/ : [ŋk] ?anká·cǎilkxa 'I tear it with hand'

/n+k/ : [nk] ?í·n + kú·se 'I go.'

/,/ (pause form) is characterized by a clearly marked short silence. The following long stressed syllable starts with middle pitch.

/./ (terminal contour) is characterized by a slight drop in pitch, and by voiceless allophones of the preceding m, n, w, y or l.

The following examples support the phonemic analysis given above:

/·/ - no length: sí·s 'broth,' sí·s 'navel'; mé·qe? 'snow,' méqe? 'paternal uncle (vocative)'; ?a·tó?sa 'I go out to see somebody else's,' ?ató?sa 'I go out to see mine'; ?ó·qoxc 'ankle,' ?óqoxc (man's name); mú· 'cow,' mú 'call.'

/˘/ - weak stress: wé·cese 'I am riding,' we·cé·se 'I am dancing.' (imperfect pair)

/+/ - no juncture: ?é· + wí·ce 'you are crying,' ?ewí·ce 'I am sleepy.' (imperfect pair)

140. Phonotactics

141. The syllable canon is $C_1V(\cdot)(C_2)(C_3)(C_4)(C_5)$.

After a phonological word juncture C_1 may be any consonant except glottalized continuants; elsewhere, C_1 may be any consonant. V may be any vowel. C_2 , when followed by a juncture, may be any consonant except /k/, /q/,⁴ /h/ and glottalized stops. There are no consonant clusters after a phonological word juncture.

142. Prejunctural consonants and consonant clusters.

In general, three-member and four-member prejunctural clusters contain two-member prejunctural clusters in final position. Namely, in $C_1V(\cdot)C_2C_3C_4$, C_3C_4 are permissible final position two-member clusters (with the exception of qt and qs), so are C_4C_5 in $C_1V(\cdot)C_2C_3C_4C_5$. However, in four-member clusters $C_3C_4C_5$ are permitted final three-member clusters in only three cases out of eight examples.

No gemination or glottalized consonants are found in prejunctural clusters. It may be significant that /p/ and sonorants do not occur as the final member after stops (with the exception of /ʔ/) in prejunctural clusters.

⁴An exception is /hoq'hó·q'/ 'hog,' a probable loan from English.

The prejunctional consonants and consonant clusters may be summarized as follows:

C ₁	V(·)	C ₂	C ₃	C ₄	C ₅
	any V	C ⁻ k,q,h,ʔ			
		C ⁻ i,ć	C ⁻ k,q,h,ć		
		C ⁻ p,t,k,q,ć	p,t,c,q,x,y	t,c,s,x	
		p,ʔ,h,x	t,c,n,y,w,s	p,k,s	t,c,s

Examples of C₁V(·)C₂:

p	ʔásqap	'younger brother of a male'
t	mitá·t	'three'
c	xáʔwic	'sharp (of points)'
ʔ	ʔé·leʔ	'paternal grandmother (vocative)'
i	tá·qma·i	'hat'
s	téhes	'ice'
x	simux	'charcoal'
x̣	peqiyex̣	'nephew'
m	cú·dim	'bull'
n	tinú·n	'grass widow'
w	sá·w	'silence'
y	weté·key	'leggings'
l	ʔex̣ciʔmil	'throat'

'm laʔám 'all'
 'w kí·w 'cut (past participle)'
 'y hipstú·y 'enough'

Examples of $C_1V(\cdot)C_2C_3$:

86.	lps	tuké·pilpse	'I carry in arms'
87.	lpx	xálpxalp	'mythical figure on cloud'
88.	lks	ʔo·ciki·lksa	'I spoil it'
89.	lqs	wa·tálqsa	'I stop'
90.	lst	ʔilsté·mqet	'partly burned tree'
91.	lxc	cálxcalx	'cricket'
92.	lxp	qoqalxpípan	'among buffaloes'
93.	lxn	ʔilxni·wisix	'we increased in number'

Examples of V(·)C₁C₂C₃C₄V:

ʔpsq	hiʔpsqikeʔykse	'he is walking'
ʔcks	captiʔwacáʔcksa	'I am ready to shoot'
ʔmks	ʔeqsímteqetiʔmkse	'I am throwing it in anger'
ʔnpt	ʔeʔnpté·ce	'I go to get it'
ʔnks	ʔiyé·tiʔnkse	'I will drown'
ʔyks	hiʔpsqikeʔykse	'he is walking'
ʔlqs	ʔehisiʔlqse	'I am moistening'
ptks	ʔátɣcaptksa	'I shoot it lengthwise'
psks	walápsksa	'I jerk it away'
wtk	weqíwtkse	'I am cutting grass'
wɣcʔ	ʔewɣcʔúpeʔqe	'I broke it by sitting'
lpsc	qí·lpsce	'I snap eyes at'
lpsk	kálpkisa	'I eat from the bones'

200. MORPHOPHONEMICS

Nez Perce has 17 morphophonemes represented by phonemic alternations. These morphophonemes are in two groups:

1. $\|c\|$, $\|k\|$, $\|q\|$, $\|'\|$, $\|'\|$, $\|k^w\|$, $\|q^w\|$, $\|h\|$,
 $\|H\|$, $\|^\wedge\|$, $\|e\|$, $\|u\|$, $\|_\|\|$, $\|-\|\|$
2. $\|r\|$, $\|r_i\|$, $\|R\|$.

210. The members of the first group show the following phonemic alternation:

$\|c\|$: /s/ before $\|n\|$ or $\|w\|$, and /c/ elsewhere, e.g.,

$\|yú?c\|$: /yú?c/ 'poor,' 'pitiful'

$\|yú?cne\|$: /yú?sne/ 'poor' (object case)

$\|'uylé\cdot qc\|$: /?oylá\cdot qc/ 'six'

$\|'uylé\cdot qcwe\|$: /?oylá\cdot qswa/ 'six' (of men)

$\|k\|$: /x/ before $\|k\|$, $\|q\|$, $\|n\|$, $\|l\|$ or $\|+\|\|$; /k/ elsewhere, e.g.,

$\|cemitékki\|$: /cemitéxki/ 'with huckleberry'

$\|'fyelf\cdot kqewne\|$: /?iyalf\cdot xqawna/ 'I drifted by'

$\|cemitknú\cdot t\|$: /cemitxnú\cdot t/ 'without huckleberry'

$\|cemitékleykin\|$: /camitáxlaykin/

'near huckleberry'

||cemí·tk|| : /cemí·tx/ 'huckleberry'

||cemitk'éyn|| : /camitkáyn/ 'for huckleberry'

||q|| : /x/ before ||k||, ||n||, ||l||, or ||+||; /q/ elsewhere, e.g.,

||hickilí·tuqkike|| : /hickilí·toxkika/

'he went on back'

||hi'í·qne|| : /hi'í·xne/ 'he spoke'

||'cí·qlu|| : /'cí·xlu/ 'talking squirrel'

||tú·q|| : /tú·x/ 'tobacco'

||tú·qise|| : /tú·qise/ 'I smoke tobacco'

||' || : ∅ after ||ʔ|| or ||' ||; /' / after other stops; /ʔ/ elsewhere, e.g.,

||tisqeʔ|| : /tisqeʔ/ 'skunk'

||tisqeʔ'éyn|| : /tisqaʔáyn/ 'for skunk'

||'im'í·s|| : /ʔim'í·s/ 'your mother'

||teʔéxet'u|| : /teʔéxet'u/ 'just a youngster'

||'iní·t|| : /ʔiní·t/ 'house'

||: || : /ʔ/ \tilde{f} /·/, e.g.,

||he \tilde{f} xpi's|| : /halxpíʔs/ \tilde{f} /halxpí·s/ 'all day'

||h|| : ∅ after a consonant at normal speed; /h/ elsewhere, e.g.,

||hiné·shin|| : /hiné·sin/ 'tell them!'

||héhen|| : /héhen/ 'stem,' 'vine'

||H|| : a homorganic unglottalized stop before a glottalized stop; the same consonant before a sonorant (||m||, ||n||, ||l||); and ∅ elsewhere, e.g.,

||kúyc|| : /kúyc/ 'nine'

||peHkúyc|| : /pekkúyc/ 'nine each'

||lepít|| : /lepít/ 'two'

||peHlepít|| : /pellepít/ 'two each'

||pú·tímt|| : /pú·tímt/ 'ten'

||peHpú·tímt|| : /pepú·tímt/ 'ten each'

||^||.

With vowels. ||V̂|| : /V/ when ||^|| occurs with the first vowel in a word or with the third vowel which follows a consonant cluster; and ∅ elsewhere, e.g.,

||míc'íkú·ynekse|| : /míckú·ynekse/ 'I believe'

||himíc'íkú·ynekse|| : /himčikú·ynekse/ 'he believes'

||míc'í·se|| : /mičí·sa/ 'I hear'

||'emíc'í·se|| : /ʔamčí·sa/ 'I hear someone else's'

||'ené·smíc'ise|| : /ʔaná·smičisa/ 'I hear them'

||hipe'íleléʔemkse|| : /hipaʔlaláʔamksa/

'they are all burned up'

With length. ||·̂|| : /·/ when ||^|| occurs after the first or third vowel after ||+||; and ∅ elsewhere, e.g.,

||hí·̂miyece|| : /hí·miyaca/ 'I lick'

||hihí·̂miyece|| : /hihímiyaca/ 'he licks'

||'é^ˆyewise|| : /ʔé·yewise/ 'I am peaceful'

||hi'é^ˆyewise|| : /heʔéyewise/ 'he is peaceful'

With length and ||R||. ||^ˆ|| is ∅ in the reduplication and /·/ elsewhere, e.g.,

||té^ˆmul|| : /té·mul/ 'hail'

||R té^ˆmul|| : /temulté·mul/ 'sleet'

||k^w||. ||k^wV|| : /ku/ after ||^ˆ|| with the second vowel after ||+||; /kV/ elsewhere, e.g.,

||tûk^weylé·kse|| : /tukeylé·kse/ 'I drive down'

||hitûk^weylé·kse|| : /hitkuylé·kse/ 'he drives
down'

||q^w||. ||q^wV|| : /qu/ after ||^ˆ|| with the second vowel after ||+||; /qV/ elsewhere, e.g.,

||tûq^weléhnece|| : /tuqeléhnece/ 'I swim down'

||hitûq^weléhnece|| : /hitquléhnece/ 'he swims down'

Nez Perce has extensive vowel harmony. In a harmonic sequence, which is bounded by ||-|| or ||+||, and is either coterminous with or smaller than a morphophonemic word, either the set /i/, /a/, /o/ or the set /i/, /e/, /u/ is found. The following four morphophonemes, ||e||, ||u||, ||_||, and ||-|| describe the harmony. Among older speakers, the

harmonic sequences are frequently coterminous with morphophonemic words. Consequently, the occurrence of harmonic sequence boundary marker, ||-||, is very infrequent, the main exception being foreign loans.

||e|| : /a/ with ||_|| within the same harmonic sequence bounded by ||-|| or ||+||; /e/ elsewhere, e.g.,

||tú·teʔ|| : /tó·taʔ/ 'father' (vocative)

||'i·teʔ|| : /ʔi·teʔ/ 'mother' (vocative)

||píléqeʔ|| : /piláqaʔ/ 'grandmother' (vocative)
(maternal grandmother)

||cewitk'éyn|| : /cawitkáyn/ 'for wild carrot'

||lém-he·y|| : /lémha·y/ 'the Lemhi River, Idaho'⁶

||u|| : /o/ with ||_|| within the same harmonic sequence bounded by ||-|| or ||+||; /u/ elsewhere, e.g.,

||su·yé·pu·|| : /so·yá·po·/ 'the white people'

||tewé·pu·|| : /tewé·pu·/ 'people of Orofino, Idaho'

||tuʔúynu|| : /tuʔúynu/ 'tail'

||tuʔynú'eyn|| : /toʔynóʔayn/ 'crupper,' 'for the tail'

||cú·íim-'eyn|| : /cú·íimayn/ 'for the steer'⁷

⁶Lemhi, originally Limhi, was named after a king by Mormon immigrants in the area ca. 1855.

⁷/cú·íim/ 'steer' is a loan from Salish.

||_||. ||e|| : /a/, ||u|| : /o/, ||i|| : /i/. ||_|| is phonemically \emptyset , e.g.,

||né·qc|| : /ná·qc/ 'one'

||tú·teʔ|| : /tó·taʔ/ 'father' (vocative)

||cí·ceʔ|| : /ci·caʔ/ 'paternal aunt' (vocative)

||-|| (harmonic sequence boundary marker) is phonemically \emptyset , e.g.,

||lém-he·y|| : /lémha·y/ 'the Lemhi River, Idaho'

||cú·ɬim-ʔeyn|| : /cú·ɬimayn/ 'for steer'

220. The members of the second group are morphophonemes of reduplication.

||r|| : /he/ before ||ʔi|| or ||'i||; /hV/ before ||ʔV|| or ||'V|| (V representing ||e|| or ||u||); elsewhere a sequence of a consonant and a vowel corresponding to the initial CV, e.g.,

||'fiskit|| : /ʔfiskit/ 'trail'

||r 'fiskit|| : /heʔfiskit/ 'trails'

||'éhew|| : /ʔéhew/ 'wounded'

||r 'éhew|| : /heʔéhew/ 'wounded' (distributive)

||hé^ˆcwe1|| : /há·cwal/ 'son'

||r hé^ˆcwe1|| : /hahácwal/ 'sons'

||r_i|| : a sequence of the following consonant and /i/,
e.g.,

||t_iʔc|| : /táʔc/ 'good'
||r_i t_iʔc|| : /titáʔc/ 'good' (distributive)
||x_iʔwic|| : /xáʔwic/ 'sharp' (of points)
||r_i x_iʔwic|| : /xixáʔwic/ 'sharp' (distributive)

||R|| : complete reduplication of the following stressed
sequence, e.g.,

||qíʔy_x|| : /qíʔyax/ 'squawfish'
||R qíʔy_x|| : /qíʔyaxqíʔyax/ 'little squawfish'
||m_eqs|| : /máqs/ 'gall'
||R m_eqs|| : /maqsmáqs/ 'yellow'
||'ílp|| : /ʔílp/ 'reddish skin eruption'
||R 'ílp|| : /ʔílpílp/ 'red'
||'éys|| : /ʔáys/ 'parsnip sp.'
||R 'éyc|| : /ʔaycáyc/ 'parsnip sp.'

230. Morphophonemic sequences.

||ewe|| and **||éwe||** are phonemically /u·/, /o·/, /á·/, /ó·/.

||ewé|| : /ewé/ or /awá/.

||weyíknikuʔ|| : /weyíxnikuʔ/ 'I will be flying around'

||peweyíknikuʔ|| : /pu·yíxnikuʔ/ 'we will be flying
around'

||wé·yiksik|| : /wé·yiksix/ 'we are going across'

||sitéweyiksik|| : /sitú·yiksix/ 'we are looking
across'

||wepteméwne|| : /waptamáwna/ 'I murdered'

||'ewepteméwne|| : /ʔo·ptomáwna/ 'I murdered
(somebody else's)'

||wé·pciʔyewcik|| : /wá·pciʔyawcix/ 'we are killing'

||'ewépciʔyewcik|| : /ʔó·pciʔyawcix/ 'we are killing
(somebody else's)'

||wéwyece|| : /wáwyaca/ 'I beat with stick'

||'ewéwyece|| : /ʔawáwyaca/ 'I beat (somebody else's)'

There are following exceptions:

||méwe|| : /náwa/ 'when'

||t́éwe|| : /t́áwa/ 'well ...'

||kéwe|| : /káwa/ 'so much,' 'that much'

||kéweye|| : /kéweye/ 'let them'

||weʔléwe|| : /waʔláwa/ 'Wallawa, Wash.'

||'ipéwece|| : /ʔipáwaca/ 'I put in papoose'

||VhV|| and ||V'V|| show the following:

||V₁hV₂|| : /V₂·/ $\overset{f}{\sim}$ /V₂hV₂/

||heqtf·se|| : /heqtf·se/ 'I am getting old'

||hiheqtf·se|| : /he·qtf·se/ $\overset{f}{\sim}$ /heheqtf·se/

'he is getting old'

||v₁h[́]v₂|| : /v₂h[́]v₂/

||hé·sce|| : /hé·sce/ 'I breathe'

||hihé·sce|| : /hehé·sce/ 'he breathes'

||v₁'v₂|| : /v₂'v₂/

||'eíwice|| : /'eíwice/ 'I spend winter'

||hi'eíwice|| : /he'eíwice/ 'he spends winter'

||v₁'[́]v₂|| : /v₂'[́]v₂/

||'é·yewise|| : /'é·yewise/ 'I am peaceful'

||hi'é·yewise|| : /he'é·yewise/ 'he is peaceful'

300. CONSONANT AND VOWEL SYMBOLISM

An interesting feature of Nez Perce is the occurrence of consonant and vowel alternation, mainly with augmentative-diminutive significance. /s/, /n/, /k/, and /e/ as non-diminutive forms are paralleled by /c/, /l/, /q/, and /a/ as diminutive forms. The diminutive forms indicate smallness in size, possession by the first person (in kinship terms), verisimilitude, or contempt (in tribal names). These diminutives often occur with ||R||.

s ~ c:

||pé·su·yece|| : /pé·su·yece/ 'he rocks (a child)'

||pé·cu·yece|| : /pé·cu·yece/ 'he rocks (a baby)'

||R wés nu|| : /waswásno/ 'chicken'

||R wéc nu|| : /wacwácno/ 'saddle horn'

||ne[?]yé·c|| : /na[?]yá·c/ 'my elder brother'

||'i[?]myé·s|| : /[?]i[?]myá·s/ 'your elder brother'

||ne[?]cí·c|| : /na[?]cí·c/ 'my paternal aunt'

||'imsí·s|| : /[?]imsí·s/ 'your paternal aunt'

||'iskí·cu[?]mix|| : /[?]iskí·cu[?]mix/ 'Coeur d'Alene'

||'ickí·cu[?]mix|| : /[?]ickí·cu[?]mix/ 'Coeur d'Alene'

(in derision)

n ~ l:

||hité·m^hnes|| : /hité·m^hnes/ 'book' ({hité·me}
'read')

||kiwkiwílec|| : /kiwkiwílec/ 'drum' ({kiwkiwi}
'beat')

||'iceyé·ye-q_{en}|| : /ʔiceyé·yeqan/ 'young
coyote' ({'iceyé·ye}'coyote') cf. ||q_{e1}||
in 'dog' below.

k ~ q:

||sík^hem|| : /sík^hem/ 'horse'

||ciq^hé·mq_{e1}|| : /ciq^há·mq_{e1}/ 'dog'

e ~ a:

||sé·x|| : /sé·x/ 'onion'

||R c_e·x|| : /ca·xcá·x/ 'wild onion'

||ké·tis|| : /ké·tis/ 'spear'

||R k_e·tic|| : /katická·tic/ 'toy spear'

CHAPTER TWO

MORPHOLOGY

400. INTRODUCTION

The Nez Perce morphological word is a sequence of one or more morphemes between successive morphological word junctures symbolized as {+}. {+} is represented by free alternation of ||+|| and \emptyset , e.g.,

{yuq + 'ipn \acute{m} + 'in \acute{i} ·t} 'that house of his'
 : ||yuq + 'ipn \acute{m} + 'in \acute{i} ·t|| $\overset{f}{\sim}$ ||yuq + 'ipn \acute{m} 'in \acute{i} ·t||
 $\overset{f}{\sim}$ ||yuq 'ipn \acute{m} + 'in \acute{i} ·t|| $\overset{f}{\sim}$ ||yuq 'ipn \acute{m} 'in \acute{i} ·t||
 : /yo ɕ + ʔipn \acute{m} + ʔin \acute{i} ·t/ $\overset{f}{\sim}$ /yo ɕ + ʔipn \acute{m} 'in \acute{i} ·t/
 $\overset{f}{\sim}$ /yo \acute{q} ipn \acute{m} + ʔin \acute{i} ·t/ $\overset{f}{\sim}$ /yo \acute{q} ipn \acute{m} 'in \acute{i} ·t/.

The morphological word is either identical with or larger than the theme, which in turn, is either identical with or larger than the stem.

There are three morphological word classes internally defined: substantives, verbs, and particles. These are differentiated by discrete sets of affixes or by the absence of affixes.

500. SUBSTANTIVES

Substantive stems are discussed in 510 and substantive themes are discussed in 520.

510. Substantive stems.

There are six stem classes.

510.1 General noun stems (nS) : one or two general noun root morphemes.

There are three factors determining the allomorphs of general noun stems, the first of these is morphological, the others are phonological: (1) the absence or presence of affixes, (2) the absence or presence of stress in the affix, (3) whether or not the initial consonant of the suffix is a voiced continuant. The combination of these three results in five sets of environments:

I: no affixes

II: followed by an unstressed suffix with initial voiced continuant, e.g., {nim}, {ne}

III: followed by an unstressed suffix with initial voiceless stops, e.g., {pe}, {cim}, {k}, {kek}, {ki}, {ki'nik}

IV: followed by a stressed suffix with initial voiced continuant, e.g., {léykin}, {nime}, {nú·t}

V: followed by a stressed suffix with initial voiceless stops or glottalization, e.g., {pípe^m}, {'e^yn}.

The alternation between allomorphs of a general noun may be summarized as a difference in the number of segments, in length, and in stress.

Of segmental differences there is but one, namely, the stem final t, which alternates with zero in environments II and IV. Others involve vowels, the most frequent being the alternation between CV(·)CC in environment I and CVCVC in environments II and III.

Length difference may be observed in the alternation between final short vowels in environments I, IV, and V and final long vowels in II and III. This alternation is morphologically conditioned.

Stress difference is generally characterized by stressed allomorphs in environments I, II, and III and unstressed allomorphs in IV and V. Though there are exceptions, allomorphs in II and III tend to occur with the stress placed closer to the stem-final position than in I.

The types of allomorphy and examples are as follows:

(1) {wexwéqt} type. The members of this type have six allomorphs, two forms in environment V. An example is {wexwéqt} 'frog.'

I: {wexwéqt +} : ||wexwéqt|| : /wexwéqt/ 'frog'

II: {wexwéqt ne} : ||wexweqé ne|| : /wexweqéne/
'frog' (object)

III: {wexwéqt pe} : ||wexweqét pe|| : /wexweqétpe/
'at the frog'

IV: {wexwéqt nime} : ||wexweqe nime|| : /wexweqenime/
'Frog-Place'

Va: {wexwéqt 'éyn} : ||wexweqt -'éyn|| : /wexweqtáyn/
'for a frog'

Vb: {wexwéqt pipem} : ||wexweqet pipem|| : /wexweqetpipem/
'among frogs'

(2) {telétet} type. The members of this type have five allomorphs. An example is {telétet} 'cedar.'

I: {telétet +} : ||telétet|| : /talátat/ 'cedar'

II: {telétet ne} : ||teité ne|| : /taltána/
'cedar' (object)

III: {teléte pe} : ||telté pe|| : /taltátpa/

'at the cedar'

IV: {teléte nime} : ||telte nime|| : /taltanima/

'Cedar-Place'

V: {teléte pipem} : ||telte pipem|| : /taltatpipam/

'among cedars'

(3) {cé·qet} type. The members of this type have four allomorphs. An example is {cé·qet} 'raspberry.'

I: {cé·qet +} : ||cé·qet|| : /cé·qet/ 'raspberry'

II: {cé·qet ne} : ||ceqé·ne|| : /ceqé·ne/

'raspberry' (object)

III: {cé·qet pe} : ||ceqé·t pe|| : /ceqé·tpe/

'at raspberry'

IV and V: {cé·qet nime} : ||ceqet nime|| : /ceqetnime/

'Raspberry-Place'

{cé·qet pipem} : ||ceqet pipem|| : /ceqetpipem/

'among raspberries'

(4) {té·mses} type. The members of this type have four allomorphs. An example is {té·mses} 'wild rose.'

I: {té·mses +} : ||té·mses|| : /tá·msas/ 'wild rose'

- II and III: {té·m̄ses nim} : ||tesé·s nim||
 : /tamsá·snim/ 'wild rose' (possessive-nominative)
 {té·m̄ses pe} : ||tensé·s pe|| : /tamsá·spa/
 'at the wild rose'
- IV: {té·m̄ses nú·t} : ||tenses nú·t|| : /tamsasnó·t/
 'without wild rose'
- V: {té·m̄ses 'éyn} : ||tense·s éyn|| : /tamsa·sáyn/
 'for wild rose'

(5) {qé·m̄sit} type. The members of this type have four allomorphs. An example is {qé·m̄sit} 'kows' (edible root) (lomatium kaus).

- I and III: {qé·m̄sit +} : ||qé·m̄sit|| : /qá·msit/
 'kows'
- II: {qé·m̄sit ne} : ||qé·m̄si ne|| $\overset{f}{\sim}$ ||qé·m̄sit ne||
 : /qá·msina/ $\overset{f}{\sim}$ /qá·msitna/ 'hows' (object)
- IV: {qé·m̄sit nú·t} : ||qemsi nú·t|| $\overset{f}{\sim}$ ||qemsit nú·t||
 : /qamsinó·t/ $\overset{f}{\sim}$ /qamsitnó·t/ 'without kows'
- V: {qé·m̄sit pípem} : ||qemsit pípem|| : /qamsitpípan/
 'among kows'

(6) {qeqí·t} type. The members of this type have four allomorphs, with two freely alternating allomorphs each in environments II and III. An example is {qeqí·t} 'root somewhat like kows.'

I: {qeqí·t +} : ||qeqí·t|| : /qeqí·t/ 'qeqí·t'

II: {qeqí·t ne} : ||qeqí· ne|| $\overset{f}{\sim}$ ||qeqí·t ne||
: /qeqí·ne/ $\overset{f}{\sim}$ /qeqí·tne/ 'qeqí·t' (object)

III: {qeqí·t pe} : ||qeqí·t pe|| $\overset{f}{\sim}$ ||qeqiyít pe||
: /qeqí·tpe/ $\overset{f}{\sim}$ /qeqiyítpe/ 'at qeqí·t'

IV and V: {qeqí·t pípem} : ||qeqí·t pípem|| :
/qeqí·tpípem/ 'among qeqí·t'

{qeqí·t nú·t} : ||qeqí·t nú·t|| : /qeqí·tnú·t/
'without qeqí·t'

(7) {pé·ps} type. The members of this type have three allomorphs. An example is {pé·ps} 'red fir tree.'

I: {pé·ps +} : ||pé·ps|| : /pá·ps/ 'red fir tree'

II and III: {pé·ps nim} : ||pepés nim|| : /papásnim/
'red fir tree' (possessive-nominative)

IV and V: {pé·ps pípem} : ||peps pípem|| : /papsípam/
'among red fir trees'

Other examples in this type are {sí·ks} 'nest,' {pí·ps} 'bone,' {'é·yḡ} 'white salmon.'

(8) {áité·n} type. The members of this type have three allomorphs. An example is {áité·n} 'bitterroot.'

I, II and III: {áité·n +} : ||áité·n|| : /áitá·n/
'bitterroot'

{áité·n ne} : ||áité·n ne|| : /áitá·nna/
'bitterroot' (object)

{áité·n k} : ||áité·n k|| : /áitá·nx/ 'to bitterroot'

IV: {áité·n nú·t} : ||áité·n nú·t|| : /áitá·nnó·t/
'without bitterroot'

V: {áité·n pípem} : ||áité·n pípem|| : /áitá·npípam/
'among bitterroots'

(9) {yé·ke?} type. The members of this type have two allomorphs. An example is {yé·ke?} 'brown bear.'

I, II and III: {yé·ke? +} : ||yé·ke?|| : /yá·ka?/
'brown bear'

{yé·ke? ne} : ||yé·ke? ne|| : /yá·ka?na/ 'brown
bear' (object)

{yé·ke? pe} : ||yé·ke? pe|| : /yá·ka?pa/ 'at the
brown bear'

IV and V: {yé·ke? nime} : ||yé·ke? nime|| : /yá·ka?níma/
'Brown Bear Place'

{yé·ke? pípem} : ||yé·ke? pípem|| : /yá·ka?pípam/
'among brown bears'

The frequency of the nine types in a sample of 52 general noun stems is:

Type	Environments						Number of Allomorphs	Frequency (per cent)
	I	II	III	IV	V			
{wexwéqt}	1	2	3	4	5	6	6	1.9
{telétet}	1	2	3	4	5		5	3.8
{cé·qet}	1	2	3	4			4	1.9
{té·mses}	1	2		3	4		4	3.8
{qé·msit}	1	1-2	1	3-4	4		4	1.9
{qeql·t}	1	1-2	123	4			4	1.9
{pé·ps}	1	2		3			3	53.8
{iité·n}	1			2	3		3	3.8
{yé·ke?}	1			2			2	25.0

In compound stems, the maximal number of constituent morphemes appears to be two. As in monomorphemic stems the allomorphic variation is in number of segmentals, in length and in stress. Unlike monomorphemic stem allomorphs, some morphemes with consonant-final allomorphs before a morphological word juncture have allomorphs ending in a stressed vowel when they are the first member in a compound. Though there are exceptions, the second member tends to have unstressed allomorphs.

||hecwelé· miyeʔc|| : /hacwalá·miyaʔc/ 'son'

||hé·cwel|| : /há·cwal/ 'boy'

||miyéʔc|| : /miyáʔc/ 'child'

||cewitéx si·s|| : /cawitáxsi·s/ 'carrot soup'

||cewí·tk|| : /cawi·tx/ 'wild carrot'

||sí·s|| : /sí·s/ 'broth'

||'ele télu|| : /ʔalatálo/ 'yellowjacket'

||'é·le|| : /ʔá·la/ 'fire'

||té·lu|| : /tá·lo/ 'testes'

||piyéxç 'ini·t|| : /piyéxç'ini·t/ 'Mt. Idaho'

(from its shape)

||piyéxçs|| : /piyéxçs/ 'rawhide strap'

||'iní·t|| : /ʔiní·t/ 'house,' 'tepee'

510.2 Numeral stems (nuS) : any numeral.

The numeral allomorphy may be summarized:

after stem	bef. {+}	{ne}	{t}	{we +}	{we nik}	{é1e}	{éhem}	{hú·sus}	{e'éptit}
+ {né·qc}'1'	né·qc =	∅	∅	né·qc	neqc	nexc	neqc	∅	∅
+ {lep}'2'	∅	∅	lepi	lep	=	=	=	1	=
+ {mité·}'3'	∅	∅	mité·	mité·	*	mit	=	=	=
pi· {lep}2x'2'	∅	∅	lep	=	*	lep	=	=	=
+ {pé·xe}'5'	∅	∅	pé·xe	pé·x	pe _x	peq	pe·q	pé·q	peq(1)pe·q(2)
'uy {né·qc}5+'1'	lé·qc =	∅	∅	lé·qc	*	leqc	=	=	leqs
'uy {lep} 5+'2'	∅	∅	né·p	=	nep	=	=	=	n
'uy {mité·}'5+'3'	∅	∅	mété·	=	mete	mit	=	=	=
+ {kúyc}'9'	kúyc	kúyc	∅	kúyc	kúyc	kúyc	=	=	kúys
+ {pú·tim}'10'	∅	∅	pú·tim	=	pu·tim	putim	pu·tim	pu·tm	pú·t

∅: non occurrence

=: same as left

*: lacunae

(2): before {e'éptit} followed by {+}

(1): elsewhere before {e'éptit}

510.3 Kinship term stems (kS) : any kinship term.

The kinship term stems may be divided into two groups and five subgroups. The relationship of these groups and subgroups and affixal allomorphs may be summarized:

Environments	{ne?}	{ 'im }	{pe·}	{e?c}	{nim}		{ne}		{e}	{e?}
					1	2	1	2		
Group 1a	ne?	'i	∅	e?c	em	pim	ep	ne	e	e?
Group 1b		'im	pí pi pé· pe· pé pí·	∅						
Group 2a	'iní	'im	∅	∅	*	∅	ep	∅	∅	∅
Group 2b	'in									
Group 2c	'inm									
	'iním						p~ ne			

Environment 1: + {ne?}/{'im} stem - +

Environment 2: + {pe·} stem - + or + stem {e?c} - +

The membership of the groups above is as follows:

Group 1a: {qe_léc} 'FaFa,' {'é·1} 'FaMo,' {pílêq} 'MoFa,'
 {qé·c} 'MoMo.'

- Group 1b: {tú·t} 'Fa,' {f·c} 'Mo,' {méq} 'FaBr,'
 {cí·c} 'FaSi,' {téq} 'MoBr,' {qé·q} 'MoSi,'
 {yé·c} 'OBr,' {né·n} 'OSi.'
- Group 2a: {'écqe} 'YBr(m),' {nipe} 'YBr(f),' {qéni}
 'YSi(m),' {'éyi} 'YSi(f),' {'é·ks} 'Si(f),'
 {pé·qiy} 'BrCh(m),' {pé·mte} 'BrSo(f),'
 {pú·y} 'BrDa(f),' {mém} 'SiCh(m),' {'i·te}
 'SiCh(f),' {miyé?c} 'Ch,' {péhép} 'Da(m),'
 {peqélis} 'SoCh(m),' {péplex} 'DaCh(m),'
 {píptex} 'SoCh(f),' {péqex} 'DaCh(f),'
 {pinú·kin} 'HuBr,' 'BrWi(m),' {cí·ks} 'HuSi,'
 'BrWi(f),' {tiwé·ye} 'WiBr,' {ciki·wn} 'WiBr,'
 {piné·xsin} 'HuFa,' 'SoWi,' {pí·ses} 'WiFa,'
 {'iwé·p} 'Wi.'
- Group 2b: {hé·me} 'Hu.'
- Group 2c: {ciwé·qu} 'WiMo.'

Semantically, Group 1 includes the forms referring to senior consanguineal kin, while the second group includes the forms referring to junior consanguineal kin and affinal relationships. Group 1a includes four grandparent-grandchild forms.

The stem allomorphy in Group 1 is characterized by a ||c||-||s|| alternation between first and second person singular possessed forms, the former occurring with

||c|| and the latter with ||s||, and by final t-less allomorphs before suffixes with initial n and by p-less allomorphs before suffixes with initial m.

The complete inventory of kinship stem allomorphy is:

Environments:

1: + - +	6: {pe·} - + <u>or</u> + - {e?c} +
2: + - {e?}	7: {pe·} - {ne} <u>or</u>
3: {ne?} - +	+ - {e?c}{ne}
4: {ne?} - {nim}/{ne}	8: {pe·} - {me} <u>or</u>
5: {'im} -	+ - {e?c}{me}

Environments:	1	2	3	4	5	6	7	8

{hé·mé}	Hu	∅	hé·mé =	hé·m	=	hé·mé	=	*
{ciwé·qu}	WiMo	∅	ciwéq {ciwéq ~ ciwéqu}	ciwé·q	=	ciwé·qu	*	*

510.4 Personal pronoun stems (pps) : any personal pronouns.

The stem allomorphy of the personal pronouns is:

	before: +	nim	ne	ke	'eq	we·tk	ciwé·tq	nfk	hi·n	me
{'í·n}	lsg	'í·n	=	=	'fn	'in	=	*	∅	∅
{'í·m}	2sg	'í·m	'ime	'í·m	∅	'im	=	*	'im	'im
{'ipí}	3sg	'ipí	'ip	'ipín	∅	'ip	'ipin	'ipin	'ipn	∅
{nú·n}	lp1	nú·n	=	=	*	{ _{nu} nun	nun	*	∅	∅

{'í·m} with {me}, a plural suffix, indicates either second or third person; and second person singular without {me}.

{nú·n ciwé·tq} has two forms, /nonciwá·tx/ and /no·ciwá·tx/, the latter being an "older" form (cf. p. xxii).

510.5 Demonstrative stems (dS) : any demonstrative.

There are two demonstrative stem morphemes: {kí•} 'this,' and {ku} 'that.' The allomorphs are:

Environments:	1	2	3	4	5
{kí•} 'this'	kí•	kín	kin	kin	kí•
{k <u>u</u> } 'that'	∅	k <u>u</u> n	k <u>u</u> n	k <u>u</u> n	k <u>u</u> n

Environments 1: before {+}, {kek}

2: before {pe +}, {ike}, {ki}, {kiñik},
{ne}, {nim}, {wecet}

3: before {'éyn}

4: before {pe mé}

5: before {me}

Examples are:

		{kí•}	{k <u>u</u> }
Environment 1	before {+}	kí•	
	before {kek}	kí• kek	
Environment 2	before {pe +}	kín e	k <u>u</u> n é
	before {ike}	kín ike	k <u>u</u> n iké
	before {ki}	kín ki	k <u>u</u> n kí
	before {kiñik}	kín ik	k <u>u</u> n í•k

	{kí·}	{k <u>u</u> }
before {ne}	kín ye	k <u>u</u> n yé
before {nim}	kín m	k <u>u</u> n ím
before {wecet}	kín wecet	k <u>u</u> n wecé·n
<hr/>		
Environment 3: before {'éyn}	kín 'yeyn	k <u>u</u> n 'yeyn
<hr/>		
Environment 4: before {pe mé}	kín é· me	k <u>u</u> n e mé
<hr/>		
Environment 5: before {me}	kí· me	k <u>u</u> n mé
<hr/>		

{yuq} 'that' is semantically similar to {ku} 'that.'
 However, the allomorph ||ne|| of {ne}, instead of ||ye|| or ||yé||, occurs with yuq, which may be taken as a general noun. Because yuq occurs in the first environment, where ku does not, yuq frequently is found as a suppletive element.

510.6 Adjective stems (aS) : any adjective.

Adjective stem allomorphy may be treated more systematically after a larger corpus is examined; affixes occur with adjectives much less frequently than with the other subclasses of substantives.

However, three trends may be observed, (1) stems with stress on the last syllable in an allomorph which occurs after a {+} tend to have an allomorph with stress on the first syllable after an unstressed prefix, (2) an unstressed allomorph occurs after {'eteyé·} or before {ník}, (3) allomorphs ending in V[?]VC before a {+} tend to have an allomorph ending in V[?]V[?]C before a suffix.

Example of (1):

||cicqí[?]c|| : /cicqí[?]c/ 'generous'

||r cicqi[?]c|| : /cicicqi[?]c/ 'generous' (distributive)

Example of (2):

||t_e[?]c|| : /tá[?]c/ 'good'

||'eteyé· t_e[?]c|| : /[?]atayá·ta[?]c/ 'too good'

||t_e[?]c ník|| : /ta[?]snix/ 'very good'

Examples of (3):

||t_e[?]é_c wi t|| : /ta[?]ácwit/ 'goodness'

||qepsi[?]s|| : /qepsi[?]s/ 'bad'

||qepsi[?]ís wi t|| : /qepsi[?]iswit/ 'badness'

520. Substantive themes (sT).

Each of the above stem classes is defined by its occurrence in special thematic constructions. These constructions include classes of substantive affixes, which are shown below, together with their distributions among the various stem-classes.

521. Thematic affix classes.

Prefixes:

class	subclass	number of members	occurs with					
			nS	nuS	kS	ppS	dS	aS
< r >		1	x					x
< peH >		1	x	x				
< ne? >		3	x		x			
< 'e·t >	'e·t	1	x					x
	'eteyé·	1	x		x			x
	'ic	9	x					
	wiweqi	1	x			x		
	'úy	1	x	x				
	'uy	2			x			
	siléw	1						x

Suffixes:

class	subclass	number of members	occurs with					
			nS	nuS	kS	ppS	dS	aS
< 'é·1 >		31	x					
< e?éce >		3		x				
< e?éptit >		1		x				
< hú·sus >		1		x				
< we >	we	1	x	x				x
	t	1		x				
< e?c >		2			x			
< 'eq >		5				x		
< weyl >		1					x	
< ník >	ník	1	x	x	x	x	x	x
	cim	1	x				x	
	tí·te	1				x	x	
< nú·t >		1	x					
< nim >		1				x	x	
< me >		1	x		x	x	x	
< 'éyn >	'éyn	1	x				x	
	hí·n	1	x		x	x		
	mé	1	x				x	
	pe	1	x			x	x	

521.1 Thematic Prefix Classes.

- < r > The single member of this class is {r}
 (distributive), e.g.,
 ||h_eˆcwe₁|| : /há·cwal/ 'son'
 ||r h_eˆcwe₁|| : /hahácwal/ 'son' (distributive)
 ||wepcú·k|| : /wepcú·x/ 'intelligent'
 ||r_i wé·pcuk|| : /wiwé·pcux/ 'intelligent'
 (distributive)
- < peH > The single member of this class is {peH}
 'each' (with general nouns and kinship terms),
 'in groups of ...' (with numerals), e.g.,
 ||h_e·pey|| : /h_e·pey/ 'middle'
 ||peH h_e·pey|| : /peh_e·pey/ 'each of the middle
 ones' (e.g., any toe other than big and
 little toes)
 ||peH lepít|| : /pellepít/ 'in twos'
- < ne? > The three members of this class are {ne?}
 (first person singular possessive), {'im}
 (second person singular possessive), {pe·}
 (non-possession). An example with {ne?} is:
 ||ne? tú·t|| : /na?tó·t/ 'my father'

< 'é·t > This class has 16 members, generally attributive in meaning. An example is: {'é·t} 'big,' 'very.'

||té?c|| : /tá?c/ 'good'

||'e·t- té?c|| : /?e·ttá?c/ 'very good'

The others are:

{'eteyé·} 'distant,' 'deceased,' 'unbelievably'

{'ic} 'direction of'

{'ilé·} 'of fire'

{ke·} 'connected with biting'

{kun} 'once removed'

{pex} 'each'

{telf·} 'short'

{we?} 'with hand'

{wiyé·} 'in camping,' 'in moving'

{wiweqi} 'old'

{'úy} 'all,' 'both'

{'uy} 'five'

{pi·} 'twice,' 'mutually'

{siléw} 'seemingly'

{R} (diminutive)

521.2 Thematic Suffix classes.

< 'é·1 > This class has 27 members. An example is

{'é·1} 'season of ...'

||qúyxc|| : /qóyxc/ 'small reddish salmon'

||qúyxc 'é·1|| : /qoyxcá·1/ 'season of small reddish salmon'

The others are:

{'es} 'cure for ...'

{?m} 'season of ...'

{?wé·t} 'person who uses'

{e?é1} 'place where ... is'

{e?é·t} 'female ...'

{en} (meaning uncertain)

{e·s} 'site of ...'

{ete·s} 'place where ... lives'

{hf·c} 'place where ... is' (of plants)

{ht} 'beginning of ...'

{i} 'possessor of ...'

{i?les} 'one that lives in ...' (?)

{inme} 'a creature from ...'

{mep} 'place of ...'

{nikey} 'all of ...'

{nime} 'place where ... is'

{nimu·} 'people who eat ...'

{nume} (place name formant)
 {pelu·} 'person connected with ...'
 {pu·} 'residents at ...,' 'band or tribe of ...'
 {qen} 'young of ...,' 'small'
 {si?wey} 'bush of ...'
 {twe·} 'friend in ...,' '-mate,' 'person having
 ... in common'
 {we·ku?s} 'a thing like ...'
 {wite·s} 'place where ... was,' 'person that
 used to be ...'
 {ye·ye} 'the family of ...'

< e?éce > The three members of this class are {e?éce}
 'group,' {e?éle} 'pair,' {éhem} 'times.'
 An example (with {éhem}) is:
 ||lep éhem|| : /lepéhem/ 'twice'

< e?éptit > The single member of this class is {e?éptit}
 'ten times,' e.g.,
 ||'uy mit e?éptit|| : /?oymita?áptit/ 'eighty'

< hú·sus > The single member of this class is {hú·sus}
 'hundred times,' e.g.,
 ||'uy mit hú·sus|| : /?oymitó·sos/ 'eight hundred'

< we > The two members of this class are {we} (personal classifier), {t} (neutral classifier), e.g.,
 ||'uy né·p we|| : /ʔuyné·pwe/ 'seven' (people)
 ||'uy né·p t|| : /ʔuyné·pt/ 'seven'

< eʔc > The two members of this class are {eʔc} (non-possession), and {eyu·} '... and others,' e.g.,
 ||qeléc eʔc|| : /qalácaʔc/ 'paternal grandfather'
 ||neʔ tú·t eyu·|| : /naʔtó·tayo·/ 'my father and others'

< 'eq > This class has 5 members. An example is
 {ciwe·tq} 'alone.'
 ||'i·n|| : /ʔi·n/ 'I'
 ||'in ciwe·tq|| : /ʔinciwá·tx/ 'I alone'
 The others are:
 {'eq} (optative suffix)
 {ke} 'also'
 {quʔc} 'first'
 {we·tk} 'alone'

< wey1 > The single member of this class is {wey1}
 'so much,' e.g.,
 ||ki wey1|| : /kiwáy1/ 'this long,' 'this much'

< nik > The three members of this class are {nik}
 (intensifier), {cim} 'only,' {tí·te} 'same.'
 An example with {nik} is:
 ||te?c|| : /tá?c/ 'good'
 ||te?c nik|| : /ta?snix/ 'very good'
 ||'i·n|| : /?í·n/ 'I'
 ||'in nik|| : /?innix/ 'I myself'
 ||kuné|| : /koná/ 'there'
 ||kuney nik|| : /konaynix/ 'at that very place'

< nú·t > The single member of this class is {nú·t}
 'without,' e.g.,
 ||'é·tim|| : /?á·tim/ 'arm'
 ||'etím nú·t|| : /?atimnó·t/ 'armless,'
 'General Oliver O. Howard'

< nim > The single member of this class is {nim}
 (possessive-nominative), e.g.,
 ||sikem|| : /síkem/ 'horse'
 ||siké·m nim|| : /síké·mnim/ 'horse' (poss-nom)

- < 'éyn > The four members of this class are {'éyn}
 '(thing) for ...,' {hi'n} '(an object)
 with ...,' {mé} '(people) from ...,' {pe}
 'at ...,' 'place of'
 ||ciq'é·m qe1|| : /ciqá·mqal/ 'dog'
 ||ciq'é·m qe1 'éyn|| : /ciqá·mqaláyn/ 'for dog,'
 'dog sled'
 ||hé·ses|| : /há·sas/ 'nit'
 ||hesé·s hi'n|| : /hasá·si'n/ 'nitty,' 'Shoshoni'
 ||'elpéwewi|| : /ʔalpáwawi/ 'Alpowa Creek, Wash.'
 ||'elpewewi mé|| : /ʔalpawawimá/ 'people from
 Alpowa'
 ||túhún|| : /tóhon/ 'leggings'
 ||tuhún pe|| : /tohónpa/ 'in leggings'

522. Thematic constructions.

The varying internal structures of the substantive theme (sT) are described in the following sections. The elements surrounding the stem class markers are references to the preceding chart of affixes.

sT:	ne?	r	peH	'e·t	nS	'é·1	'éyn	me	we	nik
1.	x				x	x				
2.		x			x		x			x
3.		x	x		x					
4.			x		x		x			
5.				x	x					
6.					x	x	x		x	
7.					x			x		
8.					x				x	
9.					x					

Examples:

1. {ne? 'îlú·t twe·} : ||'in 'îlú·t we·|| : /ʔinlú·twe·/
 'my half-brother' (a woman speaking) ({ne?} 'my,'
 {'îlú·t} 'belly,' {twe·} 'a person having ... in
 common')
2. {r 'inwim mé cim} : ||r 'inwi·m e cim|| : /he?inwi·mcim/
 'only yearlings' ({r} distributive, {'inwim} 'year,'
 {mé} '(a being) from,' {cim} 'only')
3. {r peH néqe} : ||r_i peH néqe|| : /pepennéqe/ 'half-breeds'
 ({r} distributive, {peH} 'each,' {néqe} 'half')

4. {peH ciké·t pe} : ||peH cikét pe|| : /pecíketpe/
'every night,' 'night after night' ({ciké·t} 'night,'
{pe} 'place or time of ...')
5. {'eteyé· kú·s} : ||'eteyé· ku·s|| : /ʔeteyé·ku·s/
'ocean' ({'eteyé·} 'distant,' 'deceased,' {kú·s}
'water')
6. {'éys nime pe we} : ||'éys nimé pe we|| : /ʔaysnimá·po·/
'Catholics' ({'éys} 'parsnip sp.,' {nime} 'a place
where ... is,' {pe} 'place of ...,' {we} personal
classifier)
7. {léwtiwe· me} : ||léwtiwe·me|| : /láwtiwa·ma/
'friends' ({léwtiwe·} 'friend,' {me} plural suffix)
8. {leʔém we} : ||leʔém we|| : /la.ámwa/ 'all the people'
({leʔém} 'all,' {we} personal classifier)
9. {léwtiwe·} : ||léwtiwe·|| : /láwtiwa·/ 'friend'

ST: nS nú·t

Example:

{'é·tim nú·t} : ||'etim nú·t|| : /ʔatimnó·t/
'armless,' 'General O. O. Howard' ({'é·tim}
'arm,' {nú·t} 'without')

Unlike substantive themes in which a general noun stem is a constituent, the substantive themes having a numeral stem as the constituent occur with at least one obligatory suffix.

sT:	peH	'e·t	nuS	eʔéptit	hú·sus	we	eʔéce	nik
1.	x	x	x				x	
2.			x	x	x			
3.			x			x	x	
4.			x			x		x
5.			x	x			x	
6.			x		x	x		
7.		x	x			x		x
8.			x			x		

Examples:

1. {peH 'uy né·qc éhem} : ||peH 'uy leqc éhem|| :
/paʔoylaqcáham/ 'six times each' ({peH} 'each,'
{'uy} 'five,' {né·qc} 'one,' {éhem} 'times')
2. {lep eʔéptit hú·sus} : ||1 eʔeptit hú·sus|| :
/leʔeptitú·sus/ 'two thousand' ({lep} 'two,'
{eʔéptit} 'ten times,' {hú·sus} 'hundred times')
3. {pú·tim t eʔéle} : ||pu·tim t eʔéle|| : /pu·timteʔéle/
'ten pairs' ({pú·tim} 'ten,' {t} neutral classifier,
{eʔéle} 'pair')
4. {pé·x̣e we ník} : ||pex̣ lu· ník|| : /pax̣lo·níc/ 'only
five people' ({pé·x̣e} 'five,' {we} personal classifier,
{ník} intensifier)
5. {pé·x̣e eʔéptit éhem} : ||peq eptit éhem|| : /paqaptitáham/
'fifty times'

6. {lep hú·sus we} : ||lep hú·sus we|| : /lepú·suswe/
 'two hundred people' ({lep} 'two,' {hú·sus} 'hundred times,' {we} personal classifier)
7. {'uy lep we ník} : ||'uy nep we ník|| : /ʔuynepwenix/
 'only seven people' ({'uy} 'five,' {lep} 'two,' {we} personal classifier, {ník} intensifier)
8. {lep t} : ||lepi t|| : /lepít/ 'two' ({t} neutral classifier)

Either the < ne? > class, or the < e?c > class is required as a constituent with a kinship stem (kS).

ST:	'e·t	ne?	kS	e?c	me	nim	'éyn	ník
1.	x	x	x					
2.		x	x			x	x	
3.		x	x			x		x

5. {tɛʔc} : ||tɛʔc|| : /táʔc/ 'good'

523. Deverbative themes.

In addition to the preceding there are substantive themes which include verb stems (vS) as a constituent.

523.1 Deverbative themes in which affixes for substantive themes occur as optional constituents:

sT:	vS	'é·1
1.	x	x
2.	x	

Examples:

1. {pɛy nime} : ||pɛy nime|| : /páynima/ (place name) (literally 'place of arrival') ({'pɛy} 'come,' {nime} a place name formant, a member of < 'é·1 > class)
2. {léwyele} : ||léwyele|| : /láwya1a/ 'fishing' ({'léwyele} 'fish (vb.)')

523.2 Deverbative themes in which special suffixes for verb derivation occur as constituents. This special suffix class will be called < ʔé·t > class. The 21 members of this class and their allomorphs are as follows:

{ʔé·t} (agentive 1) indicates the performer of an action. There are four morphemes (agentives 1-4) with similar semantic content, the last two are extremely limited in occurrence. {ʔé·t} : ||ne·t|| or ||né·t|| after a c-class verb theme (cf. 620 for c- and s-class distinction); ||yeʔé·t|| after an s-class theme ending in ||i||; ||ʔé·t|| or ||ʔét|| elsewhere.

||ne·t||:

{pîʔim ʔé·t} : /piʔimne·t/ 'young person'
({pîʔim} 'grow' c-class)

||né·t||:

{təmté·y ʔé·t} : /tamtayná·t/ 'minister'
({təmté·y} 'preach,' 'gossip' c-class)

||yeʔé·t||:

{sepi·newi ʔé·t} : /sepi·newiyeʔé·t/ 'surveyer'
({sepi·newi} 'measure' s-class)

||ʔé·t||:

{tûk^We lú· ʔé·t} : /tukelu·ʔé·t/ 'diver'
({tûk^W} 'dive'; {lú·} 'move under water' s-class)

||ʔét||:

{wep_eyete ʔé·t} : /wapayataʔát/ 'helper,'
'assistant' ({wep_eyete} 'help' s-class)

{eʔwé·t} (agentive 2): ||neʔwé·t|| after a c-class theme;
||yeʔwé·t|| after an s-class theme ending in a vowel other
than ||e||; ||ʔwé·t|| after an s-class theme ending in ||e||;
||eʔwé·t|| elsewhere.

||neʔwé·t||:

{sepé· hité·me eʔwé·t} : /sepehitemeneʔwé·t/
'teacher' ({sepé·} causative 620; {hité·me}
'read' c-class, lit. 'one who makes one read')

||yeʔwé·t||:

{túk^W lú· eʔwé·t} : /tukelu·yeʔwé·t/ 'diver'

||ʔwé·t||:

{wep_eyete eʔwé·t} : /wapayataʔwá·t/ 'helper,'
'assistant'

||eʔwé·t||:

{hipí eʔwé·t} : /hipeʔwé·t/ 'eater' ({hipí}
'eat' s-class)

{un} (agentive 3) is found in the following two examples,
which occur after s-class themes.

{'imé·c'inp un} : /ʔimé·c'inpun/ 'prophet'
({'imé·c'inp} 'prophecy' s-class)

{kú· e'yik un} : /kiké·yikun/ 'perennial
 traveler' ({kú·} 'go' s-class; {e'yik}
 repetitive 620 s-class)

{lu} (agentive 4) is found in the following single example
 after a c-class theme.

{čí·q lu} : /čí·xlu/ 'talking squirrel'
 ({čí·q} 'talk' c-class)

{e?i} (inanimate agentive): ||e?i|| before {+}; ||e?i·||
 elsewhere. There are no examples of {e?i} after a
 c-class theme.

||e?i||:

{we· ke?éyk e?i} : /we·ke?yke?i/ 'airplane'
 ({we·} 'fly'; {ke?éyk} 'go' s-class)

||e?i·||:

{'ipné· wîlé· ke?éyk e?i ki} : /?ipnewleke?yke?i·ki/
 'by automobile' ({'ipné·} third person singular
 reflexive prefix, < pi· > class 620; {wîlé·}
 'run' 610.1; {ki} 'by' of < k > class 533)

{e?s} 'an object for ... ing': ||nes||, ||íec|| or ||s|| after
 a c-class theme; ||e?s|| after a consonant-final s-class
 theme; ||tes|| elsewhere.

||nes||:
 {hité·me e?s} : /hité·me[́]nes/ 'book'
 ({hité·me} 'read' c-class)

||íec||:
 {kiwkiwí e?s} : /kiwkiwí[́]ec/ 'drum'
 ({kiwkiwí} 'beat' c-class)

||s||:
 {tí·pse[?] s} : /tí·psa[?]s/ 'scraper' ({tí·pse[?]}
 'scrape' c-class)

||e?s||:
 {'íse k[́]w k e?s} : /[?]isak[́]wka[?]s/ 'saw'
 ({'íse} 'with a cutting instrument';
 {k[́]w} 'cut'; {k} meaning uncertain, < etk >
 class 620; s-class)

||tes||:
 {'ipé·te e?s} : /[?]ipé·te[́]tes/ 'scraper/
 ({'ipé·te} 'scrape' s-class)

{ú?s} 'an object for ...ing': ||-nú?s|| after a c-class theme; ||u[?]ú^s|| after an s-class verb theme ending in a single consonant and not before a {+}; ||ú?s|| elsewhere after a consonant-final s-class theme; ||-t[́]u[?]s|| elsewhere.

||-nú?s||:

{'íye léhne ú?s} : /[?]iyehnenó[?]s/ 'pole' (for

a canoe) ({'îye} 'afloat'; {léhne} 'down'
c-class)

||u?ús||:

{wislíp ú?s ne} : /wislipo?ósna/ 'snow-shovel
(object case)' ({'wislíp} 'shovel' s-class;
{ne} objective 532)

||ú?s||:

{wislíp ú?s} : /wislipó?s/ 'snow-shovel'

||-tú?s||:

{cuké·ymi ú?s} : /cukeymitó?s/ 'bone instrument
for scraping the inner pine bark used for
food' ({'cuké·ymi} 'get bark' s-class)

{nwe·s} 'place of ...ing': ||niwe·s|| after a c-class
consonant-final theme; ||inwe·s|| after an s-class consonant-
final theme; ||nwe·s|| elsewhere.

||niwe·s||:

{'é·?ys nwe·s} : /?é·?ysniwe·s/ 'heaven,'
'Happy Hunting Ground' ({'é·?ys} 'be\happy'
c-class)

||inwe·s||:

{'é·lik nwe·s} : /?á·likinwa·s/ 'fireplace'
({'é·lik} 'make fire' s-class)

||nwe·s||:

{'îtemyé· nwe·s} : /?itamýá·nwa·s/ 'store,'
'town' ({'îtemyé·} 'sell' s-class)

{tesí·n} 'place of ...ing' is found in one example.

{wepté· tesí·n} : /wepté·tesí·n/ 'place for
feathering arrows' ({wepté·} 'feather
arrows' s-class)

{éhe} 'place of ...ing' is found in one example.

{'ú·yi éhe} : /ʔuyéhe/ 'starting place'
({'ú·yi} 'begin,' 'start' s-class)

{sí·mey} 'one incapable of ...ing': ||cí·mey|| after a
c-class theme; ||sí·mey|| elsewhere.

||cí·mey||:

{lemmt sí·mey} : /lamamtčí·may/ 'impatient
person' ({lemmt} 'be patient' c-class)

||sí·mey||:

{'čí·q sí·mey} : /'číq sí·mey/ 'deaf-mute,'
'quiet person' ({'čí·q} 'talk' s-class)

{eʔyé·ʔy} 'one incapable of ...ing': ||ʔné·ʔy|| after
a c-class theme; ||eʔyé·ʔy|| or ||eʔyé·y|| elsewhere.

||ʔné·ʔy||:

{siw[̄]lé· eʔyé·ʔy} : /siwleʔné·ʔy/ 'one unable
to swim' ({siw[̄]lé·} 'swim' c-class)

||eʔyé·ʔy||:

{we kéyk eʔyé·ʔy} : /wakaykaʔyá·ʔy/ 'unrinsed'
(of clothes), 'unsifted' (of sand) ({we}
'with implement'; {kéyk} 'clean' s-class)

||eʔyé·y||:

{nekí eʔyé·ʔy} : /nekeʔyé·y/ 'unthinking person'
({nekí} 'think' s-class)

{tpes} 'one who is unwilling to ...' is found in one example.

{míčí· tpes} : /míčí·tpas/ 'one who does not
want to understand,' 'stubborn person'
({míčí·} 'hear' s-class) cf. /míčísí·may/
'one who does not understand (a language),'
'deaf-mute'

{tekey} 'object for ...ing' is found in the following two examples.

{wixs ʔú tekey} : /wixsʔútekey/ 'buffalo robe
to sit on,' 'cushion' ({wixs} 'sit'; {ʔú}
meaning uncertain, c-class)

{'isé·pe tekey} : /ʔisá·ptakay/ 'parfleche'
({'isé·pe} 'put in a parfleche' c-class)

{t'pes} 'object for ...ing': is found in one example.

{kícuy 'íte t'pes} : /kícú·yítet'pes/
 'purse' ({kícuy} 'money,' 'metal'; {'íte}
 'put in' s-class)

{'ew} 'characterized by ...ing'

{hením 'ew} : /henímew/ 'lazy,man' ({hením}
 'not to go' c-class)
 {'îkú·y tim 'ew} : /?îkú·ytimew/ 'honest man'
 ({'îkú·y} 'be honest'; {tim} 'speak' s-class)

{i?n} 'one that is ...ed'

after a stressed s-class theme with final ||i||
 and before {+}||?n||
 after a stressed s-class theme with other
 finals and before {+}||i?n||
 after a stressed s-class theme elsewhere||i?s||
 after an unstressed vowel-final s-class
 theme and before {+}||?í·n||
 elsewhere after an s-class theme and before
 {+}||yí·n||
 after a c-class theme and before {+}||ni?n||
 elsewhere after a c-class theme||ni?s||

{i?n} is not found after an unstressed s-class theme
 and not before {+}.

||ʔn||:

{qêqé·wi iʔn} : /qeqé·wiʔn/ 'drunk'
 ({qêqé·wi} 'drink' s-class)

||iʔn||:

{we kéyk iʔn} : /wakáykiʔn/ 'sifted (sand)'
 ({we} 'with implement'; {kéyk} 'clean' s-class)

||iʔs||:

{sepé· pîyúxte iʔn 'éyn} : /cepé·pyuxtiʔsʔayn/
 'for a pie' ({sepé·} causative prefix 620;
 {pîyúxte} 'place in between' s-class; {'éyn}
 'for' 534)

||ʔí·n||:

{yexse iʔn} : /yaᵾsaʔí·n/ 'poured over'
 ({yexse} 'spill' s-class)

||yí·n||:

{he·ní iʔn} : /hanyí·n/ 'made,' 'manufactured'
 ({he·ní} 'make' s-class)

||niʔn||:

{'é·tim k'í·w iʔn} : /ʔa·timk'í·wniʔn/ 'Gen.
 O. O. Howard' (< 'arm cut') ({'é·tim} 'arm';
 {k'í·w} 'cut' c-class)

||niʔs||:

{'é·tim k'í·w iʔn ne} : /ʔa·timk'í·wniʔsna/
 'Gen. O. O. Howard (object case)' ({ne}
 object case suffix 532)

{t} '-ing'

after a vowel-final c-class theme and before {+}..||n||
 elsewhere after a vowel-final c-class theme ∅
 after a consonant-final c-class theme||in||
 after an s-class theme||t||.

Examples:

||n||:

{pí· we·p ci?yew t} : /pí·wapci?yawn/ 'war'
 ({pí·} reciprocal prefix 620; {we·p} 'with
 hand or paw'; {ci?yew} 'kill' c-class)

∅ :

{pí· we·p ci?yew t pe} : /pí·wapci?yawpa/
 'during the war' ({pe} 'at the time of' 534)

||in||:

{tûk^we lí·k t} : /tukelí·kin/ 'hunting'
 ({tûk^we} 'hunt'; {lí·k} 'move,' 'go' c-class)

||t||:

{neki t} : /né·kt/ 'thinking,' 'idea'
 ({neki} 'think' s-class)

{típec} (desiderative suffix)

after a c-class theme and before {+}||nípec||
 elsewhere after a c-class theme||ni?pé·c||
 after an s-class theme and before {+ }.....||típec||
 elsewhere.....||típe·c||

Examples:

||nípec||:

{túk típec} : /tuxnípec/ 'one who likes to
talk,' 'gossiper' ({túk} 'gossip' c-class)

||niʔpé·c||:

{ciklí· típec wi s e} : /cikli·niʔpé·cwise/
'I want to go home' ({ciklí·} 'turn' c-class;
{wi} 'do' 622.1)

||típec||:

{'iné· kú· típec} : /ʔineku·típec/ 'one given
to drinking' ({'iné·} reflexive prefix 620;
{kú·} 'drink (with a reflexive prefix)'
s-class)

||tipé·c||:

{hi ciklí· tuq típec wi s e} : /hickili·toqtipá·cwise/
'he is anxious to return' ({tuq} 'back' s-class)

{tíc} 'one that does,' 'one that is characterized by ...ing':

||'ic|| or ||'is|| after a c-class theme; ||tíc|| elsewhere.

||'ic||:

{tillé·p tíc} : /tillá·pic/ 'lonesome'
({tillé·p} 'be lonely' c-class)

||'is||:

{seyqí tic} : /sayqís/ 'beautiful' ({seyqí}
'be beautiful' c-class)

||tic||:

{'ílé·twi tic} : /?ilatwí·tic/ 'tiresome'
({'ílé·twi} 'be tired' s-class)

{R} 'one that is characterized by ...ing'

{R kéyk} : /kayxkáyx/ 'clean' ({kéyk} 'be clean'
s-class)

{R tí·pit} : /ti·pití·pit/ 'smooth'
({tí·pit} 'be smooth')

The second type of deverbative themes may be summarized as follows:

sT: gvT < ?é·t >.

General verb themes (gvT) are described in 622.1.

530. Substantive inflection.

The following five classes of suffixes occur as inflectional elements in constituency with substantive themes:

class	subclass	number of members	occurs with					
			nT	nuT	kT	ppT	dT	aT ¹
< nim >		1	x	x	x	x	x	x
< ne >		1	x	x	x	x	x	x
< k >	k	1	x	x	x	x	x	
	kek	1	x				x	
	ki	1	x	x	x	x	x	x
	ki'nik	1	x		x	x	x	
	hi'nek	1	x					
	leykin	2	x		x			
	ike	2					x	
	wecet	1	x		x		x	
< 'éyn >	'éyn	1	x		x	x	x	
	hi'n	1	x		x	x		
	mé	1	x	x			x	
	pe	1	x	x	x	x	x	
< e >		2			x			

¹nT, nuT, kT, ppT, dT, aT are substantive themes having nS, nuS, kS, ppS, dS, aS as constituents respectively. nT also stands for an sT having a verb stem as a constituent.

531. < nim >. The single member of this class is {nim} (possessive-nominative) indicating either the possessor of an object or the performer of the action of the verb.
 {nim}

with general nouns: ||m||, ||im||, ||nm||, ||nim||

as ||m|| after a thematic suffix, e.g., {ciq'ém qel nim} : /ciq'ámqalm/ 'dog' (possessive-nominative);

as ||im|| elsewhere after ||n||, e.g., {qí·wn nim} /qí·wnim/ 'old man' (possessive-nominative);

as ||nm|| elsewhere after a vowel, e.g., {píswe nim} : /píswé·nm/ 'stone' (possessive-nominative);

as ||nim|| elsewhere, e.g., {lé·qec nim} : /laqá·snim/ 'mouse'

with kinship terms: ||em||, ||im||, ||pim||

as ||em|| with the first group (510.3) and with {ne?} 'my,' or {'im} 'your (sg.);' e.g.,

{ne? tú·t nim} : /na?tó·tam/ 'my father' (poss-nom);

as ||im|| elsewhere after ||p||, e.g., {piyep nim} : /piyé·pim/ 'elder brother' (possessive-nominative);

as ||pim|| elsewhere, e.g., {pe·'f·c nim} : /piké·pim/ 'mother' (possessive-nominative)

with personal pronouns: ||nim||, ||im||, ||m||, ||im||

as ||nim|| after {'ipí} 'he, she, it,' e.g., {'ipí nim} : /?ipnim/ 'his,' 'he';

as ||im|| after {'i·m} 'you (sg.),' e.g.,

{'i·m nim} : /ʔimim/ 'your (sg.),' 'you (sg.)'
 as ||m|| after {me} (plural suffix), e.g.,
 {'i·m me nim} : /ʔimé·m/ 'your (pl.),' 'their,'
 'you (pl.),' 'they'
 as ||im|| elsewhere, e.g., {'i·n nim} : /ʔi·nim/
 'my,' 'I'

with demonstratives: ||m||, ||im||

as ||m|| after {ki·} 'this,' e.g., {ki· nim} :
 /kinm/ 'this' (possessive-nominative);
 as ||im|| after {ku} 'that,' e.g., {ku nim} :
 /konim/ 'that' (possessive-nominative)

with adjectives: ||nim||

{'icwé·ys nim} : /ʔicweʔi·snim/ 'cold' (possessive-
 nominative)

Occasionally allomorphs of {nim} for general nouns occur
 with kinship terms, possibly indicating an analogical
 formation, e.g., {pe· 'i·c nim} : ||piké·nm|| : /piké·nm/
 'mother,' instead of /piké·pim/.

A possible indication of the preceding morphophonemic
 segment as the conditioning factor with general nouns may
 be in the following freely alternating doublets:

||cé·qet|| : /cé·qet/ 'blackberry'

||ceqé·t nim|| $\overset{f}{\sim}$ ||ceqé· nm|| : /ceqé·tnim/ $\overset{f}{\sim}$ /ceqé·nm/
 'blackberry' (possessive-nominative)

||'é·wit|| : /ʔá·wit/ 'widow'

||'ewí·t nim|| $\overset{f}{\sim}$ ||'ewí· nm|| : /ʔawí·tnim/ $\overset{f}{\sim}$ /ʔawí·nm/
 'widow' (possessive-nominative)

532. < ne >. The single member of this class is {ne} (objective) indicating the object of the verbal action. {ne}

with general nouns: ||né||, ||e||, ||ne||

as ||né|| after {kele} 'that much,' e.g., {kele ne} : /kalaná/ 'that much' (object);

as ||e|| after ||l|| or ||n||, e.g., {qí·wn ne} : /qí·wne/ 'old man' (object);

as ||ne|| elsewhere, e.g., {cé·qet ne} : /ceqé·ne/ 'raspberry' (object)

with numerals: ||ine||, ||ine||, ||ne||

as ||ine|| after {t} (neutral classifier) preceded by {pú·tim} 'ten,' e.g., {pú·tim t ne} : /pu·timtine/ 'ten' (object);

as ||ine|| elsewhere after {t}, e.g., {lep t ne} : /lepítine/ 'two' (object);

as ||ne|| elsewhere, e.g., {lep we ne} : /lepú?ne/ 'two (people)' (object) ({we} personal classifier)

with kinship terms: ||ep||, ||ne||

as ||ep|| with group 1 or 2b (510.3) and with {ne?} 'my,' or {'im} 'your (sg.),' e.g., {ne? qeléc ne} : /na?qalácap/ 'my paternal grandfather' (object);

as ||ne|| elsewhere, e.g., {qeléc e?c ne} : /qaláca?cna/ 'paternal grandfather' (object)

with personal pronouns: ||né||, ||e||, ||né·n||, ||en||
 as ||né|| after {'ipí} 'he, she, it' and before
 {+}, e.g., {'ipí ne} : /ʔipné/ 'him, her, it';
 as ||e|| elsewhere before {+}, e.g., {'i·n ne} :
 /ʔi·ne/ 'me';
 as ||né·n|| elsewhere after {'ipí}, e.g., {'ipí
 ne ké} : /ʔipné·nke/ 'him/her/it also';
 as ||en|| elsewhere, e.g., {'i·n ne ké} :
 /ʔi·nenke/ 'me too'

with demonstratives: ||ye||, ||yé||
 as ||ye|| after {kí·} 'this,' e.g., {kí· ne} :
 /kinye/ 'this' (object);
 as ||yé|| after {ku} 'that;' e.g., {ku ne} :
 /konyá/ 'that' (object)

with adjectives: ||ene||
 as ||ene|| everywhere, e.g., {kúckuc ne} :
 /kúckucene/ 'small' (object)

533. < k >. The ten members of this class, mostly
 with locative or instrumental meanings, are as follows:
 {k} 'to,' 'upto,' 'than,' 'against,' '-th'(with numerals).

with numerals: ||k||, ||kipk||, ||ipk||, ||ipk||
 as ||k|| after {kúyc} 'nine' or {eʔéptit}
 'ten times,' e.g., {kúyc k} : /kuʔicx/ 'ninth';

as ||kipk|| after {hú·sus} 'hundred times,' e.g.,
 {pú·tim hú·sus k} : /pu·tmú·suskipx/ 'one
 thousandth' ({pú·tim} 'ten');

as ||ipk|| after {né·qc} 'one' or {pé·x̣e} 'five'
 followed by {t} (neutral classifier), e.g.,
 {pé·x̣e t k} : /pa·x̣atípx/ 'fifth';

as ||ipk|| elsewhere, e.g., {lep t k} : /lepítípx/
 'second' ({lep} 'two')

with non-numerals: ||pk||, ||k||

as ||pk|| after a vowel, e.g., {'é·le k} :
 /ʔá·lapx/ 'against fire' ({'é·le} 'fire');

as ||k|| elsewhere, e.g., {mé·x̣sem k} :
 /mex̣sé·mx/ 'to mountain' ({mé·x̣sem} 'mountain').

{kek} 'in the direction of ...'

as ||kek|| everywhere, e.g., {né·we kek} :
 /newé·kex/ 'toward Lolo Creek' ({né·we}
 'Lolo Creek, Idaho').

{ki} 'in the language of ...,' 'at the time of ...,'
 'on account of ...,' 'in comparison with ...,' 'about ...'
 (of a subject matter), 'by means of ...,' 'than!': ||kí||
 after {ku} 'that'; ||ki|| elsewhere, e.g.,

{ku ki} : /konkí/ 'with that'

{su·yé· pe we timt ki} : /so·yá·po·timtki/
 'in English' ({su·yé·} 'the white,' {pe}

'place of ...,' {we} personal classifier,
{timt} 'language')

{kińik} 'from ...': ||i·k|| after {ku} 'that'; ||ik|| after
{kí·} 'this'; ||pkińik|| after ||ʔ||, ||k||, ||q|| or a vowel;
||kińik|| elsewhere.

||i·k|| :

{ku kińik} : /koní·x/ 'from that'

||ik|| :

{kí· kińik} : /kínix/ 'from this'

||pkińik|| :

{cemí·tk kińik} : /cemitéxpkińix/ 'from
huckleberry' ({cemí·tk} 'huckleberry')

||kińik|| :

{neʔ tú·t nim kińik} : /naʔtó·tamkińix/
'from my father'

In two instances of place names, ||kińik|| is found
after a vowel:

{weʔléwe kińik} : /waʔlwá·kińix/ 'from
Wallawa, Washington'

{leméte kińik} : /lamtá·kińix/ 'from Whitebird,
Idaho'

With personal pronouns, ||kińik|| is found after a thematic suffix and ||kińí·k|| elsewhere, e.g.,

{'i·m nim kińik} : /ʔimimkińix/ 'from you (sg.)'

{'i·m kińik} : /ʔimkińí·x/ 'from you (sg.)'

The last two were given as possible free alternants in a text.

{hí·nek} 'even ...'

{pí·ps hí·nek} : /pipsí·nex/ 'even a bone'

{weswésnu hí·nek} : /waswasnohí·nax/ 'even a chicken' ({weswésnu} 'chicken')

{leykin} 'in the vicinity of ...'

{lé·qe leykin} : /lá·qalaykin/ 'near a pine tree' ({lé·qe} 'pine tree')

{síkem leykin} : /siká·mlaykin/ 'near a horse' ({síkem} 'horse')

{pipem} 'among ...'

{léwtiwe· pipem} : /lawtiwa·pipam/ 'among friends' ({léwtiwe·} 'friend')

{ike} 'at ... side': ||ike|| after {kí·} 'this'; ||iké|| after {ku} 'that,' e.g.,

{kí· ike} : /kinike/ 'on this side'

{ku ike} : /koniká/ 'on that side'

{met} 'at the time of ...'

{kí·met} : /kí·met/ 'at this time'

{wecet} 'because of ...': ||wecé·n|| after {ku} 'that';

||wecet|| elsewhere, e.g.,

{ku wecet} : /konwacá·n/ 'therefore'

{'ítú·wecet} : /ʔitú·wecet/ 'why' ({'ítú·
'what'})

534. < 'éyn >. The four members of this class are ambivalent in that they occur either as thematic affixes or inflectional elements.

{'éyn} 'for the sake of ...': ||'yéyn|| after {ku} 'that' followed by {me} (plural suffix); ||'yeyn|| elsewhere after demonstratives; ||éyn|| ~ ||'éyn|| after ||s||; ||'éyn|| ~ ||'eyn|| ~ ||-'eyn|| elsewhere.

||'yéyn|| :

{ku me 'éyn} : /konmaʔyáyn/ 'for those'

||'yeyn|| :

{kí· 'éyn} : /kínyayn/ 'for this'

||éyn|| :

{piskis 'éyn} : /piskisáyn/ 'for door'

||'éyn|| :

{ciqé·m qe1 'éyn} : /ciqa·mqaláyn/ 'for dog'

||'eyn|| :

{tuʔúynu 'éyn} : /toʔynóʔayn/ 'for tail'

||-'eyn|| :

{'é·1 eʔc 'éyn} : /ʔé·leʔcayn/ 'for paternal
grandmother'

{hí'n} 'with...': ||hí'n|| ~ ||hi'n||, e.g.,

{pe· tú·t hí'n} : /pisti·n/ 'with father'

{hé·ses hí'n} : /hasá·siʔn/ 'nitty'

({hé·ses} 'louse egg')

{mé} 'from ...'

after {kú·seyñ} 'Montana' or {ku} 'that' : ||emé||

after {té·kin} 'meadow' : ||'mé||

after a theme with final ||m|| : ||e|| ~ ||'é||

elsewhere : ||me|| ~ ||mé||

||emé|| :

{kú·seyñ mé} : /kuseyñemé/ 'from Montana'

||'mé|| :

{té·kin mé} : /tekinmé/ 'from meadow'

||e|| :

{'inwim mé} : /ʔinwí·me/ 'from last year'

({'inwim} 'year')

||'é|| :

{mé·xsem mé} : /mexsemé/ 'from mountain'

||me|| :

{nipéhe mé} : /nipehéme/ 'from Graves Creek,
Idaho'

||mé|| :

{'elpéwewi mé} : /ʔalpawawimá/ 'from Alpowa,
Washington'

{pe} 'at,' 'in,' 'at the time of ...'

after {kí·}	'this':	before {+}	: e
		before {ník}	: ey
after {k <u>u</u> }	'that':	before {+}	: é
		before {ník}	: ey
after {ník} or {'í·m}	'you (sg.)'		: pé
elsewhere			: pe

||e|| :

{kí· pe} : /kine/ 'here'

||ey|| :

{kí· pe ník} : /kineynix/ 'at this very spot'

{ku pe ník} : /konaynix/ 'at that very spot'

||é|| :

{ku pe} : /koná/ 'there'

||pé|| :

{né·qc ník pe} : /na·qcnipá/ 'at the place of
only one'

||pe|| :

{túhun pe} : /tohónpa/ 'in leggings'
 ({túhun} 'trousers,' 'leggings')

535. < e >. The two members of this class are:

{e} (junior vocative suffix) occurs with the four kinship terms denoting grandparent-grandchild relationship and indicates that the vocative refers to the younger referent of the reciprocal system.

The four examples are:

{qeléc e} : /qaláca/ 'son's child!' (a man speaking)

{pîléc e} : /piláqa/ 'daughter's child!'
 (a man speaking)

{'é·1 e} : /ʔé·1e/ 'son's child!'
 (a woman speaking)

{qé·c e} : /qá·ca/ 'daughter's child'
 (a woman speaking)

{eʔ} (senior vocative suffix) occurs with twelve kinship terms and indicates the senior referent.

{qeléc eʔ} : /qalácaʔ/ 'paternal grandfather'

{pîléc eʔ} : /piláqaʔ/ 'maternal grandfather'

{'é·1 eʔ} : /ʔé·1eʔ/ 'paternal grandmother'

536. The substantive constructions in which the inflectional suffix classes above participate are:

Ss = subject substantive

Ss : sT [nim]

Example: sT < nim >

{'ipí nim}

||'ip nim||

/ ?ipnim /

he

So = object substantive

So : sT [ne]

Example: sT < ne >

{'ipí ne}

||'ip né||

/ ?ipné /

him

S1 = locative substantive

S1 : sT k/'éyn

Examples: sT < k >

{tiwélqe ki}

||tiwélqe ki||

/ tiwélqeki /

on account of the enemy

sT < 'éyn >

{ku pe}

||kun é||

/ koná /

at that place

At = attributive

At: sT [nim]

Example: sT < nim >

{'ipi nim}

||'ip ním||

/ ?ipnīm /

his

I = interjection

I: sT e

Example: sT < e >

{qeléc e?}

||qeléc e?||

/ qaláca? /

paternal grandfather!

600. VERB

Verb stems are discussed in 610 and verb themes are discussed in 620.

610. Verb stems.

There are two verb stem classes.

610.1 General verb stems (gvS) : one or two general verb root morphemes, or a general verb root morpheme plus a preceding general noun root morpheme.

The two main variables in the allomorphy of monomorphemic verb stems are stress and canonical forms.

The two major types of verb stems, in terms of the first variable noted above, are stressed and unstressed types, the latter with two subtypes.

A stressed verb stem occurs always with a stress, and ends in either a consonant or an unstressed vowel, e.g.,

{têqí·k} 'come down' s-class

||têqí·k s e|| : /teqí·kse/ 'I am coming down'

||têqí·k s e qe|| : /taqí·ksaqa/ 'I came down'

{tí·we} 'smell bad' c-class

||tí·we c e|| : /tí·wece/ 'I smell bad'

||tí·we c e qe|| : /tí·wacaqa/ 'I smelled bad'

Members of the unstressed type are represented by some stressed and some unstressed allomorphs, and may be further divided into two subtypes: {hipí} type and {hení·} type.

{hipí} type is characterized by final stressed ||í|| in an allomorph before {s} class marker and {e} singular suffix, and by unstressed allomorphs elsewhere, e.g.,

{hipí} 'eat' s-class

||hipí s e|| : /hipíse/ 'I eat'

||hip s é· qe|| : /hipsá·qa/ 'I ate'

||hip úʔ|| : /hipúʔ/ 'I will eat'

{hekí} 'see' c-class

||hekí c e|| : /hekíce/ 'I see'

||hek c é· qe|| : /hakcá·qa/ 'I saw'

||'e hek n úʔ|| : /ʔe·xnúʔ/ 'I will see it'

{hení·} type is characterized by final stressed vowel in an allomorph before {s} and {e}, {uʔ} indicative future suffix, or {uʔqe} conditional past suffix, and by unstressed allomorphs elsewhere, e.g.,

{hení·} 'make' s-class

||hení· s e|| : /hani·sa/ 'I make'

||heni s é· qe|| : /hanisá·qa/ 'I made'

||hení yuʔ|| : /haniyoʔ/ 'I will make'

The following shows the suffixal allomorphs determined by the two stem types and subtypes discussed above.

	after stressed stem	after unstressed stem	
		{hipf}	{hení·}
{e} singular (not before {+})	e	é·	é·
{i} plural	i	i·	i·
{uʔ} indicative future	yuʔ uʔ	úʔ	yuʔ uʔ
{eq} conditional present	eq	'é·q	'é·q
{uʔqe} conditional past	yuʔqe uʔqe	úʔqe	yuʔqe uʔqe
{te} frequentative present	te , te·	té·	té·
{qeqe} frequentative recent past with {i}	yeʔniqe eʔniqe	yeʔní·qe	yeʔní·qe
{qene} frequentative remote past with {i}	yenixne enixne	ení·xne	ení·xne

When certain prefixes occur with an unstressed stem, a stressed allomorph of the prefix occurs if the prefix can be represented by a stressed allomorph. In such cases the stem allomorph before {s} and {e} is without the final ||f||. Furthermore, an unstressed set of suffixal allomorphs occur, e.g.,

||weqe lpi s e|| : /waqalpisa/ 'I hug'
 ({weqi} 'in arms,' {inpi} 'seize')

||'ipné weqe lp t|| : /ʔipnó·qalpt/ 'to fold arms'

({'ipné·} third person singular reflexive prefix, {t} gerundial suffix; lit. 'to hug himself')

||pi· weqe lp s i k|| : /pi·waqalpsix/ 'we are

hugging each other' ({pi·} reciprocal prefix, {i} plural suffix, {k} indicative present)

The canonical alternation may be found stem-initially or stem-finally, the former is found in all types of stems while the latter is found only in {hipi} and {heni·} types.

The stem-initial alternation is as follows:

$C_1VC_2C_3$ after {+} and $C_1C_2VC_3$ elsewhere.

||ciklfi·k s e|| : /ciklfi·kse/ 'I return'

||hi ckiifi·k s e|| : /hickilí·kse/ 'he returns'

({hi} third person subject prefix)

||titwetfi· s e|| : /titwatí·sa/ 'I tell a story'

||hi ttiwetfi· s e|| : /hittiwatí·sa/ 'he tells a story'

The stem-final alternation is as follows:

$C_1C_2V(\cdot)$ before {s} and {e}, and C_1VC_2 before {t}.

||we 'inpi s e|| : /weʔnpise/ 'I am singing'

({we} 'with mouth,' {'inpi} 'seize')

||we 'ínip t|| : /weʔnípt/ 'to sing'
 ||tekip s e|| : /tekpise/ 'I dip out water'
 ||tekip t|| : /tekipt/ 'to dip out water'
 ||ɣeʔpí c e|| : /ɣeʔpice/ 'I crawl'
 ||ɣeʔép in|| : /ɣeʔépin/ 'crawling'

1-stems. There is a group of stems, which have ||1|| (or ||n||) - ∅ alternation stem-initially. In general, allomorphs without ||1|| (or ||n||) occur after stops and spirants, while those with ||1|| occur after vowels and semivowels. There are some exceptions. Semantically, members of this group indicate some locative-directional ideas.

Forms with 1	occurs after	Forms without 1	occurs after	meaning
léhse	V, m, w, q	éhse	t, k, q, s	up
léhne	V, y	éhne	k, q, s, y	down
léhyek	V	éhyek	k, s, n	upstream
lewi·k	V	ewi·k	t	downstream
leylé·k	w, y, V	eylé·k	k, k ^w , q, s, n	into
léht	V	éht	k, q, n	out

Examples:

||léhse|| ||hi. qûqléhse ye|| : /hiqqoláhsaya/ 'she galloped up' ({qûqú·} 'gallop,' {e} indicative indefinite past)

- ||éhse|| ||wís éhse s e|| : /wisáhsasa/ 'I am moving up'
({wís} 'move,' 'travel')
- ||léhne|| ||wîle léhne c e|| : /wileléhnece/ 'I am running
down' ({wîlé·} 'run')
- ||éhne|| ||wís éhne c i k|| : /wiséhnece/ 'we are moving
down'
- ||léhyek|| ||hi 'îpsqi léhyek s e|| : /hi?psqiléhyekse/
'he is walking upstream' ({hi} third person
subject prefix, {'îpsqi} 'walk')
- ||éhyek|| ||wís éhyek t|| : /wiséhyekt/ 'to go upstream'
- ||lewí·k|| ||hi wîse lewí·k e|| : /hiwselewí·ke/ 'she
moved downstream'
- ||ewí·k|| ||wet ewí·k s e|| : /watawí·ksa/ 'I wade downstream'
({wet} 'wade')
- ||leylé·k|| ||hi wɣsi léylek s e|| : /hiwɣsiléylekse/ 'he sits
in' ({wɣs} 'sit,' ||leylé·k|| alternates with
||léylek||)
- ||eylé·k|| ||hi tûk^w eylé·k s e|| : /hitkuylé·kse/ 'he dives
in' ({tûk^w} 'dive')
- ||léht|| ||'îye léht s e|| : /?iyeléhtse/ 'I am coming out
of water' ({'îye} 'afloat,' 'in swimming')
- ||éht|| ||'înek éht s e|| : /?inekéhtse/ 'I am taking out'
({'înek} 'carry')

Compound verb stems are of three types, (1) adverbial prefix + verb root, (2) verb root + verb root, (3) noun root + verb root.

The first type of compound stem is very common, the manner of action being expressed by the adverbial prefix, and the general direction or scene of action by the root. There are 139 adverbial prefixes.

Examples:

{wîlé·} 'run'

||wîlé· keʔy k s e|| : /wîlé·keʔykse/

'I am running' ({keʔéy} general locomotion, {k} suffix of uncertain meaning)

||wîlé· ʔuyim k s e|| : /wîlé·ʔuyimkse/

'I am running to the top' ({ʔuyim} 'to the top')

||wîlé· wewiti s e|| : /wîlé·wewitise/

'I am running downstream' ({wewi·ti} 'downstream')

||wîlé· welu· s e|| : /wîlé·welu·se/ 'I am running

down to the river' ({wé·lu·} 'down to the river')

||wîlé· yewne c e|| : /wîlé·yewnece/ 'I am running

over (e.g., hills, humps)' ({yéwne} 'over')

{'îpsqí} 'on foot'

||'îpsqí keʔy k s e|| : /ʔipsqíkeʔykse/

'I am walking'

{kîpí•} 'trace (e.g. footprints)'

||'e kîpí• keʔy k s e|| : /ʔekpí•keʔykse/

'I am tracing' ({'e} third person object prefix)

{qîsím} 'in anger'

||qîsím keʔy k s e|| : /qîsímkeʔykse/

'I am going away in anger'

{qûqû•} 'gallop'

||hi qûqû keʔy k s e|| : /hiqqûkeʔykse/

'he is galloping'

{sîwí} 'swim'

||sîwí keʔy k s e|| : /siwíkeʔykse/ 'I am

swimming'

{tú•ké} 'with a cane-like object'

||tú•ké keʔy k s e|| : /tú•kékeʔykse/

'I am limping with cane'

Examples of the second type of compound stem are:

{'înpí} 'seize, catch' + {ciklí•} 'turn'

||'înpí s e|| : /ʔinpíse/ 'I catch'

||ciklí• c e|| : /ciklí•ce/ 'I turn'

||'înp ciklî· tuq i m e|| : /ʔinpciklî·toqima/
 'I came back to get it' ({tuq} 'back,'
 {i} plural suffix, {m} motion toward the
 speaker or to the second person, {e}
 indicative indefinite past)

{'êwi·} 'shoot' + {tîwi·k} 'follow'

||'êwi· s e|| : /ʔewî·se/ 'I shoot'

||tîwi·k c e|| : /tiwi·kce/ 'I follow'

||'e 'êwiye tîwik c e|| : /ʔeʔwiyetwikce/

'I shoot as I chase it' ({'e} third person
 object prefix)

A bound root morpheme may occur as the second member of
 a compound stem. {temé·w} 'be in excess,' which does
 not occur after {+}, but occurs immediately before
 suffixes, is an example.

{'cí·q} 'speak' + {temé·w} 'be in excess'

||'cí·q c e|| : /'cí·qce/ 'I talk'

||'cíq temé·w n|| : /'cíqtamá·wn/ 'I talked
 too much' (||n||, an allomorph of {s}
 class marker)

The third type of compound stems, which show
 a kind of noun incorporation, appears to be rare and
 often occurs with nominalizing suffixes.

Examples of noun root + verb root:

{qilflu•} 'raw hide' + {wéwye} 'beat'

||qilflu•|| : /qilflu•/ 'raw hide'

||wéwye c e|| : /wáwyaca/ 'I beat'

||qillú• wéwye c e|| : /qilló•wawyaca/ 'I sing
a departing song for warriors' (literally
'I beat raw hide')

{wélc} 'knife' + {'íte} 'put in'

||wélc|| : /wálc/ 'knife'

||'íte s e|| : /ʔitése/ 'I put in'

||welc 'íte tes|| : /walčítaťas/ 'scabbard'

(||tes||, an allomorph of {eʔs} 'an object
for ...ing')

{'é•tim} 'arm' + {kí•w} 'cut'

||'é•tim|| : /ʔá•tim/ 'arm'

||'e•tim kí•w niʔn|| : /ʔa•timkí•wniʔn/

'General O. O. Howard' (literally 'arm-cut')
(||niʔn||, an allomorph of {iʔn} 'one that is
... ed')

The following may be considered an example of a verb
stem consisting of a noun root and a bound verb root.

{tiwé•t} 'shaman' + {tim} 'speak'

||tiwé•t|| : /tiwé•t/ 'shaman'

||tiwetí• tim t|| : /tiwetí•timt/ 'dreamer

religion' (literally 'shaman-speaking')

610.2 Copulative verb stems (cvS).

The single member of this class is {wé·} 'be,'
'possess,' e.g.,

/hiwé·ke so·yá·po·/ 'he was a white man'

({hi} third person subject prefix; ||wé·k||, an
allomorph of {wé·}; ||e|| an allomorph of {ne}
indicative remote past; {su·yé·} 'the white')

/ʔewé·ke ʔiwé·pne/ 'he had a wife'

({'e} third person object prefix; {'iwé·p},
'wife'; {ne} object case suffix 532.).

A copulative verb stem is always monomorphemic.

620. Verb themes (vT).

Each of the above stem classes is defined by its occurrence in special thematic constructions. These constructions include classes of verb affixes which are shown below. The thematic affixes occur only with general verb stems.

621. Thematic affix classes.

All the suffixes have at least two morphologically conditioned groups of allomorphs: an s-group and a c-group. The verb stems and thematic suffixes may be labeled as to which group of allomorphs they occur with, the s-class or the c-class.

Prefixes:	class	subclass	number of members
	< pi· >	pi· (reciprocal)	1
		'iné· (reflexive)	5
	< wi >	(distributive)	1
	< sepé· >	(causative)	2
Suffixes:	< <u>e</u> tk >	(aspectual)	21

Examples of thematic prefixes:

< pi· >

The two subclasses of this class are reciprocal and reflexive prefixes.

The single member of the first subclass is {pi·} (reciprocal): ||pi·|| ~ ||pi·|| ~ ||pi||, e.g.,

||pi·||:

{pi· te?nwé· s i k} : /pi·te?nwesix/ 'we are talking to each other' ({te?nwé·} 'talk')

||pi·||:

{pi· te yú·xu? s i k} : /pi·tayó·xo?six/ 'we are warning each other' ({té·} 'by speech' adverbial prefix, {yú·xu?} 'caution,' 'wait')

||pi||:

{pi· titwetí· u?} : /pittiwatíyó?/ 'we'll tell story to each other' ({titwetí·} 'tell story,' {u?} future indicative).

{pi·} occurring with a plural suffix as in examples above indicates that the actor is animate, and elsewhere that a natural phenomenon is involved, e.g.,

/pi·wewkunise/ 'they meet' (of rivers, mountains)

/pi·wewkunisix/ 'they meet' (of people)

/pi·wyu·yce/ 'they separate' (of trails)

/pi·wyu·ycix/ 'they separate' (of people)

The five members of the second subclass are:

{'iné·}, first person singular reflexive: ||'iné·|| ~ ||'iné||
~ ||'ilé·||.

||'iné·||:

{'iné· sepelú·k s e} : /ʔiné·sepelu·kse/

'I hide myself' ({sepelú·k} 'hide')

||'iné||:

{'iné· wepe lí·k s e} : /ʔinú·pelikce/ 'I dress'

({wepe} 'dress'; {lí·k} 'be,' 'go')

||'ilé·||:

{'iné· té· 'îlé·twi s e} : /ʔilá·taʔlatwisa/

'I am tired from speaking' ({té·} 'by speech';

{'îlé·twi} 'tire')

{'imé·}, second person singular reflexive: ||'imé·|| ~ ||'imé||.

||'imé·||:

{'imé· sepelú·k s e} : /ʔimé·sepelu·se/

'you hide yourself'

||'imé||:

{'imé· wepe lí·k s e} : /ʔimú·pelikce/ 'you dress'

{'ipné·}, third person singular reflexive: ||'ipné·|| ~ ||'ipné||
~ ||'ipne||.

||'ipné·||:

{'ipné· sepelú·k s e} : /ʔipné·sepelu·kse/

'he hides himself'

||'ipné||:

{'ipné· wepe lí·k s e} : /ʔipnú·pelikce/

'he dresses'

||'ipne||:

{'ipné· wílé· keʔéy k eʔi} : /ʔipnewilekeʔykeʔi/

'car' ({wílé} 'move quickly'; {keʔéy} 'move';

{k} suffix of uncertain meaning; {eʔi} agentive

suffix; literally 'self-fast-move-er')

{nemé·}, first person plural reflexive: ||nemé·|| ~ ||nemé||.

||nemé·||:

{nemé· sepelú·k s i k} : /nemé·sepelu·ksix/

'we hide ourselves'

||nemé||:

{nemé· wepe lí·k s i k} : /nemé·pelikcix/

'we dress'

{'imemé·}, second and third person plural reflexive:

||'imemé·|| ~ ||'imemé||.

||'imemé·||:

{'imemé· sepelú·k s i k} : /ʔimemé·sepelu·ksix/

'you hide yourselves,' 'they hide themselves'

||'imemé||:

{'imemé· wepe lí·k s i k} : /ʔimemé·pelikcix/

'you (pl.) dress,' 'they dress'

< wi > The single member of this class is {wi}
 (distributive): ||wi·|| ~ ||wf|| ~ ||wi||.

· ||wi·||:

{wi cilú· s e} : /wí·cilu·se/ 'I cook them
 separately' ({cilú·} 'cook')

||wf||:

{'e wí· heki i k} : /ʔewihekitx/ 'look each
 one over!' ({heki} 'see'; {i} plural suffix;
 {k} imperative)

||wi||:

{'e né·s wí· weʔniki s} : /ʔené·swiweʔniks/
 'I named them one by one' ({né·s} plural
 object prefix; {weʔniki} 'name')

< sepé· > The two members of this class are {sepé·}
 (singular causative), and {sé·p} (plural
 causative).

{sepé·}: ||sepé·|| ~ ||sepe|| ~ ||cepé·|| ~ ||cepe||.

||sepé·||:

{sepé· čéʔk s e} : /sapá·čaʔksa/ 'I cause it
 to hang'

||sepe||:

{pí· sepé· twe s i k} : /pí·sepetwecix/
 'we are mixing it' ({twe} 'be together')

||cepé·||:

{cepé· p_éy k s e} : /capá·p_áyksa/ 'I wring it
dry' ({p_éy} 'drain,' 'become dry')

||cepe||:

{'e cepé· x_é?p s e} : /?ecepex_é?pse/ 'I put
it underneath' ({x_é?p} 'go under')

{sé·p}: ||sé·p|| ~ ||sep|| ~ ||cé·p|| ~ ||cep||.

||sé·p||:

{sé·p c_é?k s e} : /sá·p_á?ksa/ 'I cause them
to hang'

||sep||:

{sé·p tequ·yí·k s e} : /septequ·yí·kce/
'I cause them to be known' ({tequ·yí·k}
'be known')

||cé·p||:

{'ipné· wís sé·p cú?_umk s e} : /?ipnawscá·pco?_omksa/
'he gathers them up' ({cú?_umk} 'rake')

||cep||:

{sé·p tek_léy k s e} : /captak_láyksa/ 'I
exchange them by mistake' ({tek_léy} 'trade')

The thematic suffixes, represented by both s- and c-
group allomorphs, are themselves either of the s- or the c-
class. For example, {etk} 'as an object goes by' is represented
by ||etk|| after an s-class verb stem and by ||netk|| after a
c-class verb stem. {etk} is of the s-class.

Examples of thematic suffixes:

< etk > This class has 21 members, generally aspectual in meaning. The allomorphs and class affiliations of these thematic suffixes are:

	meaning	after an s- class stem	after a c- class stem	class
1. { <u>e</u> tk}	as the object passes by	<u>e</u> tk	'] <u>ne</u> tk -] <u>ne</u> ·tk	s
2. {ce}	remote	--	ce	c

{etk} 'as an object goes by'

||etk||:

{hi temé· sitk etk u?} : /hitamá·sitkatko?/
 'he will lasso as you go by' ({temé·}
 'throw'; {sitk} 'encircle'; {u?} future)

||né·tk||:

{hi weh etk s i k} : /hiwahná·tksix/
 'they barked as we went by' ({weh} 'bark')

||netk||:

{'é·ýs etk s e} : /ʔá·ýsnatksa/ 'I am happy
 to see it pass' ({'é·ýs} 'be happy')

{ce} 'remote'

{pe· nim tiwí·k ce u?} : /pé·mtiwikcenu?/
 'they will see them leave (from a place
 away from here)' ({pe·} 'he/they ... him/them';
 {nim} 'see'; {tiwí·k} 'follow') cf.
 /pé·mtiwixnu?/ 'they will see them leave
 (from here)'

{é·ce} 'on,' 'upon'

||é·ce||:

{wixs lí·k é·ce s e} : /wixsliké·cese/
 'I am sitting on something' ({wixs} 'sit';
 {lí·k} 'do,' 'assume a position') cf.

/wiɣslf·kse/ 'I am sitting'

||ece||:

{teʔépe lf·k é·ce s e} : /teʔépelikecese/

'I put something down upon something'

({teʔépe} 'lie') cf. /teʔépelikse/

'I put something down'

{ení·k} 'trail behind'

{hipí ení·k s e} : /hipení·kse/ 'I eat after

others' ({hipí} 'eat') cf. /hipise/ 'I eat'

{e'yik} 'move in order to ...,' 'move around'; repetitive

||yik||:

{hi we· letpé· e'yik s e} : /hiwe·letpé·yikse/

'he is bumping around' ({hi} 'he/she/it';

{we·} 'swiftly'; {letpé·} 'run into things')

cf. /hiwe·letpé·se/ 'he runs into things'

||yé·yik||:

{'e mǐcí· e'yik s e} : /ʔamciyá·yiksa/ 'I came

to hear'it' ({'e} 'him/her/it'; {mǐcí·} 'hear')

cf. /ʔamcí·sa/ 'I hear it'

||é·yik||:

{'înpí e'yik s e} : /ʔinpe·yikse/ 'I go to take

something' ({'înpí} 'seize') cf. /ʔinpiise/

'I take something'

||eʔyik||:

{'é·c eʔyik:s e} : /ʔá·caʔyiksa/ 'I go in
from another,' 'I go out and in' ({'é·c}
'go in') cf. /ʔá·csa/ 'I go in'

||né·yik||:

{'e hekí eʔyik s e} : /ʔe·xné·yikse/ 'I go
around looking' ({hekí} 'see') cf.
/ʔe·kice/ 'I see it'

||neʔyik||:

{xí·ćem eʔyik s e} : /xí·ćemneʔyikse/ 'I go
being angry' ({xí·ćem} 'be angry') cf.
/xí·ćemce/ 'I am angry'

{é·y} (benefactive, affective) indicates an action beyond the expected sphere of the subject, and means '(do something) for the benefit of (someone),' 'dare (to do something),' '(do something) damaging to (someone).'

||ʔy||:

{'e títú·le é·y s e} : /ʔattó·laʔysa/ 'I forget
his' ({títú·le} 'forget') cf. /ʔattó·lasa/
'I forget it'

||yé·y||:

{he·ní é·y s e} : /haniyá·ysa/ 'I make it for
someone' ({he·ní} 'make') cf. /ha·nisa/
'I make it'

||é·y||:

{'înpí é·y s e} : /ʔinpe·yse/ 'I buy (from someone)' ({'înpí} 'seize') cf. /ʔinpiŋse/ 'I take'

||ey||:

{'e 'é·lik é·y s e} : /ʔaʔálikaysa/ 'I make fire for him' ({'é·lik} 'kindle fire') cf. /ʔaʔáliksa/ 'I make fire'

||neʔy||:

{hité·me é·y s e} : /hité·meneʔyse/ 'I am reading for someone' ({hité·me} 'read') cf. /hité·mece/ 'I am reading'

||ʔny||:

{títú·le é·y e} : /titó·laʔnya/ 'I forgot his' ({e} indicative indefinite past) cf. /titó·laya/ 'I forgot'

||eʔny||:

{pe· 'îniki é·y e} : /pe·ʔnikeʔnye/ 'he put (someone else's)' ({'îniki} 'place,' 'put') cf. /ʔinikise/ 'I put'

{i·k} indicates that the action is about to begin.

||i·k||:

{pinim i·k s e} : /pinmi·kse/ 'I am going to sleep' ({pinim} 'sleep') cf. /pinimse/ 'I am asleep'

||nik||:

{téʔwe i·k s e} : /téʔwyenikse/ 'I am
settling down to live' ({téʔwe} 'live')
cf. /téʔwece/ 'I am living'

{k} of uncertain meaning occurs after a stem when one of the following adverbial prefixes is found as one of the stem-constituents: {'île}, {'înek}, {'îpé·} 'with fist,' {'îpé·} 'due to smoke,' {'îpsqí}, {cú·ye}, {ké·}, {múx}, {nîké·}, {qûqú·}, {sîlé·w}, {sîwi}, {té·}, {té·1}, {têx}, {tiʔwele}, {tiyé·}, {tûk^wele}, {tûk^wé·p}, {tulé·}, {we}, {weʔlé·}, {we·le}, {we·p}, {wepé·}, {weqí}, {wé·w}, {wêyé·}, {wîlé·}, {wîs}, {wîti·}, {wú·1}, e.g.,

{hi 'île tehém k s e} : /hiʔletéhemkse/ 'it
is dark from smoke' ({'île} 'in the fire';
{tehém} 'be dark') cf. /hitehémce/
'it is dark'

{'înek péy k s e} : /ʔináhpayksa/ 'I am bringing
it' ({'înek} 'carry'; {péy} 'come') cf.
/páyca/ 'I am coming'

{sîlé·w xí·cém k s e} : /siléwxí·cémkse/
'I am angry to see it' ({sîlé·w} 'see';
{xí·cém} 'be angry') cf. /xí·cémce/ 'I am angry'

{kik} indicates remoteness of the starting point of an action, or contituity of an action (usually away from the speaker).

||kik||:

{hi kú· kik e} : /hikú·kike/ 'he went from a point away from here' ({kú·} 'go')
cf. /hikúye/ 'he went from here'

||nikik||:

{'e tîwî·k kik e} : /ʔetwîxnikike/ 'I followed it on' ({tîwî·k} 'follow')
cf. /ʔetwî·xne/ 'I followed it'

{né·pi·k} indicates that the action is prevented by something. The absence of allomorphs after an s-class stem in the present corpus may be fortuitous.

{wîlé· lî·k né·pi·k s e} : /wilalixná·pi·ksa/
'I am running away hindered' ({wîlé·}
'run'; {lî·k} 'go') cf. /wilalî·kca/
'I am running away'

{qew} indicates an action performed without interruptions.

||qew||:

{hi 'îse súʔp qew s e} : /hiʔcasóʔpqawca/
'he cuts it with a knife in a hurry'
({ 'îse} 'with knife'; {súʔp} 'cut') cf.

/hiʔcesúʔpse/ 'he cuts'

||qé·w||:

{'înpí qew s e} : /ʔinpqá·wca/ 'I grab as
I go' ({'înpí} 'seize') cf. /ʔinpiŋse/
'I grab'

||neqew||:

{leʔém qew s e} : /laʔámnaqawca/ 'I empty it
right through' ({leʔém} 'exhaust') cf.
/laʔámca/ 'I finish it'

||neqé·w||:

{'e hekí qew s} : /ʔa·xnaqá·wn/ 'I see it
as I go by' ({hekí} 'see') /hekice/ 'I see it'

{suʔ} indicates that an action is performed in competition
with someone else, e.g.,

{'e wís tuk léhse suʔ s e} : /ʔawstokahsóʔsa/
'I shoot up against (someone)' {wís} 'travel';
{tuk} 'shoot'; {léhse} 'up') cf. /wistokáhsasa/
'I shoot upward'

{té·} indicates that one moves to another location for
an action.

||te||:

{'ípé·té té· s e} : /ʔipé·tetese/ 'I go to
scrape' ({'ípé·té} 'scrape') cf. /ʔipé·tése/

✓

'I scrape'

||té·||:

{'înpí té· s e} : /ʔinpté·se/ 'I go to take'

({'înpí} 'seize') cf. /ʔinpi·se/ 'I take'

{teťé·} indicates an action which is to take place in the immediate future, or the intention of the subject to perform an action.

||teťe||:

{pi· 'emk teťé· s i k} : /piʔamktaťasi·x/

'we are going to be gathered' ({pi·}

reciprocal prefix; {'emk} 'gather') cf.

/piʔamkcix/ 'we are gathered'

||teťé·||:

{tiʔki teťé· s e} : /tiʔnkiteťé·se/

'I may die any minute' ({tiʔnki} 'die')

cf. /tiʔnkice/ 'I die'

{tneq̄i} indicates that an action is completed.

||tneq̄i||:

{wís léhse tneq̄i e} : /wisáhsatnaq̄iya/

'I finished traveling up' ({wís} 'move';

{léhse} 'up') cf. /wisáhsaya/ 'I traveled up'

||neqi||:

{pi· we·p ciʔyew tneqi e} : /pi·wapciʔyawnaqiya/
 'they are through with fighting' ({we·p}
 'with hand or paw'; {ciʔyew} 'kill') cf.
 /pi·wapciʔyawna/ 'they were fighting'

{tuq} indicates a movement back toward the original point of reference.

||tuq||:

{wé·yik tuq s e} : /wá·yiktoqsa/ 'I am crossing
 back' ({wé·yik} 'go across') cf. /wé·yikse/
 'I am crossing over'
 {ciklí· tuq s e} : /ciklí·toqsa/ 'I am turning
 back' ({ciklí·} 'turn') cf. /ciklí·ce/
 'I am turning around'

{twe} indicates that an action takes place in association with another person.

{hi tú·qi twe s e} : /hitú·qitwece/ 'he smokes
 with someone' ({tú·qi} 'smoke (pipe)') cf.
 /hitú·qise/ 'he smokes'

{tuyu} indicates negation.

{hi cí·q tuyu s e} : /hicí·qtuyuse/ 'he is not
 speaking' ({cí·q} 'speak') cf. /hicí·qce/
 'he speaks'

b

{ú•} indicates that an action is directed toward an object or goal.

||ú•||:

{'înikí ú• s e} : /ʔinikú•se/ 'I put something for ...' ({'înikí} 'put') cf. /ʔinikise/ 'I put something'

||nú•||:

{hi péy ú• s e} : /hipaynó•sa/ 'he comes to see someone' ({péy} 'come') cf. /hipá•yca/ 'he comes'

{ú•kini} 'indicates that an action takes place as an object approaches the subject.

||ú•kini||:

{'e 'înpí ú•kini s e} : /ʔeñpú•kinise/ 'I take it as it comes' ({'înpí} 'seize') cf. /ʔeñpise/ 'I take it'

||nú•kini||:

{pe• we•p ciʔyew ú•kini s e} : /po•pciʔyawno•kinisa/ 'he kills him as he comes' cf. /pó•pciʔyawca/ 'he kills him'

{wi} indicates that an action is completed and the subject is returning to the point of origin.

{'imi wi s e} : /ʔimíwise/ 'I am returning
 from digging roots' ({'imi} 'camp to dig
 roots') cf. /ʔimícix/ 'we are camping for
 digging roots'

{wi} may occur after {té·}, e.g.,

{'e heki té· wi s e} : /ʔe·kté·wise/ 'I am
 returning after going to see it' ({heki}
 'see') cf. /ʔe·kté·se/ 'I go to see it';
 /ʔe·kice/ 'I see it'

622. Construction of verb themes.

The varying internal structures of the verb theme (vT) are described in the following sections. The elements surrounding the stem class markers are references to the preceding chart of affixes.

622.1 General verb theme (gvT). The two types of general verb themes are: (1) those with general verb stem (gvS) as a constituent, and (2) those with substantive stems (sS) as a constituent.

gvT:	pi·	wi	sepé·	gvS	etk
1.		x	x	x	
2.	x	x		x	
3.	x			x	x

Examples:

1. {wi sepé· xé?p} in /ʔene·swicepexé?psene/
 'I put them underneath separately' ({'e} third person object prefix; {ne·s} plural object prefix; {xé?p} 'go under'; {s} class marker; {e} singular subject prefix; {ne} indicative remote past)
2. {'imemé· wi tekley} in /ʔimama·witkaláyna/
 'they changed clothes' ({tekley} 'exchange')
3. {pi· cí·q ú·} in /picixnú·six/ 'we are arguing over it' ({cí·q} 'talk')

In addition to the preceding is the second type of general verb themes which is denominative. The following class of special suffixes enter into such verb theme construction:

< hí· >. The five members of this class are:

{hí·} 'put on,' 'go up to (?)': ||hí·|| ~ ||hi||, e.g.,

||hí·||:

{túhun hí· s e} : /tohoní·sa/ 'I put on trousers' ({túhun} 'trousers')

||hi||:

{kepú· hí· s e} : /kapó·hisa/ 'I put on coat' ({kepú·} 'coat')

{'înek tú·yem hí· s e} : /ʔinaxtoyá·misa/ 'I carry it to the top' ({tú·yem} 'summit')

{né·nek} 'become'

{léwtiwe· né·nek s e} : /lawtiwa·ná·naksa/ 'I become a friend' ({léwtiwe·} 'friend')

{yé·k} 'go to get'

{cé·qet yé·k s e} : /ceqetyé·kse/ 'I go to get blackberries' ({cé·qet} 'blackberry')

{é·w} 'become characterized by'

{t_ésq é·w s} : /tasqá·ws/ 'I became fat'

({t_ésq} 'grease,' 'fat')

{wi} 'act as,' 'do': ||wi·|| ~ ||wi||, e.g.,

||wi·||:

{'iyéq'is wi s e} : /ʔiyéq'iswi·se/ 'I fight'

({'iyéq'is} 'hot')

||wi||:

{qepsiʔs wi s e} : /qepsiʔiswise/ 'I do evil'

'I sin' ({qepsiʔs} 'bad')

The general verb themes with substantive stem as a constituent may be summarized as follows:

gvT: nS/aS < hí· >.

All five members of < hí· > class occur with general noun stems (nS), and {wi} may also occur with adjective stems (aS).

622.2 Copulative verb theme (cvT). Copulative themes are always coterminous with copulative verb stems (cvS):

cvT: cvS.

Example:

{wé·} in /hiwé·ke/ 'he was' ({hi} third person

subject prefix; ||e||, an allomorph of {ne}

indicative remote past 638.5)

630. Verb inflection.

The following four classes of prefixes and four classes of suffixes occur as inflectional elements in constituency with verb themes:

Prefixes:

class	number of members
< hi > (subject/object prefixes)	2
< pe• > (subject and object prefix)	1
< pe > (plural subject prefix)	1
< ne•s > (plural object prefix)	1

Suffixes:

< s > (class marker suffix)	1
< e > (number suffixes)	2
< m > (locative suffixes)	2
< k > (tense-modal suffixes)	14

631. < hi > class.

The two members of this class are {hi} and {'e}.

{hi} (third person subject prefix) : ||hí·|| before {wé·} 'be' followed by {s} and {+}; ||hi|| elsewhere, e.g.,

||hí·||:

{hi wé· s} : /hí·wes/ 'he is'

||hi|| :

{hi titwetí· s e} : /hittiwatí·sa/ 'he tells a story' ({titwetí·} 'tell a story')

{hi 'eíwí s e} : /heʔeíwice/ 'he spends winter' ({'eíwí} 'spend winter')

{'e} (third person object prefix) indicates that the object is in the third person, or more specifically, that the object is either not closely related to the speaker or not in possession of the speaker. When an independent substantive is in the sentence as a referent, the object is marked by {ne} (532). {'e}: ||'ew|| before ||'V|| or ||hV||; ||'e|| elsewhere.

||'ew||:

{'e 'íní· s e} : /ʔeʔní·se/ 'I am giving it' ({'íní·} 'give')

{'e hí s e} : /ʔewice/ 'I speak to him' ({hí} 'speak')

||'e||:

{'e wepe lí·k s e} : /ʔu·peli·kce/ 'I dress
up someone not closely related to me'
({wepe} 'dress'; {lí·k} 'be,' 'go,' 'assume
a position') cf. /wepeli·kce/ 'I dress up
(someone close to me, e.g., wife, child, horse)'

Exceptionally, ||'e|| occurs before {'êwi·} 'shoot (arrow)'
and before {heki} 'see.'

{'e 'êwi· s e} : /ʔeʔwi·se/ 'I shoot at it'

{'e heki s e} : /ʔe·kice/ 'I see it'

632. < pe· > class.

The single member of this class is {pe·} indicating that
the subject and the object are in non-identical third person.

{pe·}: ||pé·||, ||pe·|| or ||pe||.

||pé·||:

{pe· wéwluq s e} : /pé·wewluqse/ 'he wants it'
({wéwluq} 'want') cf. /ʔewéwluqse/ 'I want it'

||pe·||:

{pe· titwetí· uʔ} : /pa·ttiwatiyoʔ/ 'he will
tell him a story' cf. /ʔattiwatiyoʔ/ 'I will
tell him a story'

||pe||:

{pe· 'înpí s e} : /peʔénpse/ 'he seizes him'
({'înpí} 'seize')

633. < pe > class.

The single member of this class is {pe} indicating the plurality of the subject. {pe}: ||pe|| ~ ||pé·|| ~ ||pé||.

||pe||:

{pe titwetí· u?} : /pattiwatíyo?/ 'we will tell a story' cf. /pa·ttiwatíyo?/ 'he will tell him a story'

||pé·||:

{hi pe kú· s} : /hipé·kus/ 'they just left' ({kú·} 'go')

||pé||:

{'e pe we·p ci?yew k ki} : /ʔapó·pci?yawunki/ 'we killed him' ({we·p} 'with hand or paw'; {ci?yew} 'kill'; {k} indicative present; {ki} 'away from the speaker')

634. < ne·s > class.

The single member of this class is {ne·s} indicating the plurality of the object. {ne·s}: ||né·c|| ~ ||nec||

before ||' ||; ||né·s|| ~ ||nes|| elsewhere.

||né·c||:

{'e ne·s 'înpí s e} : /ʔené·cînpse/ 'I seize them'

||nec||:

{'e ne·s 'ecú? s e} : /ʔanaćacó?sa/ 'I go into them' ({'ecú?} 'go in') cf. /ʔacó?sa/ 'I go in'

||né·s||:

{'e ne·s mîcí· s e} : /ʔaná·smiçisa/ 'I hear
them' ({mîcí·} 'hear')

||nes||:

{hi ne·s titwetí· uʔ} : /hinastitwatiyoʔ/
'he will tell us a story'

{'e ne·s titwetí· uʔ} : /ʔanastitwatiyoʔ/
'I will tell them a story'

635. < s > class..

The single member of this class is {s} (class marker).
 {s} does not occur with the following tense-modal suffixes:
 frequentative present, imperative (without locative suffixes).
 {s} has the following allomorphs:

Environments	after s-class verb theme	after c-class verb theme
before I	s	c
before II	s	C] in , -] n
before III	t	n
before IV	∅	n
before V	∅	C] ne , -] n
before VI	∅	C] ni , -] n

Environments (Arabic numerals refer to the tense-modal
 suffixes in 638.):

I: tense-modals 1, 4, 5, 8

II: tense-modal 2 (without locative suffixes)

III: tense-modal 7

IV: tense-modals 2 (with locative 1), 3 (without
 locatives, or with locative 1), 6, 9, 11, 12

(with plural), 13 (with plural), 14 (with locative 1)

V: tense-modals 12 (with singular), 13 (with singular)

VI: tense-modals 2 (locative 2), 3 (with locative 2)

Examples:

||s|| (before I):

{hipí s e} : /hipise/ 'I eat' ({hipí} 'eat')

||c|| (before I):

{heki s e} : /hekice/ 'I see' ({heki} 'see')

||s|| (before II):

{hi pe· kú· s} : /hipé·kus/ 'they just left'
({kú·} 'go')

||in|| (before II):

{wú·y s} : /wú·yin/ 'I just escaped' ({wú·y}
'run away')

||n|| (before II):

{hi hí s} : /hihín/ 'he just said' ({hí} 'say')

||t|| (before III):

{'e 'ípté· s eq} : /ʔaʔptá·taʔ/ 'I could hit him'
({'ípté·} 'hit')

||n|| (before III):

{'e tíwí·k s eq} : /ʔatwí·xnaʔ/ 'I would have
gone with him' ({tíwí·k} 'accompany, follow')

||n|| (before IV):

{hi pe p_éy s m} : /hipapáynim/ 'they have come'
({p_éy} 'arrive')

||ne|| (before V):

{'e heki s qe_qe} : /ʔá·xnaqaqa/ 'many times you
may have seen it' ({qe_qe} frequentative past)

||n|| (before V):

{'îpsqí lé· s qeqe} : /ʔipsqilá·nqaqa/
 'I walked around' ({'îpsqí} 'on foot';
 {lé·} 'move,' 'move around')

||ni|| (before VI):

{pe ciklí· s ki} : /peckilí·niki/ 'we went on
 home' ({pe} plural subject prefix; {ciklí·}
 'return'; {ki} 'away from the speaker')

||n|| (before .VI):

{'e pe we·p ciʔyew s ki} : /ʔapó·pciʔyawunki/
 'we killed it' ({'e} third person object
 prefix; {we·p} 'with hand or paw'; {ciʔyew}
 'kill')

636. < e > class.

The two members of this class are {e} and {i}.

{e} (singular) does not occur with tense-modal suffixes
 2, 3, 6, 7, or 9, and shows the following allomorphy:

with tense-modal 1 (without locatives)||e||

with tense-modal 1 (with locatives), 4, or 5

and after a stressed stem||e||

with tense-modal 1 (with locatives), 4, or 5

and after an unstressed stem||é·||

with tense-modal 10||tu||

with tense-modals 11, 12, 13, 14 ∅.

Examples:

||e||:

{hipí s e} : /hipise/ 'I eat'

{tîwî·k s e m} : /tiwî·kcem/ 'you are following
me' ({tîwî·k} 'follow,' 'accompany')

||é·||:

{'e hipí s e ne} : /ʔe·psé·ne/ 'I had eaten it'

||tu||:

{'é·t te tu} : /ʔá·ttato/ 'I go in and out'
({'é·t} 'go out'; {te} frequentative present)

{i} (plural) does not occur with tense-modal suffixes

2, 3, 6, 7, or 9, and shows the following allomorphy:

with tense-modals 1, 4, 5, 8 and after a

stressed stem ||i||

with tense-modals 1, 4, 5, 8 and after

an unstressed stem ||f·||

with 10 ||ʔnik||

with 14 (without locatives) after a vowel,

or with 14 (with locatives) ||tk||

with 14 (without locatives) after a consonant... ||itk||

with 11, 12, or 13 ∅

Examples:

||i||:

{hi té·ʔwye s i k} : /hité·ʔwyecix/ 'they
dwell' ({té·ʔwye} 'dwell')

||f·||:

{hipí s i k} : /hipsí·x/ 'we eat' ({hipí} 'eat')

||ʔnik||:

{'e heki e·yik te i} : /ʔe·xné·yikte·nix/
'we go to see him many times' ({heki} 'see';
{e·yik} 'move in order to ...' 620; {te}
frequentative present)

||tk||:

{wepté· i} : /wepté·tx/ 'put feather on!'
(to pl.) (e.g., on arrows) ({wepté·}
'put feather on')

||itk||:

{'é·c i} : /ʔá·citx/ 'go in!' (to pl.)
({'é·c} 'go in')

637. < m > class.

The two members of this class are {m} and {ki}.
{m} (locative 1) indicates an action toward the speaker
(with second or third person subject), or an action
toward the second person (with first person subject).

The allomorphs are:

with tense-modals 1, 3(after a vowel-final s-class theme), 4 (with singular), 10 (with singular), 14 (after a vowel-final s-class theme) ||m||
 with tense-modal 4 (with plural) ||nm||
 with tense-modal 6 ||kum||
 with tense-modals 2 (after a consonant-final s-class theme, or after a c-class theme), 3 (after a consonant-final s-class theme, or after a c-class theme), 14 (after a consonant-final s-class or after a c-class theme) ||im||.

Examples:

||m||:

{tîwî·k s e m} : /tiwî·kcem/ 'you are following me' ({tîwî·k} 'accompany,' 'follow')

||nm||:

{'e wîyé· hekí s i m qe} : /ʔawyá·kcinmqa/
 'we were looking at it as we came' ({wîyé·} 'as one moves'; {hekí} 'see'; {qe} indicative recent past)

||kum||:

{hi 'é̂t u? m} : /haʔátoʔkom/ 'he will come out' ({u?} indicative future; {'é̂t} 'move out')

||im||:

{hi pe pé·y s m e} : /hipapá·ynima/ 'they
arrived here' ({pé·y} 'arrive')

{ki} (locative 2) indicates a motion away from the
speaker. The allomorphs are:

with tense-modal 1 or 2||ki||
with tense-modal 3||kik||
with tense-modal 4||nqe||
with tense-modal 5||nqiq||.

Examples:

||ki||:

{pe wé·yik ki} : /pewé·yixki/ 'we crossed
over (to the other side)' ({wé·yik} 'cross')

||kik||:

{hi ciklí· tuq kik e} : /hickilí·toxkika/
'he went on back' ({ciklí·} 'turn'; {tuq}
'back'; {e} indicative indefinite past)

||nqe||:

{'e heki s e ki qe} : /ʔa·kca·nqaqa/ 'I have
been to see him' ({qe} indicative recent past)

||nqiq||:

{'e heki s i ki e} : /ʔa·kci·nqiqa/ 'we have
been to see him (long ago)' ({e} indicative
indefinite past)

638. < k > class.

This class has 14 members generally indicating tense and modes.

638.1 {k} (indicative present) covers actual events of the present:

after {i} (plural) and with a locative (637)..||n||
 elsewhere after {i} (plural).....||k||
 elsewhere ∅

Examples:

||n||:

{hi té·ʔmik s i k m} : /hité·ʔmiksinn/
 'they came down' ({té·ʔmik} 'go down')

||k||:

{hi té·ʔmik s i k} : /hité·ʔmiksik/
 'they move down'

||∅||:

{hi té·ʔmik s e} : /hité·ʔmikse/ 'he moves
 down'

638.2 {indicative perfect} (to be abbreviated as {IP}) is morphophonemically zero.

{wú·y s IP} : /wú·yin/ 'I just escaped'

{IP} is used to describe an action just completed, or to constitute a hortatory construction with {ke},

/kex ʔehékin/ 'let me see'

638.3 {e} (indicative indefinite past) is used to describe an action that was completed at any time in the past. {e}: ||ye|| after a vowel; ||e|| elsewhere.

||ye||:

{titwetí· e} : /titwatiya/ 'I told a story'

||e||:

{pe· hipí e} : /pehipe/ 'he ate it'

({hipí} 'eat')

638.4 {qe} (indicative recent past) is used to (1) describe an action that was completed earlier on the same day or up to a few days prior to the time of speech, or to (2) describe an incomplete action.

{titwetí· s e qe} : /titwatisá·qa/

'I told a story (this morning, yesterday, a few days ago)'

{'îní s e qe} : /'înisá·qa/ 'I was giving it to

you (but you did not take it)' ({'îní} 'give')

638.5 {ne} (indicative remote past) is used to describe an action completed in a time that precedes the area covered by {qe} 638.4, especially to tell myths.

{têqe pey s i ne} : /taqapáycina/ 'we dropped

in (last year)' ({têqe} 'briefly'; {pey} 'come')

638.6 {uʔ} (indicative future) is used to describe an action in future time, and future conditions, e.g.,

/ʔalawí hiwekúʔ táʔc lé·heyn wati·sx, ka·
 ʔi·n kiyúʔ./ 'If it is fine tomorrow,
 I will go.' ({ʔelewí} 'if'; {hi} third person
 subject prefix; {wé·} 'be'; {hi wé· uʔ} :
 /hiwekúʔ/; {teʔc} 'good'; {lé·heyn} 'day';
 {wetí·sk} 'tomorrow,' 'yesterday'; {'i·n}
 'I'; {kú· uʔ} : /kiyúʔ/, {kú·} 'go')

{uʔ} : ||yuʔ|| after a vowel; ||úʔ|| elsewhere after an unstressed theme; ||uʔ|| elsewhere.

||yuʔ||:

{hení· uʔ} : /haní·yoʔ/ 'I will make'
 ({hení·} 'make')

||úʔ||:

{'e hipí uʔ} : /ʔe·púʔ/ 'I will eat it'
 ({hipí} 'eat')

||uʔ||:

{pe té·ʔwye í·k uʔ} : /petéʔwyenikuʔ/
 'we are going to settle down to live'
 ({pe} plural subject prefix 633;
 {té·ʔwye} 'dwell'; {í·k} inceptive suffix
 620)

638.7 There are three morphemes that are used to describe conditions contrary to fact: {eq} conditional present, {neq} conditional perfect, {u[?]qe} conditional past. {neq} occurs very infrequently. {eq} and {u[?]qe} are used interchangeably, as noted in the four examples below. The name such as conditional present in this case is for identification of the morphemes rather than for accurate description of their uses. All four sentences below mean 'if he came yesterday, I would have seen him.'

1. /čalawí hipá·yno[?]qa [?]ipí watí·sx, ka· [?]a·xnó[?]qa./

2. /čalawí hipá·yno[?]qa [?]ipí watí·sx, ka· [?]a·kí[?]na[?]x./

3. /čalawí hipá·ý[?]na[?]x [?]ipí watí·sx, ka· [?]a·xnó[?]qa./

4. /čalawí hipá·ý[?]na[?]x [?]ipí watí·sx, ka· [?]a·kí[?]na[?]x./

{čelewi} 'if'; {pé·y} 'come'; {'ipi} 'he/she/it';
 {wetí·sek} 'tomorrow,' 'yesterday'; {ke·} 'and,'
 'then'; {hekí} 'see')

Sentence 2 was given as the "best."

{eq} : ||'é·q|| or ||'eq|| after an unstressed stem; ||eq|| elsewhere.

||'é·q||:

{hi we· s eq} : /hiwatá·x/ 'it would have been'

||'eq||:

{'e heki s eq} : /[?]a·kí[?]na[?]x/ 'I would have seen him'

||eq||:

{'e 'ípté· s eq} : /[?]a[?]ptá·ta[?]x/ 'I could hit him'

{neq} : ||'neq|| after an unstressed stem; ||neq|| elsewhere.

||'neq||:

{kú· s e neq} : /kosá·ʔnaʃ/ 'I would be doing'
({kú·} 'do')

||neq||:

{'e kú· ú· s e neq} : /ʔakiyó·sanax/
'you would have been advancing toward it'
({'e} third person object prefix; {kú·}
'go'; {ú·} directional suffix)

{uʔqe} is used, besides the conditional expression noted above, to describe the capability or potentiality of an action on the part of the subject, and to describe an action in interrogative and negative statements, e.g.,

/ʔí·n ʔa·xnóʔqa./ 'I can see.' ({'í·n} 'I';
{heki} 'see'; {'e heki s uʔqe} : /ʔa·xnóʔqa/
{we·t ʔa·xnóʔqa./ 'can you see it?' ({we·t}
question particle)
{we·tu ʔa·xnóʔqa./ 'I can not see it.'
({we·tu} 'no,' 'not')

{uʔqe} : ||yuʔqe|| after a vowel; ||úʔqe|| elsewhere after an unstressed stem; ||uʔqe|| elsewhere. This may be further analysed in {uʔ} and {qe}.

||yuʔqe||:

{'e 'îpté· s uʔqe} : /ʔaʔptá·yoʔqa/
 'I could hit him' ({'îpté·} 'hit')

||úʔqe||:

{'e heki s uʔqe} : /ʔa·xnóʔqa/ 'I would have
 seen him'

||uʔqe||:

{pe wís leylé·k uʔqe} : /pawsayná·koʔqa/
 'we could go in' ({pe} plural subject prefix;
 {wís} 'travel,' 'camp'; {leylé·k} 'into')

638.8 The four morphemes describing frequentative or customary actions are: {te} frequentative present, {q} frequentative indefinite past, {qeqe} frequentative recent past, and {qene} frequentative remote past.

{te} : ||té·|| after an unstressed stem; ||te|| elsewhere.

||té·||:

{'e heki te e} : /ʔe·kté·tu/ 'I see him always'

||te||:

{'é·t te e} : /ʔá·ttato/ 'I go in and out'
 ({'é·t} 'go out')

{q} : ||eʔnik|| after {i} (plural suffix); ||q|| elsewhere.

||eʔnik||:

{cepeʔ lé· s q} : /cepeʔlé·neʔnix/ 'we used
to work' ({cepeʔ} meaning uncertain; {lé·}
'move,' 'move around')

||q||:

{hi qúqú· lé· s q} : /hiqqolá·nx/ 'he was
in the habit of galloping around' ({qúqú·}
'gallop'; {lé·} 'move around')

{qe_qe} shows the following allomorphy:

with {e} (singular) ||qe_qe||

with {i} (plural)

after a stressed vowel-final stem ||yeʔniqe_q||

after an unstressed consonant-final stem. ||eʔni·qe_q||

elsewhere ||eʔniqe_q||

Examples:

||qe_qe||:

{'îpsqí lé· s e qe_qe} : /ʔipsqilá·nqaqa/

'I used to walk around' ({'îpsqí} 'walk')

||yeʔniqe_q||:

{qini· s i qe_qe} : /qiniyaʔniqa/ 'we used to

dig' ({qini·} 'dig')

||eʔni·qe||:

{hi kú·s i qe_qe} : /hikyaʔni·qa/ 'they used
to go' ({hi} third person subject prefix;
{kú·} 'go')

||eʔniqe||:

{hi wú·y s i qe_qe} : /hiwó·ynaʔniqa/ 'they used
to run away' ({wú·y} 'run away')

{qene} shows the following allomorphy:

with {e} (singular) ||qene||

with {i} (plural)

after a stressed vowel-final stem..... ||yenixne||

after an unstressed consonant-final stem.. ||eni·xne||

elsewhere ||enixne||

Example:

||qene||:

{pé·xwi s e qene} : /pá·xwiqana/ 'I used to
steal (but not any more)' ({pé·xwi} 'steal')

||yenixne||:

{té·l wewí·ti s i qene} : /telwewitiyenixne/
'we used to run downstream' ({té·l} 'run,'
'gallop'; {wewí·ti} 'downstream')

||eni·xne||:

{hipí s i qene} : /hipeni·xne/ 'we used to eat'

638.9 {k} (imperative) is used to make directive statements. {k} shows the following allomorphs:

with {e} (singular) and without locatives

after an s-class theme ending in ||i||.....||k||

after an s-class theme ending in other vowels.||y||

after an s-class theme ending in a consonant.. ∅

after a c-class theme ending in {té·}620..... ∅

after a c-class theme ending in a vowel,

||y||, ||w|| or ||l||.....||n||

elsewhere.....||in||

elsewhere..... ∅.

Examples:

||k||:

{titwetí· e k} : /titwatíx/ 'tell a story!'

(to one person) ({titweti·} 'tell a story')

||y||:

{'e títú·le e k} : /ʔattó·lay/ 'forget it!'

(to one person) ({títú·le} 'forget')

∅ : (after an s-class theme)

{wílé· keʔéyk e k} : /wilé·keʔyx/ 'run!'

({wílé·} 'run'; {keʔéyk} 'go')

∅ : (after a c-class theme)

{'ípsqí léhne e k} : /ʔipsqiléhne/ 'walk down!'

(to one person) ({léhne} 'down')

||n||:

{hí e k} : /hín/ 'speak!' (to one person)

({hí} 'speak')

||in||:

{'e heki e k} : /ʔehékin/ 'look it over!'

(to one person) ({heki} 'see')

∅ : (with {i} plural)

{'e wi heki i k} : /ʔewihekitx/ 'look over

each one of them!' (to more than one person)

({wi} distributive prefix)

∅ : (with locative)

{kú· s m e} : /kú·m/ 'come!' (to one person)

({kú·} 'go'; {m} toward the speaker)

{kú· s m i} : /kú·mtx/ 'come!' (to more than

one person)

639. Inflectional suffix complex and verb constructions.

639.1 Inflectional suffix complex (isc).

Of the four classes of inflectional suffixes, < m > class (locative) is optional, and the rest are obligatory. The order of the four suffix classes varies depending on the tense-modal element involved.

Tense-modals	Reference	s	k	m	e	n	k	m
1. indicative present	638.1	x			x		x	[x]
2. indicative perfect	638.2	x			∅		x	[x]
3. indicative indef. past	638.3	x			∅	[x]	x	
4. indicative recent past	638.4	x			x	[x]	x	
5. indicative remote past	638.5	x			x	[x]	x	
6. indicative future	638.6	x			∅		x	[x]
7. conditional present	638.7	x			∅		x	
8. conditional perfect	638.7	x			x		x	
9. conditional past	638.7	x			∅		x	
10. frequentative present	638.8	∅	x		x			[x]
11. frequentative indef. past	638.8	x			x		x	
12. frequentative recent past	638.8	x			x		x	
13. frequentative remote past	638.8	x			x		x	
14. imperative	638.9 {	x			x		x	
		∅		x	x		x	

∅ : non-occurrence

[] : optional

For tense-modals 6, 10 and 14, the position of the optional class of locatives is based on locative 1 (637) alone; for the tense-modal 5, it is based on locative 2 (637) alone. Locatives, particularly locative 2, occur infrequently.

Of the fourteen tense-modal suffixes, five (2, 3, 6, 7, 9) occur without singula-plural distinction. For these five tenses, the number distinction is indicated by the presence or absence of the plural subject prefix (633). Accordingly, if the paradigm is completely filled out, the theoretically possible inflectional suffix combinations are 2 (number of members of < e > class) x 3 (possibilities of locatives: locative 1, locative 2, no locatives) x (14 - 5) + 3 x 5 = 69. In the present corpus, only 39 combinations are found possibly due either to infrequency of certain combinations or skewed paradigm.

The distribution of the 39 combinations are:

tense-modals	no locatives		locative 1: {m}		locative 2: {ki}	
	sg.	pl.	sg.	pl.	sg.	pl.
1. indicative present	x	x	x	x	x	x
2. indicative perfect	x		x		x	
3. indicative indef. past	x		x		x	
4. indicative recent past	x	x	x	x	x	
5. indicative remote past	x	x				x
6. indicative future	x		x			
7. conditional present	x					
8. conditional perfect	x	x				
9. conditional past	x					
10. frequentative present	x	x	x			
11. frequentative indef. past	x	x				
12. frequentative recent past	x	x				
13. frequentative remote past	x	x				
14. imperative	x	x	x	x		

639.2 The verb constructions in which the inflectional affix classes above participate are:

Vg = general verb

Vg : [hi] [pe] [ne·s] gvT isc

(isc = inflectional suffix complex 639.1)

Example: < hi > < pe > < ne·s > gvT < s > < e > < k >

{ hi pe ne·s qeʔén s e }

|| hi pe ne·s qeʔén n e ||

/ hipana·sqaʔanna /

they respected us

Vg : [pe·] gvT isc

Example: < pe· > gvT < s > < e > < k >

gvS < etk >

{ pe· kú· ú· s i ne }

|| pe kiy ú· s i ne ||

/ pekiyú·sine /

they went to them

Vg : [hi] sT

Example: < hi > sT

{ hi t_eʔc }

|| hi t_eʔc ||

/ hitáʔc /

it is good

Vc = copulative verb

Vc : [hi] cvT isc

Example: < hi > cvT < s > < e > < k >
 { hi wé• s }
 || hí• we s ||
 / hí•wes /
 he is

700. PARTICLES

710. Particle stems.

There are fifteen stem classes

class	examples of members	meaning
710.1 adverbial modifiers	{q <u>u</u> }	awfully, terribly
	{'u}	very
710.2 comparatives	{q <u>e</u> tu}	more
	{tu·s <u>k</u> }	more
710.3 relative	{ke}	which, that etc.
710.4 indefinite	{k <u>u</u> ʔ}	maybe, possibly
710.5 negatives	{ceʔye}	not (to possess)
	{we·t <u>u</u> }	no, not
	{we·c <u>u</u> }	no longer
	{miʔs}	not
710.6 coordinating connectives	{k <u>e</u> ·}	and
	{m <u>e</u> t <u>u</u> }	but
	{'e·t <u>u</u> }	then
	{k <u>e</u> w <u>e</u> }	then
	{weq}	and

class	examples of members	meaning
710.7 subordinating connectives	{'ineki·k}	although
	{'etke}	because
	{'ce <u>le</u> wi}	if
	{qu?c}	as soon as
	{qece}	if, even when
710.8 question particle (Q)	{we·t}	(question marker)
710.9 interrogatives	{m <u>i</u> ne}	where
	{m <u>e</u> c}	how much
710.10 final particle	{ne?é}	isn't it?
710.11 hortatory (H)	{ke}	let me/us
710.12 pronominal	{'iske}	like
710.13 interjectory	{'e·hé}	yes
710.14 adverbial particles	{w <u>e</u> tí·sk}	yesterday, tomorrow
	{w <u>e</u> ·qu}	now
	{'c <u>e</u> ?é}	exactly
	{k <u>e</u> ?l <u>e</u> }	just
	{qece}	even
	{k <u>u</u> n <u>k</u> u}	always
	{ku?ús}	thus
710.15 pronominal	{'é·}	you (sg.)

720. Suffixes.

Suffixes occur with the following stems: relative {ke}, indefinite {kú?}, negative {mi?s}, question particle {we·t}, interrogatives {mine} and {mec}, adverbial particle {qece}, and pronominal {'e·}. The two kinds of suffixes are pronominal and plural suffixes. The latter is found with {'e·} 'you (sg.)' and the former with the rest.

721. Pronominal suffixes.

The pronominal suffixes of particles are in two major sets: (1) one indicating only the subject, and (2) the other indicating both subject and object.

721.1 The subject suffix set has the following membership and allomorphs:

		types: 1a	1b	2a	2b
{k}	1st person sg.	e·k	kek	·k	k
{m}	2nd person sg.			m	m
{nm}	1st person pl.	e·nm	ke·nm	·nm	nenm
{pem}	2nd person pl.			pem	pem

The set 1a occurs with {mi?s} 'not' and {we·t} question particle; 1b with {mine} 'where' and {mec} 'how much'; 2a with {qece} 'even, even when' and {ke} relative;

2b with {kúʔ} 'maybe, possibly.'

{k} may occur with a plural subject morpheme in the same sentence, e.g., /wé·te·x kusí·x/ 'do we go?' ({we·t} question particle; /kusí·x/ 'we go'). In such a case, the second person is not included in the 'we.' When the second person is included, {nm} is used.

Examples of type 1a:

||e·k||:

/míʔse·x ʔí·n manmaʔi kiyúʔ./ 'I cannot go'
 ({míʔs} 'not'; {ʔí·n} 'I'; {menmeʔi} 'how,'
 'in any way'; {kú·} 'go'; {uʔ} future 638.6)

||e·nm||:

/míʔse·nm nú·n manmaʔi pekiyúʔ./ 'we cannot go
 in any way.' ({nú·n} 'we'; {pe} plural subject
 prefix)

The type 1a does not occur with second or third person subject:

/míʔs ʔí·m manmaʔi kiyúʔ./ 'you (sg.) cannot
 go in any way.'

/míʔs ʔipi manmaʔi hikiyúʔ./ 'he cannot go in
 any way.'

/míʔs ʔimé manmaʔi pekiyúʔ./ 'you (pl.) cannot
 go in any way.'

/miʔs ʔimé manmaʔi hipekíyúʔ./ 'they cannot
go in any way.'

Examples of type 1b:

||kek||:

/mínekex wé·s./ 'where am I?' ({mine} 'where')

||ke·nm||:

/míneke·nm wisí·x./ 'where are we?'

In the following examples, {k} is represented by freely
alternating ||kek|| and ||e·k||:

/mackex we kícuy./ 'how much money do I have?'

({mec} 'how much'; ||we|| an allomorph of {wé·}
'be'; {kícuy} 'metal,' 'money')

/mace·x we kícuy./ 'how much money do I have?'

Examples of type 2a:

||·k||:

/qece·x ʔí·n kú·se./ 'even I am going.'

({qece} 'even')

||m||:

/qecem ʔí·m kú·se./ 'even you (sg.) are going.'

||·nm||:

/qece·nm nú·n kusí·x./ 'even we are going.'

||pem||:

/qecepem ʔimé kusi·x./ 'even you (pl.) are
going.'

Examples of type 2b:

||k||:

/kúʔx we·t kiyúʔ./ 'I might go.' ({kúʔ} indefinite;
{we·t} meaning uncertain; {ku·} 'go'; {uʔ}
future 638.6)

||m||:

/kúʔm we·t kiyúʔ./ 'you (sg.) might go.'

||nenm||:

/kúʔnenm we·t pekiyúʔ./ 'we (including you)
might go.'

||pem||:

/kúʔpem we·t pekiyúʔ./ 'you (pl.) might go.'

721.2 The subject-object suffix set has the following membership and allomorphs:

	types:	3a	3b
{k}	1st person sg.	e·k	k
{m}	2nd person sg.		m
{nm}	1st person pl.	e·nm	nm
{pem}	2nd person pl.	epe	pe (before {mek}) pem (elsewhere)
{mek}	1st person subject and 2nd person object	mek (after {pem}) emek (elsewhere)	mek

{pem} in 3a is found only before {mek}. {k}, {m}, {nm} and {pem} are found either as the subject or the object. {mek} indicates that the subject is in the first person and the object in the second person.

The subject-object pronominal suffixes are used to express the following combinations of subject and object. In the following notation, 2s-1p, for example, indicates that the morpheme is used when the subject is second person singular and the object is first person plural.

{k}: 1s-3s, 1s-3p, 3s-1s, 3p-1s

{m}: 2s-1s, 2s-1p, 2s-3p, 3s-2s, 3p-2s, 2s-3s

{nm}: 3s-1p, 1p-3s, 1p-3p, 3p-1p

{pem}: 3s-2p, 2p-1s, 2p-3s, 2p-1p, 2p-3p, 3p-2p

{mek}: 1s-2s, 1p-2s

{pem}{mek}: 1s-2p, 1p-2p

The set 3a occurs with {we·t} question particle; and 3b with {ke} relative particle.

Examples of type 3a:

||e·k||:

/we·te·x ʔetwi·kce./ 'Shall I go with him?'

({'e} third person object prefix 631;

{tîwî·k} 'accompany,' 'follow')

/we·te·x ʔené·stiwikce./ 'Shall I go with them?'

({ne·s} plural object prefix 634)

/we·te·x hitwi·kce./ 'Would he go with me?'

({hi} third person subject prefix 631)

/we·te·x hitwi·kcix./ 'Would they go with me?'

||e·nm||:

/we·te·nm hitwi·kce./ 'Would he go with us?'

/we·te·nm ʔetwi·kcix./ 'Shall we go with him?'

/we·te·nm ʔené·stiwikcix./ 'Shall we go with them?'

/we·te·nm hiné·stiwikcix./ 'Would they go with us?'

||emek||:

/we·temex tiwi·kce./ 'Shall I go with you (sg.)?'

/we·temex tiwi·kcix./ 'Shall we go with you (sg.)?'

||epe mek||:

/we·tepemex tiwi·kce./ 'Shall I go with you (sg.)?'

/we·tepemex tiwi·kcix./ 'Shall we go with you
(pl.)?'

Examples of 3b:

||k||:

/kex ka· ʔeʷniye tí·ʔmes/ 'when I gave him the
book ...' ({k_e·} 'and' and means 'when' with
{ke}; {'îní·} 'give'; {tí·ʔmes} 'book')

/kex ka· ʔené·çniye tí·ʔmes/ 'when I gave them
the book ...' ({ne·s} plural object prefix 634)

||m||:

/kem ka· ʔini·me tí·ʔmes/ 'when you (sg.) gave
me the book ...' ({m} locative 1, 637)

/kem ka· né·çnime tí·ʔmes/ 'when you (sg.) gave
us the book ...'

||nm||:

/kenm ka· hiné·çniye tí·ʔmes/ 'when he gave us
the book ...'

/kenm ka· ʔepeʔniye tí·ʔmes/ 'when we gave him
the book ...' ({pe} plural subject prefix 633)

||pem||:

/kepem ka· peʔniye tí·ʔmes/ 'when you (pl.)
gave me the book ...'

/kepem ka· ʔepeʔniye tí·ʔmes/ 'when you (pl.)
gave him/them the book ...'

||mek||:

/kemex ka· ʔiniye tí·ʔmes/ 'when I gave you (sg.)
the book ...'

/kemex ka· peʔniye tí·ʔmes/ 'when we gave you (sg.)
the book ...'

||pe mek||:

/kepemex ka· ʔiniye tí·ʔmes/ 'when I gave you (pl.)
the book ...'

/kepemex ka· peʔniye tí·ʔmes/ 'when we gave you
(pl.) the book ...'

722. Plural suffix.

The single plural suffix {tk} occurs after {'é·}

'you (sg.),' e.g.,

/ʔimé ʔé·tx panáhpaykoʔ/ 'you (pl.) will bring
it'

730. Particle constructions.

The question word (QW) and hortatory word (HW) have the following constructions:

QW: Q PS

HW: H PS.

In the above notation Q is question particle, H hortatory particle, PS pronominal suffixes. Examples are given in 821.

CHAPTER THREE

800. SYNTAX

810. The tactic units of the sentence are:

- I (interjections)
- C (connectives)
- At (attributives)
- S (subjects)
- O (objects)
- L (locatives)
- Vc (copula)
- Vg (general verbs)
- Vp (possessive verbs).

These are described in order in the sections which follow.

811. Interjections (I).

The following are members of interjections:

1. Interjectory particle (710.13).
2. A construction involving the class of vocative suffixes,
< e > (535): I: sT e (536).

812. Connectives (C).

The two subdivisions of this unit are: (1) coordinating and (2) subordinating connectives.

812.1 The coordinating connectives (Cc) are coterminous with the class listed in 710.6 as coordinating connective particles.

812.2 The subordinating connectives (Cs) are:

1. Subordinating connective particles in 710.7.
2. A construction involving a relative particle (710.3) with appropriate pronominal suffixes (721), e.g.,

{ke ke·} 'when'

{ke ku pe} 'where' 'at which place'

{ke míne} 'where' 'at which place'

{ke mi k} 'where' 'to which place'

{ke kuʔús} 'as'

{ke ki wéy1} 'as long as'

813. Attributives (At).

The following are found as constituents of attributives:

1. substantive themes (sT) in which general noun stems (nS), numeral stems (nuS), demonstrative stems (dS), or adjective stems (aS) occur as constituents. These substantive themes are At1, At2, At3, and At4 respectively.
2. a substantive theme followed by < nim > 531 (At 5).
3. a substantive theme with < 'éyn > 534, or < k > 533 (At 6).

4. a substantive theme in which a verb theme (vT) and < 'e·t > occur as constituents (At7).
5. an adverbial modifier 710.1 (At8).
6. a construction of a substantive theme and a comparative particle 710.2 (At9).
7. a construction with an indefinite particle 710.4 (At10).
8. a construction with a prenominal particle 710.12 (At11).
9. an adverbial particle {kuʔús} 'thus' (At12).

814. Expanded substantive themes (eST).

In this section, constructions involving substantive themes (sT) 520 as heads and extending over more than one morphological word, namely, expanded substantive themes (eST) will be discussed.

While all six subclasses of substantive stems - general noun stems (nS), numeral stems (nuS), kinship term stems (kS), personal pronoun stems (ppS), demonstrative stems (dS), and adjective stems (aS) - occur as heads in substantive themes, in an expanded substantive theme a dS or aS does not occur as head of construction.

814.1 Expanded general noun themes seldom involve more than six morphological words. The expansion is mostly regressive, however, frequently in personal names (with

At7 or At7, cf. 813) a head may precede, for example,

esT: sT At4

/ʔiceyé·ye ʔapsí·n/ 'Coyote With-Flint'

(/ʔáps/ 'flint')

esT: sT At7

/wiyetené·t ʔilpílp/ 'Red Sun' (/ʔilpílp/ 'red')

For other expansions to the right, see examples with At6, At11 and At12 below. In some cases the order is not rigid, e.g.,

esT: At1 At5 sT ^f At1 sT At5

/yoʔ ʔipnīm ʔiní·t/ ^f /yoʔ ʔiní·t ʔipnīm/

'that house of his' (/ʔipnīm/ 'his'; /ʔiní·t/
'house')

Other examples are:

esT: At1 sT

/titó·qan ʔiwé·pne/ 'Indian wife'

esT: At2 sT

/pá·xlo· háham/ 'five men'

esT: At3 sT

/kí· ʔiskit/ 'this road'

esT: At4 sT

/ʔilxni·we titó·qan/ 'many Indians'

esT: At5 sT

/ʔipnīm niyáʔc/ 'his child'

esT: sT At6

/wapayataʔwá·t Angusx/ 'assistant to Angus'

esT: At7 sT

/qequé·wítes kú·s/ 'whiskey' ({qequé·wi} 'be drunk'; {kú·s} 'water')

esT: At8 sT

/qo qí·wnix/ 'very old man' ({qí·wn} 'old man')

esT: At9 sT

/qétu himé·qís wé·tes/ 'bigger land' ({himé·qís} 'big')

esT: At10 sT

/kúʔ mac ʔiní·t/ 'some house'

esT: sT At11

/ná·qc hekipe ʔiske cicámox/ 'one looking like negro' ({né·qc} 'one'; {hekipe} 'seem'; {ʔiske} 'as, like'; {cicémuk} 'negro')

esT: At5 At4 sT

/ʔipním kúckuc miyáʔc/ 'his small child'
(/kúckuc/ 'small')

esT: At2 At1 sT

/naqc hí·kay lálx/ 'a cup of coffee' ({hí·kay} 'cup'; {lélk} 'coffee')

esT: At8 At9 sT

/qo qétu táʔc tiwé·t/ 'much better medicineman'
({téʔc} 'good'; {tiwé·t} 'medicineman')

esT: At3 At4 At7 sT

/kí· taʔsnix sa·pi·kiʔn wálc/ 'this awfully
sharp knife' ({se·pi·kiʔn} 'sharp')

esT: At4 At7 At5 sT

/ʔiléxni qiyá·wís ʔimé·snim núkt/ 'much dry
deer meat'

esT: At10 At8 At4 sT A12

/kúʔ mac ǒo taʔsnix cú·yem kuʔús/ 'some
very good fish like that'

814.2 Expanded numeral themes.

The numeral system of the language is multiplicative and quinary-decimal. The multiplicative and quinary systems are indicated by affixes within morphological word boundaries, and are dealt with in 520 (pp. 76f.). Therefore, all the digits, 20, 300, 5000 etc. are covered under sT with nuS as the head. The others such as 21, 310, 5432 are expressed by expanded numeral themes. A connective particle {weq} (710.6) participates in this construction.

esT: nuT {weq} nuT

/pú·timt wəx ná·qcwa/ 'eleven (men)'

Along with the expanded numeral theme, there is a constructional doublet /pú·timwe wəx ná·qcwa/ 'eleven (men)'
with classifiers occurring with each word in concord.

814.3 Expanded kinship term themes involve only personal pronoun stems with {nim}, e.g.,

esT: At5 kT

/ʔipnim pist/ 'his father'

This construction provides the language with the possibility of doublets, e.g., /naʔtó·t/ 'my father' and /ʔi·nim pist/ 'my father.' The latter periphrastic form is more frequently used in a figurative, rather than factual father-son relationship, e.g., in religious usage.

814.4 Expanded personal pronoun themes occur only in the following form:

esT: ppT At2

/nú·n lepúʔ/ 'we two.'

815. Subject (S) and object (O).

The simple or unexpanded subject has an optional {nim} 531 and the simple object has an optional {ne} 532 as one of the constituents, the other being a substantive theme (sT), i.e.,

S: sT [nim]

O: sT [ne].

The subject with {nim} is found when the verb occurs with {hi} 631 or with {pe·} 632. Elsewhere, the subject

is without {nim}. The object with {ne} is found when the verb occurs with {'e} 631 or {pe·} 632. Elsewhere, the object is without {ne}.

The expanded subject and object are:

S: esT [nim]

O: esT [ne].

Besides, the object may be expanded in the following way.

O': O Vf

/ʔipné hiweʔnpise/ 'him singing' (literally 'him he-sings') as in /ʔi·n ʔamʕiya ʔipné hiweʔnpise/ 'I hear him singing'

816. Locatives (L).

The following occur as members of the locative class.

1. adverbial particles 710.14, e.g.,

/wati·sx/ 'tomorrow,' 'yesterday'

/wá·qo/ 'now'

/kaʔla/ 'just'

2. a substantive theme (sT) or an expanded substantive theme (esT) with < 'éyn > 534, or < k > 533, e.g.,

/piké·pe/ 'at mother's' (/píke/ 'mother')

/matníʔski kú·ski/ 'with boiling water'

({mét} 'boil'; {kú·s} 'water'; {ki} 533)

3. a verb theme with < ʔe·t > class of suffixes (523.2),
e.g.,

/ʔú·yit/ 'at first' ({'ú·yi} 'begin')

4. a construction involving a prenominal particle as
one of the constituents (710.12), e.g.,

/ʔiske ʔá·la/ 'like fire' ({'é·le} 'fire')

/káʔla ʔiske wé·qit/ 'just like rain'

({'kéʔle} 'just' 710.14; {wé·qi} 'rain (vb.)')

5. a construction involving an indefinite particle {kúʔ}
710.4, e.g.,

/kúʔ masi/ 'I don't know how long' ({'mesi}

'how long') as in /kúʔ masi kú·se/ 'I am

going away for indefinite length of time'

6. a numeral theme with {éhem} 'times' (521.2), e.g.,

/mitáham/ 'three times'

7. a construction involving a relative particle (710.3),
and {kuʔús} 'thus,' e.g.,

/ke kuʔús téhes/ 'like ice' ({'téhes} 'ice')

8. a construction with adverbial modifier {qu} (710.1)
and adjective themes, e.g.,

/qo ʔilx̄ninx/ 'very much' ({'iléx̄ni} 'much,'

'many'; {ník} intensifier 521.2)

9. a negative particle (710.5) or a construction involving
a negative particle, e.g.,

/wé·tu/ 'not'

/wé·tu manmaʔi/ 'not in any way'

10. a pronominal particle with optional plural suffix
(722), e.g.,

/ʔé·/ 'you (sg.)' in /wí·ce ʔé·/ 'you are crying'

11. a verb theme with one of the following two suffixes:
{'} (locative formant 1), {ʔyi} (locative formant 2),
e.g.,

/hipstú·y'/ 'enough' ({hipstú·y} 'be satiated')

/weceʔyi/ 'on horse back' ({wé·ce} 'ride a horse')

817. Finite verbs (Vf).

The finite verbs may be divided into general verbs (Vg), copula (Vc) and possessive verbs (Vp).

817.1 General verbs (Vg).

The simple or unexpanded verbs are found in three types of construction (639.2):

Vg : [hi] [pe] [ne·s] gvT isc

Vg : [pe·] gvT isc

Vg : [hi] sT.

Expanded general verb includes one obligatory general verb, an optional general verb in the same person, number, and tense-modes, and optional objects.

Vg' : Vg Vg

/hiʔpsiléhnece^m hikú·tece^m/ 'he came down
to get water' (literally 'he-came-down
he-came-after-water')

/kú·tx wilelⁱ·kitx/ 'run away!' (to more than
one person) (literally 'go! run!')

Vg' : Vg Vg O

/ʔipsqilⁱ·kcene wiyeʔéⁿpsene kapó·/ 'I walked
carrying coat' (literally 'I-walked I-carried
coat')

Vg' : Vg O Vg

/hicapá·íaq^yawya hú·kux hih^fnaqⁱya/ 'he finished
drying hair' (literally 'he-dried hair
he-finished')

Vg' : Vg O

/ʔiné·ku·ye konyá/ 'I drank that'

Vg' : Vg O O

/hiʔniye ʔi·ne leʔé^ptit waḡ ná·qc waʔwá·íam/
'he gave me twenty-one trout' ({leʔé^ptit
weq né·qc} 'twenty-one,' {weʔwé·íem} 'trout')

Vg' : O Vg

/mitá^wna hiná·swalawq^aqa/ 'he hanged three'

Vg' : O O Vg

/sí^kem titó·qana hiná·spaḡoyq^ana/ 'he stole
horses from Indians' (literally 'horse
from-Indian he-stole')

Vg' : O₁ Vg O₂ (O₁ and O₂ constituting an expanded object)
 /konmaná hiná·swalawqqa yú?cmene/ 'he hanged
 those poor ones' (literally 'those he-hanged
 poor (pl. obj.)')

817.2 Copula (Vc).

The copulative verb construction is:

Vc : [hi] [pe] vcT isc.

A copula is not expanded.

817.3 Possessive verb (Vp).

A possessive verb (Vp) has a copula and an object without {ne} as constituents.

Vp : Vc O

/?ú·s lepit mamá?yac/ 'he has two children'

820. The clause (CL).

A clause is preceded by silence, {,}, or {.} and followed by either of the latter two, and contains one obligatory verb (Vg, Vc, or Vp), and optional subject and locatives.

There are following types of clauses:

- | | |
|-----------------------------|--------------------|
| (1) general clause (CLg) | CLg : [S] Vg [L] |
| (2) copulative clause (CLc) | CLc : [S] Vc S [L] |
| (3) possessive clause (CLp) | CLp : [S] Vp O [L] |

A subject in a copulative clause always occurs without {nim} 531, and a subject in a possessive clause always occurs with {nim}.

CL : CLg + CLc + CLp

Examples:

CLg : Vg

/hiwi·ne/ 'he cried'

CLg : S Vg

/ʔi·n wi·ne/ 'I cried'

CLg : Vg S

/ha·niya Chpaman/ 'Chapman made'

CLg : S Vg L

/ʔi·nke ʔehipe laʔám/ 'I too ate all'

CLg : S Vg L L

/kú·s hiwé·lece ʔiléxni wé·qitkiñix/

'water runs high from rain'

CLg : Vg L

/ʔamčí·sa čí·qipx/ 'I heard the talk'

CLg : L Vg

/kú·mtx wiskeʔéynimtx kiné·px/ 'come here!'

(Vg : Vg Vg)

CLg : L L Vg

/ki· kulé·wit taxc pfʔamxnoʔ/ 'we'll soon
have a meeting this evening'

CLc : Vc S

/hí·wes qí·wn/ 'he is an old man'

CLc : S Vc S

/há·ma hí·wes qí·wn/ 'the man is an old man'

CLc : Vc S S

/hí·wes há·ma qí·wn/ 'the man is an old man'

CLc : Vc S L L

/hí·wes ʔicwéys ke kuʔús téhes ʔo tayamí·nax/
'it is cold like ice even in summer'

CLc : S L Vc S

/Chapman káʔlo hiwé·ke so·yá·po·/ 'Chapman
was just a white man'

CLp : Vp

/ʔú·s lepít mamáʔyac/ 'he has two children'

CLp : S Vp

/ʔí·nim we·s kí·wé·tes/ 'this is my land'

821. The derivative clause.

The two types of derivative clauses are:

(1) interrogative clause (CLi) CLi : QW CL

Examples:

/wé·te·x kú·se/ 'can I go?'

/wé·temex lálkí·se/ 'shall I give you
coffee?'

(2) hortatory clause (CLh) CLh : HW CL

Examples:

/kex kú·s/ 'let me go'

/ke·mex ?i·n ?inis/ 'let me give you'

In a hortatory clause, the verb is most frequently in the indicative perfect 638.2.

822. The dependent clause (CLd).

In a dependent clause (CLd), any of the clauses may occur in constituency with a subordinating connective (Cs) 710.7.

CLd : Cs CL

/qéce ?imtó·tapma?á pò·pci?yawna/ 'even when
they killed your fathers'

/?etke we·s waqí·ma/ 'because I am old'

/ka ká· hinúxne/ 'when he died'

/ke mǫpx pekiyú?/ 'whereever we will go'

/ke ku?ús ?ipelí·kt hi?lé·sece/

'as a thunder rolls'

/ke kiwáy1 kí· té·mux hiwekú?/ 'as long as
this footprint will be here'

830. The phrase (Ph).

The following construction types are phrases.

831. Interjectory phrase (IPh). I (811) followed by {,} or {.}.

/ʔe·hé./ 'Yes.'

/qalácaʔ./ 'Grandfather!'

832. General phrase (GPh). S, O, or L followed by {,} or {.}.

/wé·tu./ 'No.'

/pá·ʔys wé·tu neʔé./ 'Perhaps not, huh?'

840. The sentence (SEN).

One of the two immediate constituents of a sentence is {.} (which in tern may be in IC with a final particle 710.10), the other being one of the following:

841. The minor sentence. Any phrase noted above.

SEN: IPh.

/ʔe·hé./ 'Yes.'

SEN: GPh.

/ʔimé·cteʔqeni·n./ '(man's name).'

842. The major sentence. Any construction with an obligatory clause (CL), or derivative clause, and optional dependent clause (CLd) and phrases (Ph).

SEN : CL.

/hiwí·ne./ 'He cried.'

/hiná·swalawqaqa mitá·wna ʔetke./

'He hanged three already.'

SEN : IPh CL.

/ʔe·hé, qoʔc ʔiná·taʔlatwisa./

'Yes, I am already tired from talking.'

SEN : GPh CL.

/wá·qo, hiné·steqekiyu·six./

'Now, they are after us.'

SEN : CL CLd.

/ʔi·n ʔeslé·wqitwece há·cwala, ka ká· ʔimé

hiʔnakaksix hípt./ 'I watch the child,

while they are gathering food.' CL and

CLd in this sentence are reversable.

SEN : CLd CL.

/ʔineki·x ʔipi hiwé·ke wilekeʔykeʔwé·t,

métu ʔawí·n wé·tu ʔipním hiʔpé·twixne ʔi·ne./

'Even though he was a runner, he was unable

to overtake me.'

When more than one CL occurs in a sentence, one of the constituents may be a coordinating connective (Cc) 710.6.

SEN : Cc CL Cc CL.

/ká· wá·qo pu·qú·pe pipísne ka· ?ipí
 hi?nekéhte té·pul./ 'He broke the bone
 and took out the marrow.'

850. Concord and agreement

851. Concord. When morphologically appropriate, affixal elements occur distributively with every member in a substantive expansion, with the exceptions noted in expanded substantive themes (esT).

With {kiñik} 'from' 533:

/koni·x ?ini·ttalamkiñix/ 'from the roof
 of that house' (literally 'from-that from-
 house-roof')

With {nim} (possessive-nominative) 531:

/kúckucnim mamaya?ásnim kó·maynin/ 'children's
 disease' (literally 'small's children's disease')

With {ne} (objective) 532:

/?á·yatona síké·mne/ 'mare (object case)'
 (literally 'female (object case) horse (object case)')

With {pe} 'at' 534:

/konyá yaʔwí·cpa kú·spe/ 'in that cold water'
(literally 'in-that in-cold in-water')

852. Agreement. When there is an objective prefix {'e} (631), or subject-object prefix {pe·} (632) in the finite verb, the object in the sentence occurs with an object suffix {ne} 532, e.g.,

/tiwí·kce kí· ʔiskit./ 'I am following this road.'

/ʔetwí·kce kínye ʔiskíne./ 'I am following this road.'

/sayqíca miyáʔc./ 'I admire a child (mine).'

/ʔasayqíca miyaʔásna./ 'I admire a child (his).'

When three persons are involved expressed by an affective or benefactive suffix {é·y} 620 in the finite verb, the following agreement is observed.

/ki·met ka· pó·pciʔyawcana miyaʔásna kúksnim./
'Then they killed Cook's son.'

/ki·met ka· pó·pciʔyawnaʔysana kúksne miyáʔc./
'Then they killed Cook's son' (they dared to, they went so far as to, they killed his son causing him to suffer)

900. TEXT WITH ANALYSIS

The following is the opening section of a long text on the Nez Perce War of 1877, as told by Mrs. Agnes Moses (1868?-1960). Mrs. Moses was one of the last monolingual speakers of this language. Her text is selected as indicative of the state of the language relatively little influenced by English. The analysis was made posthumously with the assistance of Mrs. Elizabeth Wilson.

910. Phonemic transcription.

1. ʔú·yitiw'cé·ye pí·wapciʔyawn ha·níya cépmin.
2. mitá·w'na hiná·swalawqqa hími·snim hú·sus ka·
ʔiceyé·ye ʔapsí·sna ka· ná·qc ʔattó·laʔysa. 3. cépmin
káʔlo hiwé·ke so·yá·po·. 4. cépmin konmaná hiná·swalawqqa
káʔlo lílkúx yúʔcmene. 5. ʔiwé·pneki hiná·ssiyawna.
6. káʔla titó·qan ʔiwé·pne ʔewé·ke, cépmin weʔniki·n
so·yá·po·. 7. tá·mnaqahtqinm há·ma ʔewé·ke hími·snim
hú·sus.

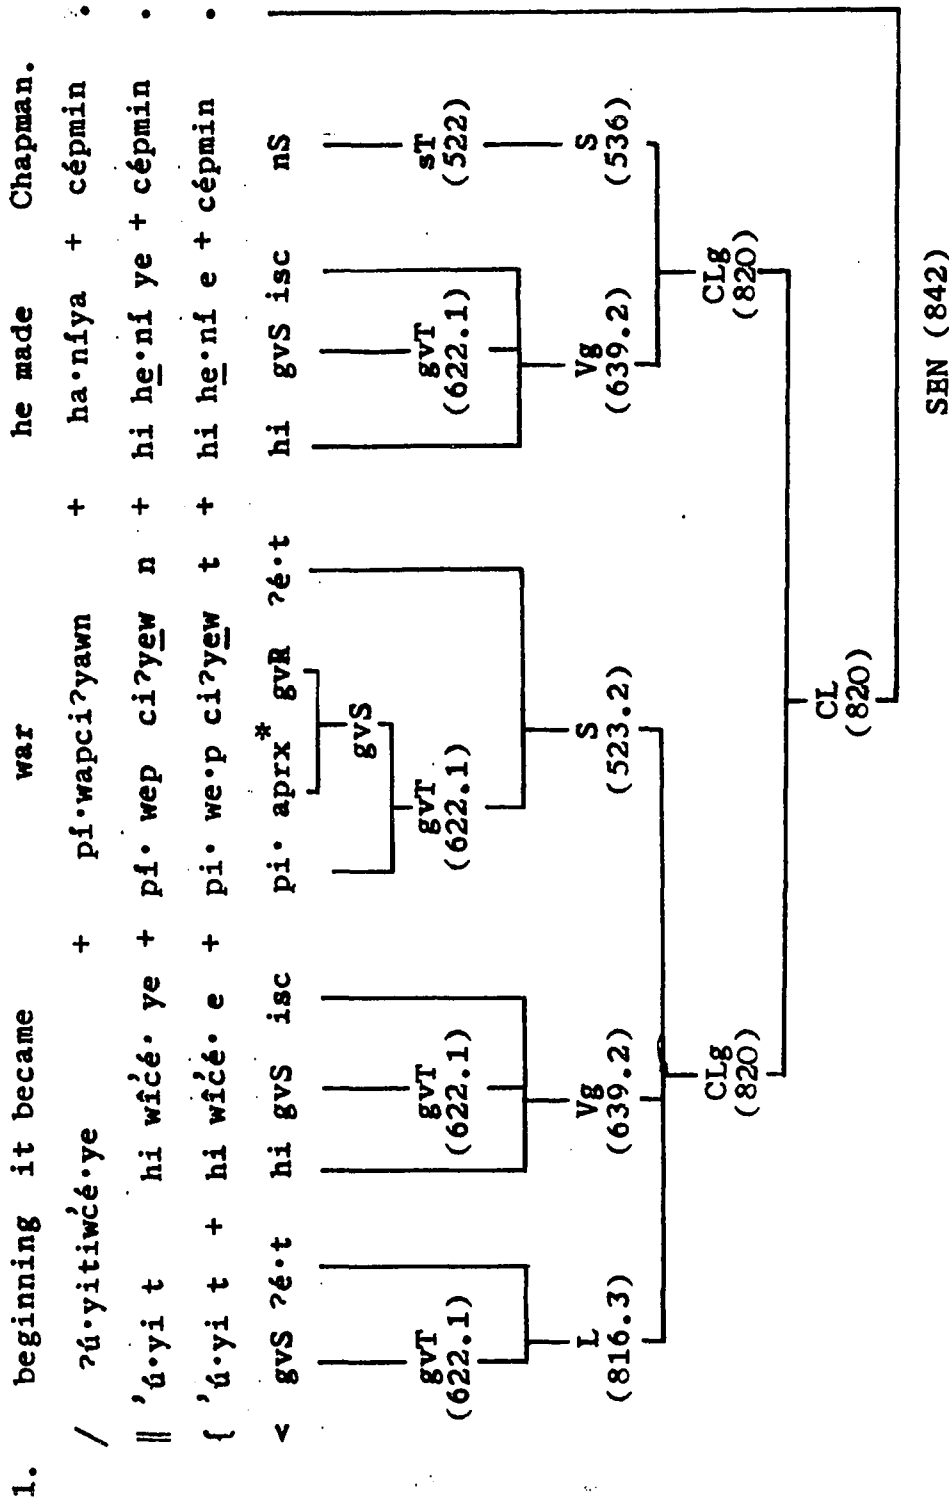

920. Free translation.

1. At first the war started and Chapman¹ started it. 2. He hanged three men; Wolf's Head, Coyote With-Flint, and the third I have forgotten. 3. Chapman was just a white man. 4. Chapman hanged those poor ones for no reason. 5. Because of his wife he was suspicious. 6. This white man named Chapman had an Indian wife. 7. Wolf's Head was Tá·ʔmnaqahtqít's husband.

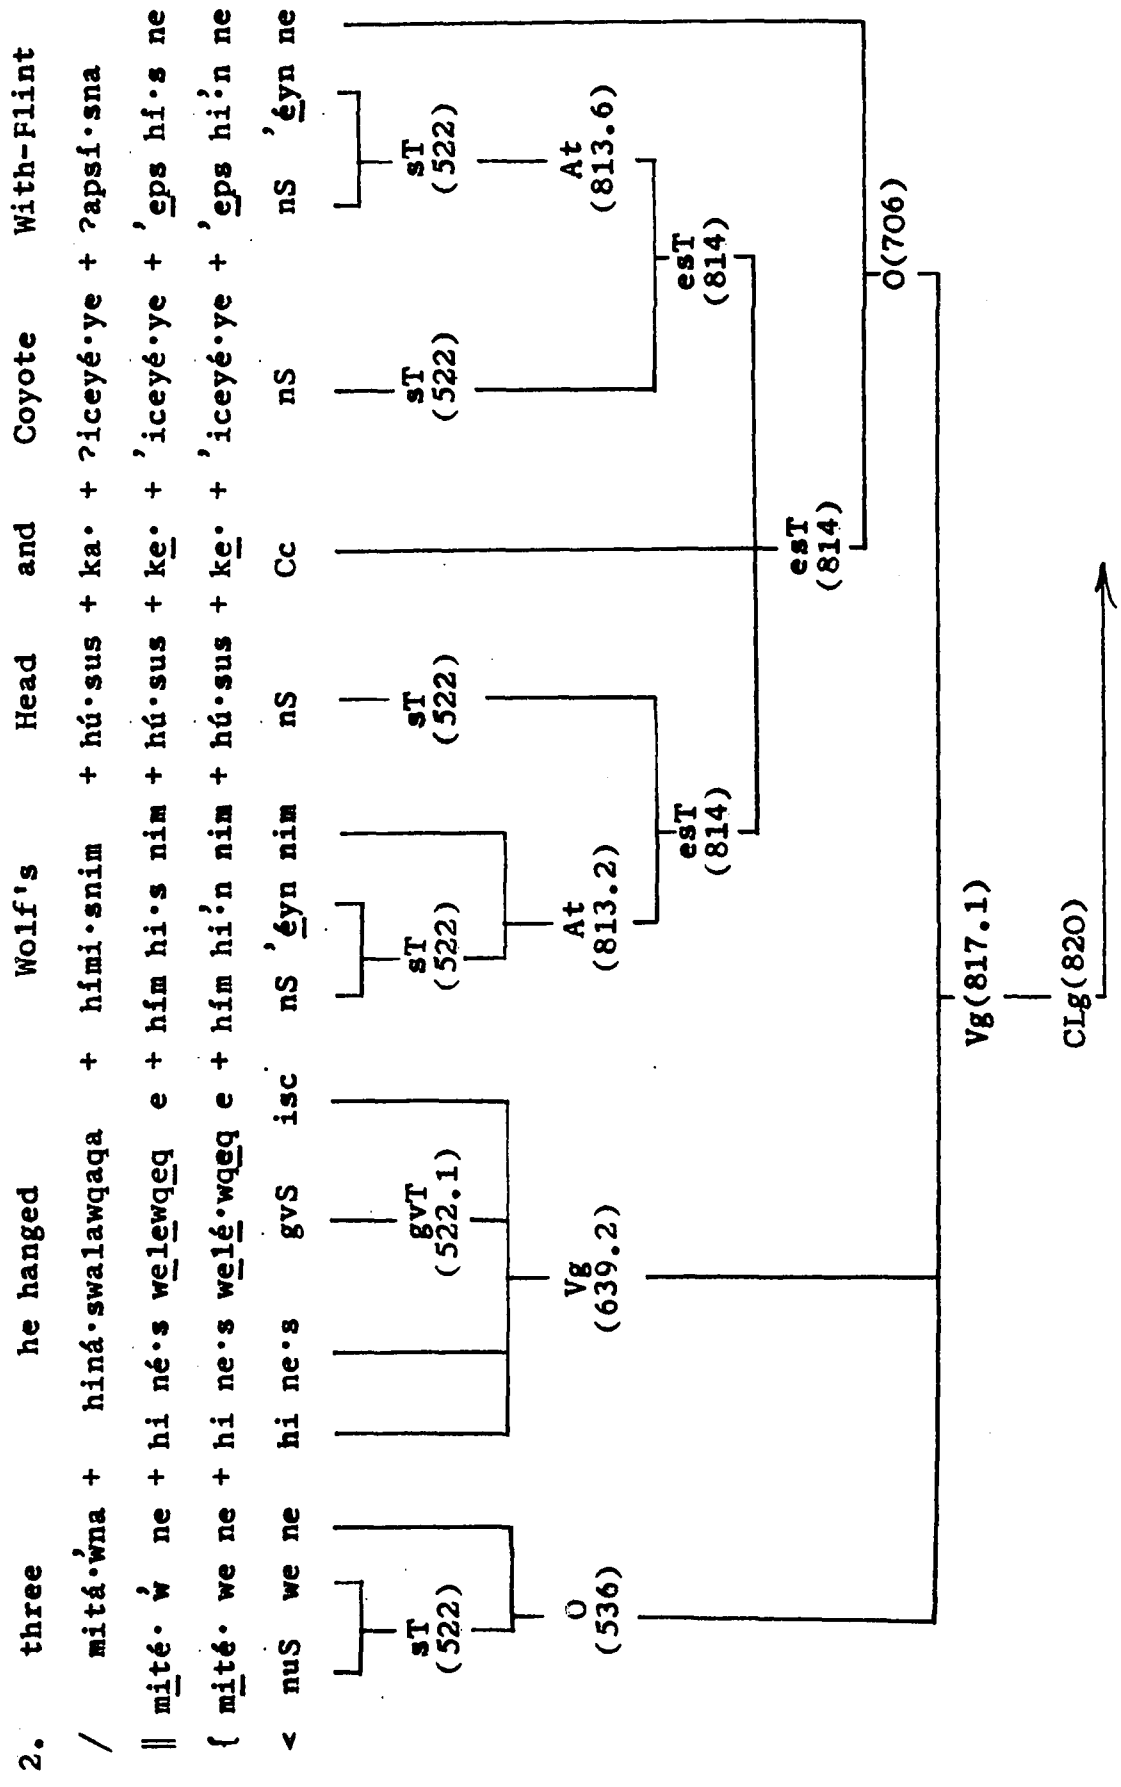

930. Analysis.

The text is given in phonemic, morphophonemic, and morphemic notations. Tactical classes and their constructions are indicated with reference to pertinent sections by numbers in parentheses.

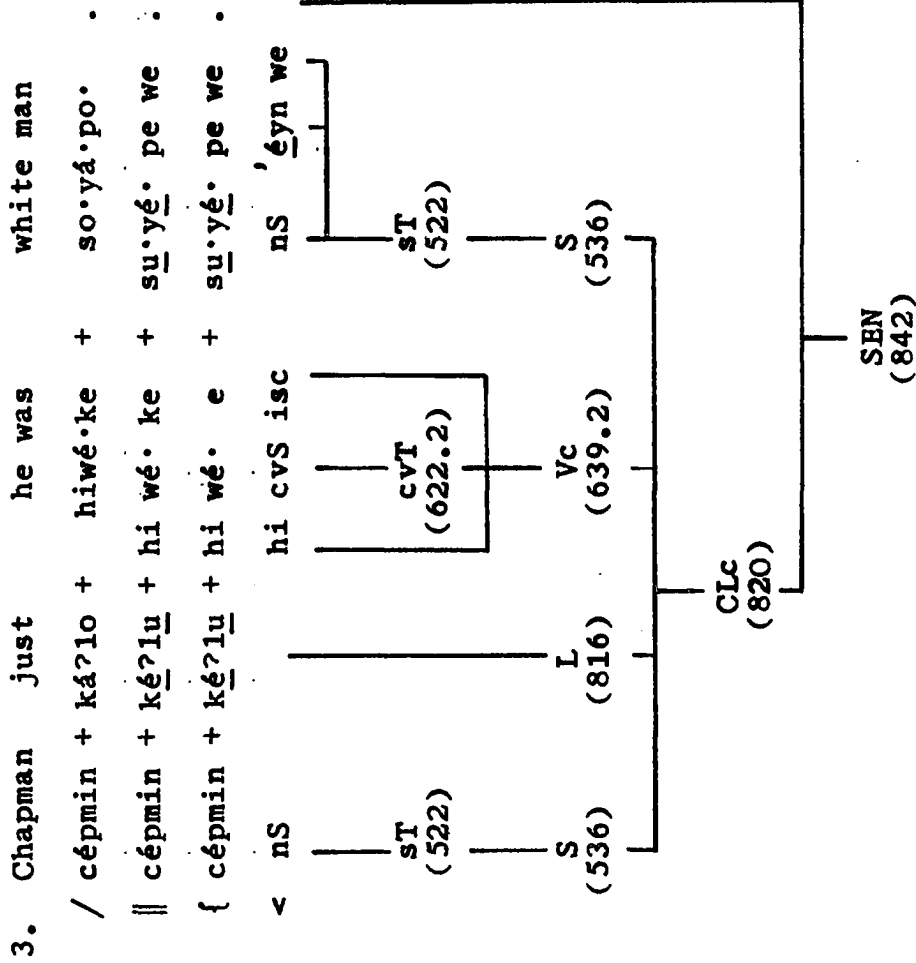

¹This is probably Arthur I. Chapman, who fired at the Indians with the flag of truce (McWhorter 1940: 56) and was the official interpreter at Chief Joseph's surrender (Howard and McGrath 1941: 282).
