# Plastic/Fantastic/Lovers

for three ensembles

(2013)

Ulrich Krieger

**Plastic/Fantastic/Lovers**

for 3 percussion, 4 accordions, 3 woodwinds

Ulrich Krieger  
(2013)

dedicated to Gerhard Scherer

Plastic/Fantastic/Lovers consist of three individual pieces and ensembles:

Plastic for 3 percussion

Fantastic for 4 accordions

Lovers for 3 woodwinds (oboe, clarinet, soprano saxophone)

These pieces can be played:

individual Plastic, Fantastic, Lovers

two simultaneous Plastic/Fantastic, Plastic/Lovers, Fantastic/Lovers

three simultaneous Plastic/Fantastic/Lovers

Durations:

10 minutes (Plastic, Fantastic, Lovers, Plastic/Fantastic)

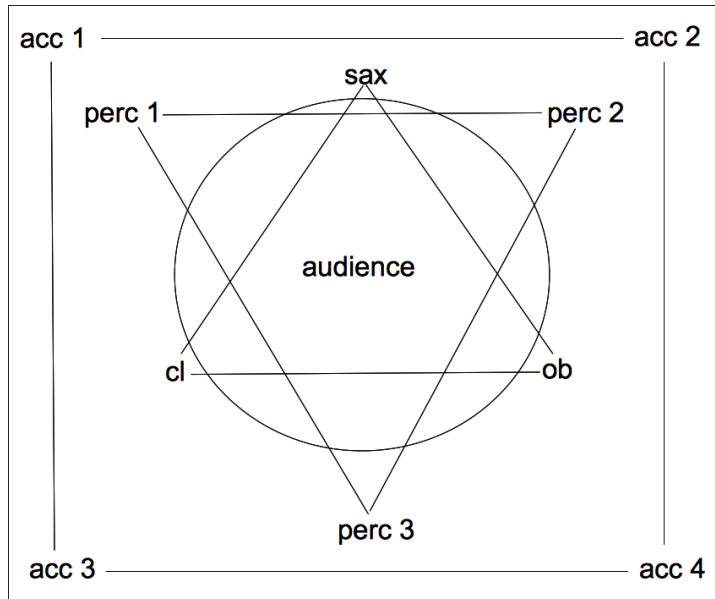

13 minutes (Plastic/Lovers, Fantastic/Lovers, Plastic/Fantastic/Lovers)

a post-modern cheap imitation with thanks to

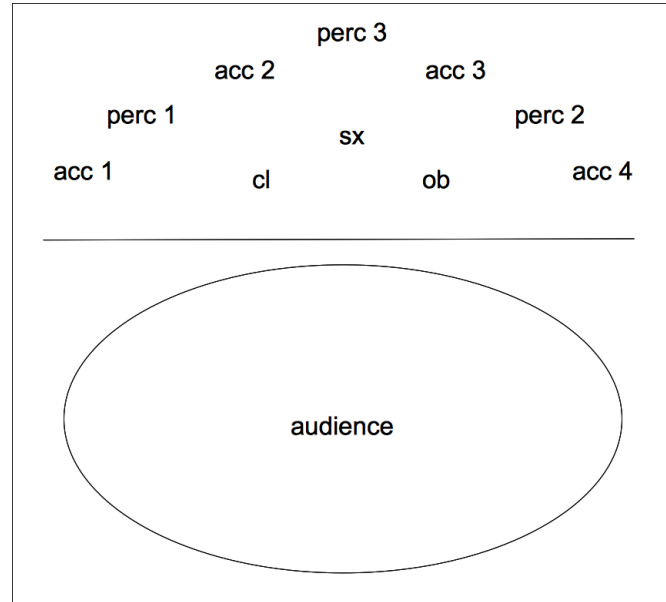

John Cage, Alexander Skriabin, Iannis Xenakis, Morton Feldman, Luigi Nono,  
and Marty Balin/Jefferson Airplane (Plastic Fantastic Lover) for inspiration

## **Plastic**

for 3 amplified percussionist (grancasse, bowed cymbals, plastic)

Ulrich Krieger  
(2013)

time is somewhat flexible as is the relationship between the 3 parts (non-static score/timeline)  
performers can individually micro-accelerando or -ritardando, therefore changing the relationship between parts,  
but have to come out together at the end of a line

### **part I**

low sounding, dark, reverberant, slightly boom-y quality  
always very rhythmical

3 different sized and/or differently tuned grancasse (orchestral bass drums) or  
3 different sized and/or differently very-low-tuned large stand toms or  
3 different sized cardboard boxes (e.g. moving boxes)  
– one instrument per player, no mixing  
soft felt or rubber mallets for a big sound with not a lot of attack

play on various positions of the skin from center to fringe to get a variety of colors

### **part II**

ambient drone, harmonics, quietly noisy

3 different sized, bowed cymbals, one per player  
3 different sounding plastic wrappers (candy wrap, cd shrink wrap or similar light plastic), one per player

bow cymbals for one relaxed bow length, let ring  
arrow down: low sound  
arrow up: high sound  
no arrow: mid-range sound

quietly crumble plastic wrappers between your fingers when not bowing cymbal

always in the background

crumble slow (----), medium (----.----.----.) or fast (-----) as indicated in score

**amplification**

all percussion need to be close mic'ed going through a guitar or bass amplifier or monitor speaker at their position (not through the house)

close mic'ing: about 1-2 inches away from the instrument and about 1/3 in from the fringe of instrument

distance of plastic from mic should be as close as possible, but as far away to be quiet enough

part I: close amplify grancasse to bring out low resonances (slightly boom-y quality) and harmonics clearly  
(in case of cardboard boxes put the microphones inside)

part II: close amplify cymbals to bring out their low drones and harmonics

close amplify plastics to magnify their small sounds (granular-like background sound)

Plastic can be performed simultaneously

with Fantastic for 4 accordions as Plastic/Fantastic,

with Lovers for 3 woodwinds as Plastic/Lovers or

with Fantastic and Lovers as Plastic/Fantastic/Lovers

30" 60"

bowed cymbals mp-mf  
plastic ppp-p

Detailed description: This musical score is for a 5-minute (8-measure) section. It features three staves (1, 2, 3) and is divided into two 30-second segments. Staff 1 contains a bowed cymbal (circle with a dot) at the start of the first segment and another at the start of the second segment. Staff 2 contains a plastic (circle with a dot) at the end of the first segment and another at the end of the second segment. Staff 3 contains a plastic at the end of the second segment. A legend indicates that bowed cymbals are played at mezzo-piano to mezzo-forte (mp-mf) and plastic is played at pianissimo to piano (ppp-p).
