June, 1965 UCSC EVENTS & MILESTONES

UCSC opens to first class of students

The UC Santa Cruz campus opens to 652 students under the leadership of Dean E. McHenry, founding chancellor. It began as "the most significant educational experiment in the history of the University of California."

Chancellor Dean McHenry, the Political Mastermind behind UC Santa Cruz

Founding UCSC Chancellor Dean McHenry's education, research, and practical experience in California politics from the 1930s to the 1950s helped him develop the savvy and political acumen to create and lead a boldly experimental campus of the University of California. This digital exhibit explores McHenry's political career, focusing particularly on his participation in Upton Sinclair's 1934 End Poverty in California (EPIC) campaign for governor of California and his key role in authoring the 1960 Master Plan for Higher Education.

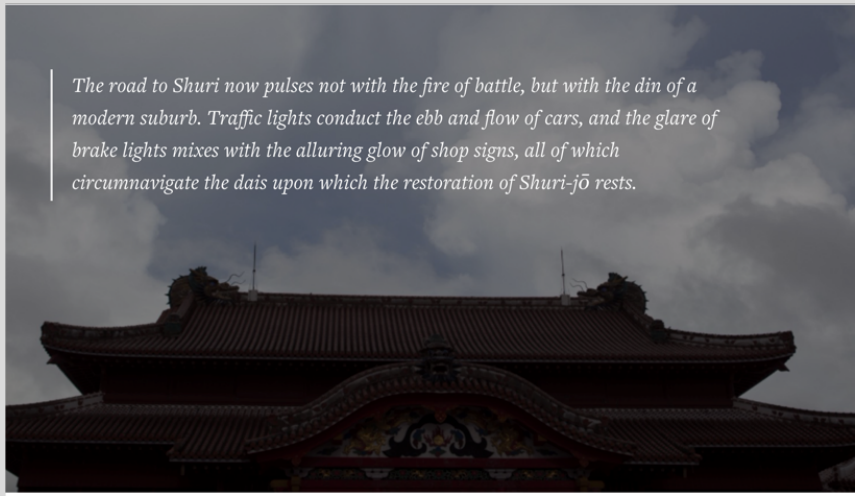
The Shiisaa Stared Back:

the grinning guardians of Tama-Udun

The Gail Project, medium.com

Charles Eugene Gail, 1952.

Our story begins with a photo taken in 1952. Two creatures hunch in the immediate foreground. At first, they appear hostile, fierce, protective. The next they are almost crazed, jovial, mocking—like kittens batting at a ball of yarn. Looking closer, it becomes obvious that they are statues. Dappled sunlight accents their rough surface. Mottled shadows give definition to the intricate patterns of fur ornately carved atop their heads. But where are they? Backed by rough wooden planks and tattered curtains, it looks like someone left them in a shed.



Tosh Tanaka, 2015.

An Uncommon Place: A Digital Companion

An Uncommon Place traces decisive moments in the creation of UC Santa Cruz, from the 1950s until the late 1970s. This Digital Companion follows the structure of the original exhibit in the Porter College Sesnon Gallery and the Cowell College Eloise Pickard Smith Gallery, marking the early history of UCSC through images and multi-media material. The exhibit

Phase 1: Coming Winter Quarter

Updates, Successes

+ Turning library expertise to support research and pedagogy for broader university community

+ Project collaborations that include staff time, visibility

+ Digital Exhibit Pilot to define workflow and assess long term viability of service

Challenges, Tensions, Take Aways

+ Messy, undefined process

+ Scale: Project v. Campus Wide Service

+ Staff Time: Support v. Intellectual Partner
