Raven Burton (she/her)

Major: Psychology

Hometown: Bakersfield, CA

Hello, I am a fourth-year undergraduate student at the University of California, Merced majoring in Psychology. During my time at UC Merced, I have found a love for doing research, having published an article in the URJ and working in several labs on campus, including the Merced Experimental Social and Health Psychology (MESH) Lab and the Social and Health Psychology Applied Behavioral Research for Promotion and Prevention (SHARPP) Lab. I hope to continue this passion for research by going to graduate school and eventually obtaining a Ph.D. My research interests focus on sexual health and personal relationships especially pertaining to the LGBTQIA+ community. Outside of school, I enjoy playing video games, cosplaying, art, and listening to podcasts.

Javier Calles (he/him/his)

Major: Management and Business Economics

Minors: (Professional) Writing Studies, Management Analytics and Decision-Making

Hometown: Brawley, CA

Hello! I am a second year MBE major, minoring in MAD and (Professional) Writing Studies. One thing you will notice about me is that it will be impossible to ever catch me not listening to music. Nipsey Hussle and J Cole are two of my favorite artists. Outside of the URJ, I am also an active brother of Delta Sigma Pi and their operations are what I fill most of my free time with. I grew up playing sports, enjoy watching my favorite teams year round, and hope to one day work at the intersection of the sports and business world. Coming from a small town, my aspirations for life have always been filled with prosperity and success, which I plan on achieving with a strong work ethic.

Yaqi Chen

Major: Management and Business Economics

Minor: Writing Studies

Hometown: Temple City, California

Hey guys! I'm a 4th year undergraduate student here at UC Merced in the process of becoming a technical writer. Two of my most favorite things are marketing and writing as this is because they both require design and creative thinking at times to make the perfect delivery! It's to the point where I'm working at the University Writing Center aiding in documents from all over the field and can specifically tackle business-related materials such as business proposals, game theory arguments, or contracts. And I've never been so excited to put the two together here again at the URJ!

Ma Angela Edith (she/they)

Major/Minor: Cognitive Science/Writing Studies
Hometown: Granada Hills, CA

I'm a 3rd-year Cognitive Science major and Writing Studies minor. Outside of the URJ, I love to learn how to cook, bake, garden, and crochet. I'm energetic; I'm always running around doing something somewhere. I'm currently involved in ASUCM Campus Activities and at the Language, Interaction, and Cognition lab.

Austin John Escobar

Major: Biological Sciences
Minor: Education
Hometown: Brentwood, California

Hello everybody! I am a 4th year student at UC Merced. My interests in medicine, environmental justice, and education have allowed me to develop a love for learning and a passionate determination to grow holistically. I believe technical writing and the editorial process are necessary skills to develop and practice, especially when it comes to grant writing, research, and policy-making. Thanks! I'm looking forward to working together soon!
