2009

ELECTRIC GRID RESEARCH

Final Report:

Load Modeling Research

The first link below downloads the entire report. The following links download the body of the report and appendices A-K separately.

[Load Modeling Transmission Research \(entire report, pdf 6.3 MB\)](#)

[Load Modeling Transmission Research \(without appendices, pdf 1.1 MB\)](#)

[Appendix A: Air Conditioner Stalling Effects Study / Air Conditioner Testing Procedures \(pdf 0.4 MB\)](#)

[Appendix B: Air Conditioner Test Report \(pdf 1.2 MB\)](#)

[Appendix C: Performance Model Evaluation \(pdf 0.2 MB\)](#)

[Appendix D: Recommended Model for Single Phase Compressor \(pdf 0.2 MB\)](#)

[Appendix E: Air Conditioner Stalling / Unit Level Solutions Test Report \(pdf 1.1 MB\)](#)

[Appendix F: Air Conditioner Stalling Solutions / Summary Report \(pdf 0.1 MB\)](#)

[Appendix G: WECC Load Composition Data Tool Specification \(pdf 1.3 MB\)](#)

[Appendix H: Load Monitoring / CEC/LMTF Load Research Program \(pdf 1.1 MB\)](#)

[Appendix I: Uncertainty in Power System Models \(pdf 0.4 MB\)](#)

[Appendix J: Scoping Study to Assess Solar Generation Characteristics and its Impacts on Load Modeling \(pdf 0.3 MB\)](#)

[Appendix K: Fault-Induced Delayed Voltage Recovery \(pdf 0.2 MB\)](#)
