Doc Type: Working Group Document**Title: Proposal for encoding Myanmar characters for Karen and Kayah in the UCS****Source: UC Berkeley Script Encoding Initiative (Universal Scripts Project)****Authors: Michael Everson and Martin Hosken****Status: Liaison Contribution****Replaces: N3080****Action: For consideration by JTC1/SC2/WG2 and UTC****Date: 2006-09-08**

Since the Myanmar script was first encoded, it has been known that a number of additions used by minority languages would be needed. This proposal requests the addition of characters for a number of them. It contains the proposal summary form.

The languages supported by this proposal are the Tibeto-Burman languages Western Pwo Karen, Eastern Pwo Karen, Geba Karen, and Kayah. Five of the characters proposed are spacing letters, but six combining vowel signs, and five combining tone marks are also proposed.

The history of the Myanmar script is not one of a single line of development. A number of language-specific differences arose during the period of development, much as has happened with the Arabic and Cyrillic scripts. Most of the letters are used in common, but some letters have language-specific forms. These are not unifiable with “standard” Myanmar letters, and books in Burmese about Karen, for instance, use both of them concurrently. In the discussion of the additions below, the language-specific letters are listed, in the brief shorthand “x contrasts with Burmese y”.

Additions for Western Pwo Karen

Four characters used in Western Pwo Karen are not used in Burmese: Ꞇ LETTER WESTERN PWO KAREN THA contrasts with Burmese ၵ *sa*; ꞇ LETTER WESTERN PWO KAREN PWA is the last letter of the Western Pwo Karen alphabet; ꞈ VOWEL SIGN WESTERN PWO KAREN EU and ꞉ VOWEL SIGN WESTERN PWO KAREN UE are vowel signs; ꞊ SIGN WESTERN PWO KAREN TONE-1, Ꞌ SIGN WESTERN PWO KAREN TONE-2, ꞌ SIGN WESTERN PWO KAREN TONE-3, Ɥ SIGN WESTERN PWO KAREN TONE-4, and ꞎ SIGN WESTERN PWO KAREN TONE-5 are tone marks. (Figures 1, 2, 3, 4, and 5.) Note that the dot on ꞉ VOWEL SIGN WESTERN PWO KAREN UE is an integral part of the character; it is not U+1036 ၶ MYANMAR SIGN ANUSVARA. The character U+1037 ၷ MYANMAR SIGN DOT BELOW is used with ꞊ SIGN WESTERN PWO KAREN TONE-1, Ꞌ SIGN WESTERN PWO KAREN TONE-2, and ꞌ SIGN WESTERN PWO KAREN TONE-3; it must follow them in the text stream—otherwise the dot would rest on the base consonant (see Figure 5).

Additions for Eastern Pwo Karen

One character used in Eastern Pwo Karen contrasts with a Burmese character: ꞏ LETTER EASTERN PWO KAREN NNA contrasts with Burmese ၸ NNA. Two other characters are unique to Eastern Pwo Karen: Ꞑ LETTER EASTERN PWO KAREN YWA and ꞑ LETTER EASTERN PWO KAREN GHWA. (Figures 6 and 7.)

Addition for Geba Karen

One character used in Geba Karen contrasts with a Burmese character: ꨀ VOWEL SIGN GEBA KAREN I, used for a tense “ĩ”, contrasts with Burmese ꨀ VOWEL SIGN I. (Figure 9.)

Additions for Kayah

One character used in Kayah contrasts with a Burmese character: ꨁ VOWEL SIGN KAYAH U is used alongside Burmese ꨁ VOWEL SIGN U. Two characters are unique to Kayah: ꨂ VOWEL SIGN KAYAH OE and ꨃ VOWEL SIGN KAYAH EE. (Figure 8.)

Ordering

The unified order for the Myanmar script incorporating the characters here (and those previously accepted for encoding) is given below. Ordering is syllable-based, so this is indicative of only one level of ordering. The Shan and Palaung characters proposed in N3xxx are shown here underscored.

ka < shan-ka < kha < shan-kha < ga < gha < nga < mon-nga <
ca < shan-ca < cha < ja < jha < mon-jha < sgaw-karen-sha < nya < shan-nya < nnya <
tta < ttha < dda < ddha < nna < *eastern-pwo-karen-nna* <
ta < tha < da < dha < na < shan-na <
pa < pha < shan-pha < shan-fa < rumai-palaung-fa < ba < bha < ma <
ya < ra < la < wa < shan-tha < sha < ssa < *western-pwo-karen-tha* < sa < great-sa < ha < shan-ha <
lla < mon-bba < *eastern-pwo-karen-ywa* < *eastern-pwo-karen-gwa* <
a < shan-a < *kayah-oe* < i < ii < u < *kayah-u* < *kayah-ee* < uu <
vocalic-r < vocalic-rr < vocalic-l < vocalic-ll < e < mon-bbe < *western-pwo-karen-pwa* < mon-e < o < au

Issues

Several characters look as though they could be sequences of a base character plus the proposed *U+103E ꨀ CONSONANT SIGN MEDIAL HA. These are like ꨀ LETTER SGAW KAREN SHA which has already been accepted for encoding: the letters are ꨀ LETTER WESTERN PWO KAREN PWA, ꨀ LETTER EASTERN PWO KAREN YWA, and ꨀ LETTER EASTERN PWO KAREN GHWA. At a “Workshop on Myanmar Language Processing”, held in Yangon 13-15 February 2006 (cf N3043R), this was discussed at length. All of the letters have their own place in the alphabet of the language which uses them (see Figures 1, 2, and 6). In Western Pwo Karen, for instance, ꨀ LETTER SGAW KAREN SHA and ꨀ LETTER WESTERN PWO KAREN PWA, are both treated as separate letters of the alphabet, sorted rather far from the base letters ꨀ *ra* and ꨀ *pa*, both of which do, as it happens, take genuine medials (ꨀ *pya*, ꨀ *pla*, ꨀ *pra*, ꨀ *pwa*, and ꨀ *rwa*) which are sorted as expected under ꨀ *pa* and ꨀ *ra*. Since the Myanmar script is to be a unified set to deal with all of these languages, we judge it best to let ꨀ be used in its traditional productive medial role in the Burmese, Mon, and S’gaw Karen languages, but to encode as unique letters the ones used non-productively in Pwo Karen. In Pwo Karen, the angled marks are typically fused to the letters, often to the right as opposed to centred, which also suggests a difference. See Figure 10 showing the distinctive LETTER PWO KAREN PWA with the tail fused toward the right of the character, quite differently to the Burmese MEDIAL HA in ꨀ *nha* and ꨀ *mha* which occurs in the same document.

A. Administrative

1. Title

Proposal for encoding Myanmar characters for Karen and Kayah in the UCS.

2. Requester's name

UC Berkeley Script Encoding Initiative (Universal Scripts Project); authors: Michael Everson and Martin Hosken

3. Requester type (Member body/Liaison/Individual contribution)

Liaison contribution.

4. Submission date

2006-09-08

5. Requester's reference (if applicable)

6. Choose one of the following:

6a. This is a complete proposal

Yes.

6b. More information will be provided later

No.

B. Technical – General

1. Choose one of the following:

1a. This proposal is for a new script (set of characters)

No.

Proposed name of script

1b. The proposal is for addition of character(s) to an existing block

Yes.

1c. Name of the existing block

Myanmar.

2. Number of characters in proposal

16

3. Proposed category (A-Contemporary; B.1-Specialized (small collection); B.2-Specialized (large collection); C-Major extinct; D-Attested extinct; E-Minor extinct; F-Archaic Hieroglyphic or Ideographic; G-Obscure or questionable usage symbols)

Category A.

4a. Proposed Level of Implementation (1, 2 or 3)

Level 2

4b. Is a rationale provided for the choice?

Yes.

4c. If YES, reference

Brahmic Level 2 implementation.

5a. Is a repertoire including character names provided?

Yes.

5b. If YES, are the names in accordance with the “character naming guidelines” in Annex L of P&P document?

Yes.

5c. Are the character shapes attached in a legible form suitable for review?

Yes.

6a. Who will provide the appropriate computerized font (ordered preference: True Type, or PostScript format) for publishing the standard?

Michael Everson.

6b. If available now, identify source(s) for the font (include address, e-mail, ftp-site, etc.) and indicate the tools used:

Michael Everson, Fontographer.

7a. Are references (to other character sets, dictionaries, descriptive texts etc.) provided?

No.

7b. Are published examples of use (such as samples from newspapers, magazines, or other sources) of proposed characters attached?

Yes.

8. Special encoding issues: Does the proposal address other aspects of character data processing (if applicable) such as input, presentation, sorting, searching, indexing, transliteration etc. (if yes please enclose information)?

Yes.

9. Additional Information: Submitters are invited to provide any additional information about Properties of the proposed Character(s) or Script that will assist in correct understanding of and correct linguistic processing of the proposed character(s) or script.

See above.

C. Technical – Justification

1. Has this proposal for addition of character(s) been submitted before? If YES, explain.

Yes, similar characters have been submitted before. See N2768, N3043, N3044, N3080

2a. Has contact been made to members of the user community (for example: National Body, user groups of the script or characters, other experts, etc.)?

Yes.

2b. If YES, with whom?

San Lwin (Director General, Myanmar Language Commission), **Tun Tint** (Myanmar Language Commission), **Thein Oo** (President, Myanmar Computer Federation), **Kyaw Thein** (Vice-President, Myanmar Computer Federation), **Myint Myint Than** (Director, Myanmar Computer Federation), **Zaw Htut** (Myanmar Computer Professional Association, Myanmar's NET), **Htoo Myint Naung** (Myanmar Project, Technomation Studios, Universities of Computer Studies Yangon), **Myint Thu** (Myanmar Project, Myanmar Heritage Publications), **Ngwe Tun** (Mon—Myanmar Computer Professional Association, Solveware Solution, Myanmar Info-Tech), **Maung Maung Thant** (Myanmar Computer Professional Association), **Jai Pah Bung Mein** (Shan—SSi Technologies), **Saw Hare Sei** (S'gaw Karen—Ayeyawady Data Centre), **Saw Baldwin Khaing Oo** (S'gaw Karen—Ayeyawady Data Centre), **Nant Silver Tun** (Western Pwo Karen—Pwo Kayin Conference), **William Wai Lin Kyaw** (Myanmar Computer Professional Association, Myanmar Linux Users Group), **Ye Myat Thu** (Alpha Mandalay, Alpha Info-Tech), **Keith Stribley** (Thanlwinsoft).

2c. If YES, available relevant documents

3. Information on the user community for the proposed characters (for example: size, demographics, information technology use, or publishing use) is included?

People in Myanmar.

4a. The context of use for the proposed characters (type of use; common or rare)

Common.

4b. Reference

5a. Are the proposed characters in current use by the user community?

Yes.

5b. If YES, where?

In Myanmar.

6a. After giving due considerations to the principles in the P&P document must the proposed characters be entirely in the BMP?

Yes.

6b. If YES, is a rationale provided?

Yes.

6c. If YES, reference

Contemporary use and accordance with the Roadmap.

7. Should the proposed characters be kept together in a contiguous range (rather than being scattered)?

N/A.

8a. Can any of the proposed characters be considered a presentation form of an existing character or character sequence?

Yes.

8b. If YES, is a rationale for its inclusion provided?

The proposed U+1088 MYANMAR LETTER WESTERN PWO KAREN THA looks like U+1041 MYANMAR DIGIT ONE but UCS encoding principles always differentiate such pairs. Compare U+101D MYANMAR LETTER WA and U+1040 MYANMAR DIGIT ZERO.

8c. If YES, reference

9a. Can any of the proposed characters be encoded using a composed character sequence of either existing characters or other proposed characters?

No.

9b. If YES, is a rationale for its inclusion provided?

9c. If YES, reference

10a. Can any of the proposed character(s) be considered to be similar (in appearance or function) to an existing character?

Yes.

10b. If YES, is a rationale for its inclusion provided?

Yes.

10c. If YES, reference

See "Issues" above.

11a. Does the proposal include use of combining characters and/or use of composite sequences?

Yes.

11b. If YES, is a rationale for such use provided?

Yes.

11c. If YES, reference

Brahmic vowel and consonant signs.

11d. Is a list of composite sequences and their corresponding glyph images (graphic symbols) provided?

No.

11e. If YES, reference

12a. Does the proposal contain characters with any special properties such as control function or similar semantics?

No.

12b. If YES, describe in detail (include attachment if necessary)

13a. Does the proposal contain any Ideographic compatibility character(s)?

No.

13b. If YES, is the equivalent corresponding unified ideographic character(s) identified?
