**CORRIGENDUM**

## Consortium biology in immunology: the perspective from the Immunological Genome Project

*Christophe Benoist, Lewis Lanier, Miriam Merad, Diane Mathis and the Immunological Genome Project*

*Nature Reviews Immunology* **12**, 734–740 (2012)

In the version of this Perspectives article that was originally published, the surname of an author listed as a member of the Immunological Genome Project was misspelt. The correct spelling is Cipelletta (and not Cipoletta, as in the original). The authors apologize for this error, which has been corrected in the online HTML and PDF versions of the article.
