## **INSTITUTE OF URBAN AND REGIONAL DEVELOPMENT PUBLICATIONS**

The Institute of Urban and Regional Development (IURD) conducts collaborative, interdisciplinary research and practical work that reveals the dynamics of communities, cities and regions and informs public policy.

Rooted in the social sciences, IURD's work has steadily gained recognition since its inception over 40 years ago. IURD has become the gateway to the university for those concerned with urban and regional issues – infrastructure, housing, sprawl, transportation, environmental quality, disaster recovery, and poverty and physical decline in inner cities – as well as a home for scholars who integrate real-world metropolitan problem-solving in their teaching and research.

### **At the Vanguard of Local and International Metropolitan Development.** IURD

researchers address timely challenges, employing cooperative methods to encourage joint learning, recognize interdependencies, and understand the big picture. IURD's Center for Global Metropolitan Studies works to analyze the implications of worldwide growth and change in metropolitan areas and develop strategies to better manage urbanization processes and outcomes. IURD is also home to the prestigious *Journal of Planning Education and Research*, presenting contemporary issues in planning.

**A Pioneer in Community Partnerships.** IURD's community partnerships are powerful catalysts for social and economic change. Its Center for Community Innovation supports and expands entrepreneurial community problem-solving through outreach, technical assistance, and research that builds upon local best practices. IURD's Center for Cities and Schools bridges the fields of education and urban policy, stressing high-quality education as an essential component of community vitality and promoting understanding and collaboration among educators, policy makers, and community members.
