This index would not have been compiled without the support of a number of individuals. I would like to extend special thanks to Patsy Inouye and Jared Campbell, Shields Library, University of California, Davis.

The following people provided support and encouragement in a number of ways: Peg Durkin and Judy Janes, Mabie Law Library, University of California, Davis; Bill Riddle, California State Library; Jean Slemmons Stratford, Institute of Governmental Affairs, University of California, Davis; and Daniel Goldstein, Shields Library, University of California, Davis.

Introduction

The California Legislature published reports in the Appendices to the Journals from 1849 to 1970. Bibliographic access to these reports from 1849 to 1904 is provided by the **Index of Economic Material in Documents of the States of the United States, California 1849-1905** by Adelaide R. Hasse. The present index covers the reports published in the Appendices to the Journals from 1905 to 1970.

The Appendices include reports produced by California executive agencies as well as the California Legislature. In a few instances, the reports include work by the United States federal government or the University of California.

The present volume is divided into two sections. The first section is the Subject Index; the second section is the Agency Index.

The indexes provide access to the reports by corporate author, either the legislative committee or executive agency, and by subject. Each entry gives the volume number for the report in one of two formats:

1909(1)(38th)

This first example indicates Appendix to the 1909 Journals, Volume 1, 38th session.

The Legislature stopped assigning session numbers after the 57th session, 1947. For later years, the Appendices were published as separate series of Senate and Assembly volumes. For some years, only Senate volumes were published.

1955(S)(1)

This second example indicates Appendix to the 1955 Senate Journals, Volume 1.
