In the version of the article initially published, Table 1 was missing two rows (“VAS – mean baseline” and “KOOS pain – mean baseline”) that have now been inserted in the HTML and PDF versions of the article.

In the version of the article initially published, there was an error in the “Trial design, eligibility, randomization and recruitment” section: the sentence now reading “...the detailed protocol was included in the pre-registration and is available at <https://doi.org/10.7910/DVN/X5MBHP>” had the wrong link. This has now been corrected in the HTML and PDF versions of the article.
