Places, 13(2)

ISSN

0731-0455

Publication Date

2000-10-01

Peer reviewed

An aerial, hand-drawn sketch of a city. The buildings are rendered with red and orange roofs, and the streets are shown in a grid-like pattern. Green trees are scattered throughout the urban landscape. The overall style is artistic and illustrative.

About the cover: Illustration of the rural-urban transect, a concept from the *Lexicon for the New Urbanism*, diagrammed on page 43 of this issue. Drawing © 1999 Michael Morrissey, used by permission.

Places: A Forum of Environmental Design is published three times a year by the Design History Foundation, a nonprofit, charitable organization that sponsors a range of educational, publishing and research activities. The Foundation's mission is to establish forums in which designers, public officials, scholars and citizens can discuss issues vital to environmental design, with particular emphasis on public spaces in the service of the shared ideals of society.

Places and the Design History Foundation depend on support from foundations, firms and individuals to continue these activities. To support our mission and to learn the benefits of joining us as a sponsor, patron, supporter or friend, please contact our Brooklyn office: (718) 399-6090.

Submission Information

Places encourages submissions from its readers. Please submit five copies of each manuscript, along with illustrations, to our editorial office. Color transparencies, black-and-white prints and line drawings are acceptable. Copies of our current Call for Submissions and editorial guidelines are available from our editorial offices upon request.

Articles published in *Places* have been reviewed by at least four people, including consulting and contributing editors and other scholars and/or professionals with specific background and expertise in the subject matter. All final editorial decisions are made by the editor.
